

Special and Local.

INDEX TO NEW ADVERTISEMENTS.—Dr. S. F. Fant—Giles' Linctament. J. J. Carrington—Sheriff's Sale. T. W. Holloway—Bankrupt Sale.

A tale which will bear repeating, and one which has been told in the HERALD time and again, is again brought to the reader's attention. They will be pleased to hear it, too, for it will lead their minds in a pleasant channel. It is simply this—if any article in China, Crockery, Glass, Iron, Tin, Wood, Stone or composition used by housewives is needed, the place to get it cheap is at Kingsland & Heath's, under the Columbia Hotel, Columbia, S. C. No charge is made for this information; it is given gratuitously to benefit the readers of this paper, and in consideration of the desperate state of the money market. Try them. 23-4f.

A SPLENDID CHANCE.

We want a good many more subscribers than we have, and it is our purpose to make a vigorous effort to obtain them. We trust to merit in full the success we desire, by improving our paper in every way within our power. One of the best ways to make a paper better is for its readers to strengthen the hands (fill the purse) of the publisher, by enlarging the subscription list. To publish a good paper costs largely. Friends, speak a word for us to your neighbors. Show them copies of our paper. Enroll upon them to subscribe for a year, and give it a trial in their families. Persons out of employment can make money by calling at our office, and engaging to canvass for subscribers. We wish good work, and are willing to pay a good price for it. A special inducement, we have arranged to present, on the 4th of July next, FIVE WEEKS SEWING-MACHINES, style 1, price \$20.00 each to the five persons who will send us the largest lists of subscribers from now until the 20th of June. No one will be entitled to a machine whose list contains less than twenty-five subscribers, and no person already a subscriber will count. Send the names and money as fast as you get them, and they will be placed to your credit. It is so easy to do for the Free Mason and other charitable societies, who have widows and other women dependent upon their charities, to secure sewing machines for these women, who will thus be enabled to support themselves. TAX 12 1/2.

When Edward Scholtz repairs your clock or watch it is warranted for one year. Try him. Satisfaction guaranteed. 15-17

W. J. Duffie, Bookseller, Columbia, has a few Pianos and Organs of celebrated makers to sell on the \$10 per month installment plan. This is the first rate chance to procure a good instrument. 10-4f.

A MAGNIFICENT OFFER.

A very liberal contract with the Weed Sewing-Machine Company will enable us, we hope, to place their celebrated Machine in our hands. So fine an opportunity to secure a first-class sewing machine seldom occurs. May we not expect our friends, and all interested in it, to make a nation-wide effort to extend our circulation, and thereby increase our influence? Cannot the reader form a club in his or her neighborhood, and secure this machine at a premium? A few hours of well-directed effort will obtain it. Are you a postmaster in a country town or village? With a little thought and in a few days you will have your own or some other family happy in the possession of a great labor-saving machine, warranted to be perfectly new, of the latest improved construction, and in perfect order. 19-1f.

THOMPSON, Dentist, over Phifer's Store. 33-1f.

DEATH OF MR. G. T. SCOTT.—This gentleman, so long identified with the growth and prosperity of Newberry, died at his residence in this place, in the 69th year of his age. Mr. Scott was a native of Maryland, but came to Newberry thirty-five years ago, and will always be remembered as an upright and honest gentleman and a true Christian. A prominent member of the Baptist Church, he took an important part in advancing the cause of Christianity in this place, and by his death the community has sustained a loss which will be hard to fill.

Last fall he had a severe and painful illness which confined him to his bed for a long time, and from the prostration of which he has never been relieved until death came, which released his soul from this earthly prison house of clay and bore it upward to celestial triumphs and rewards.

NEW FLOUR.—Capt. J. P. Auld sold on Monday a barrel of new flour, it is a superior article and equal to many of the favorite brands of Western flour.

Dr. Wm. Kinard has been at the Hot Springs, Arkansas, for the past three weeks, and has the hope of being benefited. We trust he may return with restored health.

THANKS.—Mr. Felix Graham, one of Newberry's early farmers, will accept thanks for a mess of green corn, and a couple of very large cabbage heads, the finest we have seen. Mr. Graham is always up to time.

SEVERE LOSS.—We regret to hear that the Rev. Mr. Lawton lost on his plantation by a rise in the Saluda, one hundred and fifty head of sheep and forty acres of oats which were shocked in the field. This is a very serious loss to this gentleman and we sympathize deeply with him.

There is a saying among the negroes of Virginia that just before a great or very wicked rascal dies that it rains like "de debil for two or three days." If there is anything in this superstition some prominent Radical would be on his last legs.—Columbia Register.

Several of them may be, Mr. Register, or perhaps it is the political death of the Republican party.

