SOLVENT communicates through the Blood, Sweat, Urine, and other finids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material.—Serofula, Syphilis, Consumption, Glandlar disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of skin diseases. Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Brysipelas, Acue. Black Spots, Worms in the Fiesh. Tumors, Cancers in the Womb, and all weakening and pointul discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them. If the patient, dairy becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPA-PARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will teel himself growing better and stronger, the food digesting better, appetite improving, and fish and weight increasing.

Not only does the SARSAPAELLIAN RESOL-

PERFECT PURGATIVE PILLS.

POR THE CURE OF Intermittent Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Herdache or Bilious Hexdache and Bilious Fevers; and all Discusses originating in Biliary Decrangement or Liver Disorder, Caused by Impurity of Blood and Malari, or Masmatic

In presenting this new medicine—"KINA CHILL CURE"—to the public, and particularly to the afflicted, as a cure for all forms of Chills and Fever, and its sympathetic disorders, it must be observed, that, inasmuch as these disorders have their cligin in an impare state of the blood, with more or less functional derangement of the Liver ar a Spleen, it is of primary importance, that due attention should be given to the condition of these innertrant organs and to an expedie that d'ae attention should be given to the condition of these important organs, and to use such a production of these important organs, and to use such a production as combines the sessuital preperties of alterative and blood-purifying principles. Without such a medicine and su h treatment you will fail in curffig Chilks and Fever.

The "KINA CHILL CURE" is the great anti-dote; a vegetable compound possessing extraordinary deobstruout and purifying power, cleaning the blood, removing all obstructions of bile from the liver and promoting its proper discharge.

from the liver and promoting its proper discharge.

The "KINA CHILL CURE" is the natural antidote which neutralizes the poison by its purifying influence, and thus repels discase and restores to health. The remedy is entirely new and original with the proprietor, and from known results under his own personal observation, puts it forth as a chill Care. It will instantly check the Chille or Ague in any persons who have suffered for any leugth of time, and by continuing its use according to the directions, a permanent cure may be effected and the general health restored.

Debility and Night Sweets, Loss of Appathesiand Strength—will be immediately restored by the use of the KINA CHILL CURE, and as a preventive during the sickly season, it will be the use of the KINA CHILL CURE, and as a preventive during the sickly season, it will be found an invaluable Family Medicine. The "KINA CHILL CURE" is a new remody, embarcing new principles, combining new powers, upon a new theory. Vegetable in its component constituents, safe in its administration, and positive in its effect, the proprietor and inventor puts it forth as a cure for Chills and Fevers, and all kindred diseases, after a series of experiments so successful in results as to stamp it at once as the Eureka—and to the arbitrament of the world, it stands or falls upon its own merits.
