COTTON FOOD SECURED BY LETTERS PATENT. A SPECIAL FERTILIZER, prepared by the Maryland Fertilizing and Manufacturing Proc ix office, on Main street, a complete

company, Ballimore, for the cotton crop, which they claim to be of the highest grade of | stock of

Fertilizers sold in the South. It has been used by several hundred planters in North and South Carolina and Georgia for four seasons, with the following results:

It increases the crop from 75 to 200 per cent.; it resists drouth in all cases. The crop is not affected by rust; it matures the crop from three to four weeks in advance, thus insuring against early trost, or in the event of a backward season enables the planter to put in his crop as late as the 1st of June with a certainty of success. It produces a better quality of cotton; its effect on the second year's crop without additional manure, ranges from one-third to one-half of the first year.

It is mechanical, preparation surpasses that of all other Fertilizers, being at all times and in all conditions of weather in perfect order for drilling.
