To the Public.-It affords me much pleasure to state that in July, 1871, From reet Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and to testify to its superiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when first put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers; its quickly drying properties, which saves much time in the execution of work where paint is needed, and its very perceptible tenacity, which imparts beauty and duraoility to the objects on which it is used. As such I most carnestly recommend it to the erchants and tradesmen of our city, believing it will give them greater satisfaction than

Maryland Line, Baltimore County, Md., September 24th, 1872. C. P. Knight, Esq.—Agent for Bradley's Patent Enamel Paint, Baltimore—Dear Str. The paint which I purchased from you has given entire satisfaction, so much so that all my neighbors intend to follow my example, and have their houses painted. It is not only durable and cheap, but it looks better after it is put on than any paint I ever saw. The painter I have employed is delighted with it. He says that he can paint twice as fast, and at the same time do a better job, with the Enamel paint, there any other paint he ever used. I can therefore without hesitation recommend it to the public as one of the very best articles of paint ever introduced. JAMES HALL. Yours, very truly,