Owing to the heavy rains above Greenville for the past week, the Northern mail for this point missed connection on Friday and Saturday. And on Monday, both mails—from Columbia and from Greenville—missed. We understand that a trestle below Alston and one near Saluda Old Town were washed away, consequently no trains ran over the road on Monday; a great inconvenience to the business public.

Col. E. S. Keitt, of this County, has given to the News and Courier a well digested letter urging the delegates to the St. Louis Convention to vote for Tilden and Hendricks, for President and Vice-President.

We learn that near Frog Level, last week, two negro men were quarrelling over a spelling-book, when one drew a pistol and the other a knife; the party with the knife inflicted a severe wound in the side of his antagonist, from which he died in a few minutes.

We acknowledge receipt from Mr. E. R. Stokes, Book Binder and Blank Book maker, Columbia, of a set of substantially bound volumes of the Newberry HERALD for 1874 and 1875. Our bound volumes are now complete to date.

We notice that Dr. J. R. Thompson of this place has been elected 1st Vice President of the Dental Association of South Carolina. He likewise read an essay on "Contour Work and the Cause of its Failure," before the Society. The Doctor holds a high position in his profession, especially for one so young.

The large Dry Goods house of McCreery, Love & Co., of Columbia, are selling off their goods so low that it will pay any one to look at their prices before purchasing elsewhere. Having such a large stock, they can afford to make quick sales and small profits. All orders promptly filled, and all they ask is a trial. See their advertisement. 1t.

Piedmont Mills.—Messrs. Mayes & Martin have just received the first cloth from the above named manufactory. In texture, weight and general finish it is pronounced by competent judges to be equal, if not superior to any goods of the kind brought to this market, which is quite gratifying to many in this section of the country who are stockholders in the Factory. The cloth can be seen at Mayes & Martin's.

Owing to the inclemency of the weather on Friday morning, many persons were kept from the Grange Picnic who otherwise would have attended; as it was, fifty or sixty persons were present. They all agree that the speech of Mr. Smedley was one of the best speeches on that subject ever delivered in this County. Capt. Lipscomb spoke after Mr. Smedley in his usual trenchant and forcible style.

THE COMING MAN, or the coming event, is made known in the announcement that John Robinson, of Circus and Menagerie fame, is fitting up his immense concern for the fall and winter campaign, and that Newberry will be taken in, in the grand tour which will be made. The "Advance Trumpeter," a large four-page sheet, giving a description of this Mammoth Exposition, is received. It is almost too early for the boys to begin laying up their pennies to buy tickets, but the illustrious John begs that notice be made of his coming and we comply. He will be here some time in December.

Last Thursday night, on Mrs. Keller's place, a colored boy named Jim Harris was fearfully stabbed by a colored woman named Nora Kinard.

The circumstances of the case are as follows: Nora's husband had a fight with Jim's brother that evening and after the difficulty was over Jim chanced to walk through the yard, when some words passed between Nora and himself; a scuffle ensued, in which Jim was out three times with a large sized pocket knife, once in the left breast, once in the abdomen and on the head. The doctors entertain very little hope of his recovery.

On last Friday a terrible accident occurred on the Anderson Branch of the G. & C. R. R. An extra train was going over Broadway trestle when the engine broke through and fell nearly seventy feet in the water. The engineer, Mr. Jack Wilson, so long and favorably known on the G. & C. R. R., was killed, together with the conductor, Mr. Lafoy; there were four persons on the train and three were killed. It is said that the engine turned completely over twice before it touched the water. The only man that was saved was rescued on Saturday morning out of the water, where he had remained all night, being so fastened that he could not get out without help.

OUTRAGE.—Our friend and worthy fellow-citizen, Peter Rodelsperger, left his home on last Wednesday night on an errand of charity—to sit up with the sick and dying—a duty which he is always ready to perform and generally sets others the example. Some miscreants finding out that he was away from home, broke into his kitchen, which is quite close to the house, helped themselves to such victuals as they found, threw the balance on the floor, took with them such provisions as they could carry, broke the dishes and defiled those they did not break. Mrs. R. heard the noise but had no idea that thieves would enter the kitchen at such an hour, and attributed it to some dog. Friend Rodelsperger is a quiet citizen; but if he should find out the perpetrators of the deed we would advise them to take out an accident insurance policy.

RICH LEGACY.

Dr. Jas. L. Gilberd will be remembered by many of our old citizens as a Physician of great note in Newberry and Laurens Counties. The Doctor has been in his grave many years, but he left a valuable legacy behind him, in the shape of Dr. Gilberd's Liver PILLS. If you have a headache, take two or three pills at bed time, and you will find sure and permanent relief. If you are bilious and feel bad generally, a good dose of these Pills will perfectly relieve you. For sale by Dr. S. F. Fant. 21-2f.

Mr. Clarkson's Academy is going to give an exhibition when school breaks up. Speeches, dialogues, &c., will compose the programme.

