REPORT OF THE SENATE SPECIAL COMMITTEE.

Congress is just now busily engaged in perfecting another one of its "Reconstruction" measures for the purpose of embittering more and more the people of the South against the General Governmen!.

Majority and minority reports have been laid before the United States Senate by the select Com mittee appointed to investigate French, in 1803, Hayti has enthe alleged outrages in the South- joyed no less than seventeen exern States. The Committee confine their report to an account of the condition of North Carolina. Fifty-two witnesses were examined-of whom twenty-nine were Republicans, twenty-one Democrats, and the odd one a Minister who had no political convictions. The majority report is signed by Senators Scott, Chandler, Wilson, Rice and Nye, and their conclusions in relation to North Caro lina are summed up as follows:

First-That the Ku-Klux or gen zation does exist, has a politi cal purpose, and is composed of members of the Democratic of Conservative party; that it has sought to carry out its purpose by murders, whipping, intimidations, and violence against its op ponents.

Second-That it not only binds members to carry out decrees of crime, but protects them against conviction and panishment, first by disguises and secreey, and second ly, by perjury, if necessary, upon the witness-stand and in the jury

Third-That of all the offenders against the law in this order-and they must be many hundreds, inot thousands - because these crimes are shown to be committed by organized bands, ranging from ten up to seventy-five, not one has yet been convicted in the whole State. * * * While engaged pros-

ecuting our inquiries as to North Carolina, many communications have been received calling for examination into the outrages of a similar character to those com- one of the most deshable business stands in plained of in that State, which have been committed before and since the committee was organized, by bands of men in disguise in other States. Complaint is made that within the last two weeks the capital of Kentucky was entered in the night by a body of men, armed and masked, who proceeded to the jail, took possession of it, set at liberty a man charged with a murder, and then rode away unmolested. Shortly before that the jail at Union, S. C., was entered and ten prisoners taken out and killed. Like com plaints of murder, scoarging and violence, without redress, and demands for investigation, and the protecting arm of the Government all of which has been paid in, and confirmed by the Comptroller of the Currency. Authority has against these lawless mauraders, also been received for a further increase to the have been forwarded from the States of South Carolina, Georgia, Florida, Alabama, Mississippi, Vir-

Florida, Alabama, Mississippi, Virginia, Kentucky, Texas and Teannessec.

Into none of these could the Committee examine, considering it better to pursue our enquiry to completion, if possible, in one State, rather than take partial or disjointed statements as to all, and leaving to the Senate the determation of whether the public interests require this investigation to be nursued further.

and attention is caused to the fact that the safety of these deposits, as well all others, are guaranteed by the whole capital of the flank. No safer mode of temporary investment is offered to the public than this—the deposits being payable on demand or on short notice. Deposits of any amount received either in currency or coin, and payable in the same. Interest will be paid at the end of each six months, should deposits remain beyond that leagth of time, Columbia, S. C., January 28, 1871.

The minority of the Committee. consisting of Senators Blair and Bayard, report as follows:

They find no power for the for-mation of the Committee, as no State has passed any law in vio-lation of the Fourteenth Amend-lation of the Fourteenth Amend-lation of the Fourteenth Amendment; they protest therefore, antary Emissions, Impotency, Nervous Deagainst any inquisitornal investigation by Congress into the domestic affairs of any State, or ROBERT J. CULVERWELL, M. D., Auany attempt of the Executive to the Green Book," &c.
The world-renowned author, in this Admiinterfere with a State Govern- rable Lecture, clearly proves from his own mont. The investigation is a "plan experience that the awful consequences cut and dried," a conspiracy of Self Abuse may be effectually removed without medicines, and without dangerous surgidisappointed politicians who have caloperations, bougles, instruments, rings, lost office and the good will of the people. At the head of this consultant on the consultant of the people. At the head of this consultant on the people of this consultant on the people of this consultant of the people of the people of the people of this consultant of the people o spiracy plainly stands William W. be, may cure him-cit cheap'y, privately, and Holden, the Governor of North radically. This lecture will prove a boon to Carolina, and now undergoing trial by process of impeachment, address, on receipt of six cents, or two postfor high misdemeanors and gross age stamps, by addressing the publishers abuse of his official power. He has beggared the treasury of his State, and plundered, outraged. and betrayed her people, and now looks to the strong arm of the Federal Government as the only means of rescuing him and his followers from the just punishment due their crimes. The charment due their crimes. The character of the witnesses is then at Russet, Upper tacked, as "fitting instruments of Governor Holden's dark and bloody intent." Not one of them testitifies to facts within his own knowledge tending to prove North Carolina to be less safe as a place On hand and for sale by of residence than any portion of the Union lying North of her boundaries. The minority then entered upon an extensive argument to show that the disorders which have existed in North Car. DR. E. C. JONES, olina are attributable to misrule of the so-called carpet-bag State officers, the unwise legislation of Congress, and the machinations of the Loyal League, inciting and instigating the negroes to idleness, disaffection, and lawlessness.

THE COTTON STATES Life Insurance Company,

MACON, GEORGIA. THE business of this Company is confined y law to Life Insurance alone. It issues Policies on all the approved mu-

ual plans.

One third of the premium on its Policies ill always be given as a loan to all persons sho may desire it, thereby increasing the mount of Insurance for a smaller amoun ese lows, only for the first years' loan. The profits or dividends will constantly ay off the loans, hence the value of this dan of Insurance to those who have only small sur les femile This ere lit is given by one other Compa-

y only, doing business here.

The scarcity of money in the South, it is elieved, absolutely demands such an arangement. The Company of course acpts all eash, when the party insuring is ole or willing to pay it. There is another eature in the operations of this Company hat the attention of parties seeking Insurnee is particularly called to, viz: a surrenler value. There is but Company doing business here (Carolina Life) besides Cotton

States, which gives a surrender value. When circumstances render it necessary or one to abandon his policy, it will only e necessary for him to call for his surrenler value, which will be, in most cases, ni rey (90) per cent of all the money he has aid in, making it absolutely impossible for im to lose anything in any event. This is

ist.

Most other Companies give their insured paid up Policy for an equitable portion of e amount of money paid, in case of sur nder, but not to be paid until they die.

Prefer the Cotton States Life Insurance ompany then.

Because its office is in the centre of the otton States, and managed by good finanis and o en well known to us. Because it gives you a good surrender

alue in case of your withdrawal. Because it has \$500,000 guarantee, the argest ever given to any Company, for the eurity of Policy holders. Aver's Cherry Pectoral

For Diseases of the Throat and Land such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

Probably never before in the whole history of medicine, has any thing won so widely and sedeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and nigher in their estimation, as it has become better how a lits uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector spains them. White adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerons affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are some times subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought to curable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is in mastery over the disorders of the Lungs and Throat, that the most obstinate of them yields is. When nothing else could reach them, under the Cherry Pectoral they subside and disappear. Singers and Public Speakers find green protection from it.

**Aethma* is always relieved and often wholly cured by it.

eured by it.

Bronchitts is generally eured by taking the Cherry Frectoral in small and frequent dose.

So generally are its virtues known, that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained. Ayer's Ague Cure,