Since putting in the above we learn that the Exhibition will come off on Friday night at Temperance Hall, and it is hoped that the young gentlemen will act their part with honor to themselves and to their teacher. The patrons and friends of the institution are respectfully invited to attend.

If you want to feel well and lively, use Dr. Bull's Vegetable Pills. Your druggist keeps them.

ABOUT THE TOWN AND COUNTY.—

Six days and nights of steady rain. Everything was damp on Saturday last. And the farmers are getting alarmed lest grass gets the upper hand of them. We advise them to use elbow grease without stint.

As proof that the blackberry crop is all right, Mr. Robt. Reagin brought in two twigs on which were seventy large ripe berries. Another proof is the number of little darkies who carry the fruit around for sale.

There is great mortality among little chickens, and the prospect is that tables will not groan much this summer—the lack of them will cause groaning.

Too much attention cannot be paid at this season to the cleaning up of yards—trash of every kind should be thrown out.

A liberal use of whitewash is also recommended—it not only adds to the appearance but conduces to health.

It is said that there is more money in Newberry than in any other County in the State. We don't believe a word of it. If it be true we pity the other Counties.

It is thought by some folks that fractional currency will soon be of no value. This is a mistake. If any one has doubts, however, and would like to dispose of what they have, we will take it off their hands for subscription or stationery.

Now that the ground is soft the street force would find it easy to pull up dog fennel. It should be taken up before going to seed.

Newberry will be well represented at the Monticello Centennial, and we guarantee that barring the mosquitoes they will have a glorious time.

A gymnastic club is talked of being started here, for the muscular development of the pensive young men, who need some exercise after the fatiguing duty of brushing the agile fly off the sleek counten.

There is some talk of the young ladies of the Female Academy giving another concert. That it will be a success we are sure.

The plaintive wail of impecunious people clamoring loudly for more rag-baby is heard in the land.

A full line of stationery at prices to suit the hard times can be found at the Herald bookstore.

Wash-women are advised not to leave any clothes hanging out over night—there are a few rascals abroad in the land yet.

Ice cream and lemonade were at a discount last week in consequence of the bad spell of weather.

If there is a man in Newberry who has not had enough rain for the present—he is requested to report.

The creeks around town were unusually high several times last week. Such long continued and heavy rains have not visited this section in years.

Rain every day last week and no sprinkles either.

Money continues very scarce, at least in this office. Take pity on the printers.

The Texas fever among the young men is dying out.

The streets last week were in a fearful condition, reminding one of the winter season.

It is feared that the recent rains have injured the crops to some extent. A large quantity of grain had just been out and the rain coming before it had been taken up has hurt it somewhat.

No one unless he has tried can understand the agony of trying to fill up this column when there is nothing to write about.

Checkers, the standing amusement of this go ahead town, were entirely neglected last week. Cause—all discussing politics.

Every County in this Judicial District has announced some candidate for the Solicitorship. Newberry should not be backward, but bring hers out and we are sure that in the coming race he will occupy an important place.

This is the time of the year for the festive young to indulge in the seductive green apple.

We vote apple trees a nuisance unless growing a thousand miles away from little boys and girls.

Mothers may continue to wail, and slap the juvenile and make him too; But all this will not avail When the small boy craves green fruit.

Come and subscribe to the HERALD, the best family newspaper in the State. Politics and pic nics rule the day, both are very fascinating.

But getting a new subscriber is soothing.

We hear of no preparations for celebrating the glow-horions 4th, a good way to celebrate it would be to come and subscribe for the HERALD. Festivities for one day pass away, but the HERALD will remain forever.

Everything as usual; nothing happens to vary the dull monotony of this class to town.

Over four inches of rain fell in three days last week.

The illustrated papers are kept at the HERALD Book Store, and the next best thing to going to the Centennial is to come and buy one every Friday.

The Young Men's Democratic Club is now in a flourishing condition. Every two weeks they meet, and judging by the way they discuss political matters one would come to the conclusion that they mean business, and intend to do all in their power to purify the government. It will meet again on next Monday night.

The most important thing offered for sale last week was a Bull Frog, which the owner, an average representative of the great unwashed, was trying to dispose of for the paltry consideration of 15 cts. Not being an epicure, not wishing to have the trouble of butchering the amphibious animal, not knowing how frogs tasted, and not having the requisite 15 cts., it was gracefully declined.

No one as yet has gone from here to the Centennial, and from the present appearance of things not many from here will attend. Every one, though, in the dim recesses of their true inwards, hope and believe that something will turn up, so that they can have a free pass, and their board bill paid at Philadelphia during their stay; but like all illusions will melt away, and after the show is over, they still at home, will moralize and philosophize on the folly of people spending money for such frivolous amusements.

A liberal use of whitewash is also recommended—it not only adds to the appearance but conduces to health.

It is said that there is more money in Newberry than in any other County in the State. We don't believe a word of it. If it be true we pity the other Counties.
