DON'T FORGET IT.—Now that the Fall business has commenced, we would respectfully ask the mercantile community to remember that all kinds of Job Printing, such as Bill Heads, Letter and Note Heads, Statements, Tickets, Circulars, Cards, &c., can be printed as cheap—if not cheaper—and certainly with greater despatch at this office than abroad. Have your work done at home, and save money by the operation.

TO RENT.—A part of a most desirable residence most eligibly situated, and within a pleasant walk of the Court House, is offered for rent to an approved tenant. Terms moderate. For particulars apply at this office.

THE SAFE COURSE.—An experience of nearly ten years has sufficiently proven the strength of the Piedmont & Arlington, and the ability of its officers to manage a corporation so extensive and so intimately connected with the well-being of the wives and children of its patrons in every section of the country. No company has so rapidly and successfully achieved so prominent a position. By following the obvious laws of life insurance—careful selection of risks, careful investments of funds—economy in management, this Company has continued to prosper even during the few years of financial distress. By a truly conservative policy success has been won, and now no temptation to depart from the safe course will lead it astray.

DEATH OF MRS. ROSA BROWN.—But a few fleeting months ago, this fair young lady, the beloved wife of Mr. Percy Brown, went forth from the hymeneal altar with the orange blossoms upon her brow, elate with joy and hope. To-day she sweetly sleeps under the falling leaves of Rosemont Cemetery.

"And then we'll think of one who in her youthful beauty died, The fair, meek, blossom that grew up and faded by our side; In the cold, moist earth we laid her when the forest east the leaf, And we wept that one so lovely should have a life so brief; Yet not unmet it was that one, like that young friend of ours, So gentle and so beautiful, should perish with the flowers."

L. R. Marshall wants to buy a few good milk cows. See him at once.

Our townsman Mr. A. J. McCaughrin has furnished us an interesting record of the rainfall in Newberry from Nov. 3, 1875, to Aug. 30, 1876. It will appear next week.

As a general rule those who do not subscribe for a paper are the first to criticize its contents. Those who pay for their reading are more liberal and of course more honest.

We commend the article headed "Advice to South Carolina Colored Men," from the New York Herald, to the attentive perusal of the colored citizens of Newberry. It will pay them to read it.

W. T. Wright will sell tin-ware, stoves and stove-pipe, and do roofing and gutting and all other job work cheaper and out of better material than any one in the up-country. If you don't believe it try him.

We commend with thanks a copy of the Campaign Text Book, being a summary of the Leading Events in our history under republican administration. It is a most voluminous document.

HELENA.—A series of religious meetings, commenced on Monday, will be continued during the week in the Church at Helena. The meetings are under the auspices of the Young Men's Christian Association and will be attended by the ministers of the town.

DISTRESSING PICTURE.—It is said that many of the negro women are threatening their husbands with leaving them if they vote the democratic ticket. If they persist in their determination the voice of many colored grass widows will be heard in the land. There will be weeping and wailing and gnashing of teeth.

McCreery, Love & Co., of the Grand Central, Columbia, are now offering great attractions in Fall and Winter Goods, at unprecedentedly low prices, and their stock is not only great in variety but of best quality. The Bargain Counters in this establishment are renewed daily and are not the least of the attractive features in this store. Orders promptly attended to.

Township 5 met at Jalapa on the 23rd, and addresses were made by W. H. Wallace, J. Y. Culbreath and T. S. Moorman, Esqs. The colored persons present were attentive listeners, and during one of the addresses, which pictured the future in the event of another term of republican misrule, Berry Gilliam, a colored man, was overcome to weeping. He has joined the democratic army.

A good friend and subscriber, whose Postoffice is at Martin's Depot, will accept thanks for his appreciation not only of the pleasure experienced in reading the HERALD but for the indulgence given him. He may count on the HERALD's visits as long as we continue to publish. A large imitation of so worthy an example will help us exceedingly.

DAY OF ATONEMENT.—This festival, one of the most important in the Jewish calendar, was observed here on Wednesday and Thursday of last week, commencing and ending with the sunset of the days named. The ordinance for this day of fast is found in the twenty-third chapter of Leviticus, including the twenty-sixth and thirty-second verses. The day is strictly observed all over the globe.

RIGHT.—A piney woods friend called in the other day and deposited a box of potatoes which he said he had failed to sell. "It's an ill wind which blows nobody good." We are glad to say that he was cheerful under the circumstances—and that his suggestion for every one hereafter to do as he did with whatever articles they fail to sell is a capital one. He says it's a good way to pay the printer for the large amount of work which he does for nothing. That friend's head is level.

LUTHERAN.—The Lutheran Tennessee Synod will meet at St. John's Church, Lexington County, on Thursday inst. The Lutheran Synod of South Carolina will meet at St. Stephen's Church, Lexington County, on Tuesday the 10th inst.

At Beth Eden Church, in this County, a two days' meeting was held in preparation of the communion of last Sabbath.

CLOTHE YOURSELVES.—The card of Messrs. Wright & Coppock, the popular clothiers of Newberry, speaks for itself, yet it may not be amiss in the HERALD local to say that we have examined their stock and have found it large in variety, and that the prices are far below those of last Fall. There is no reason whatever for the citizens of Newberry to wear old clothes any longer when new and elegant suits can be had so cheap.

RELIGIOUS.—Aveleigh (Presbyterian) Church closed on Friday last a profitable series of religious meetings which lasted nine days. The pastor, Rev. R. A. Fair, was assisted by Dr. F. Jacobs, of Clinton, and the Rev's Frierson and Pierson. It will be gratifying to the friends of the Church to know that this labor of love was crowned with success, in that eight accessions were made to the membership, including those of tender years as well as of mature life. Immediately before the Sabbath service there were three baptisms, two infants and a young lady. At the conclusion of the morning's service a very interesting report was read, showing how acceptable are the labors of the pastor, and that there is a bond of union between him and his people which makes Aveleigh a live and working Church. The report in its several particulars not only gave evidence of the prosperity of the Church, but afforded instruction.

ST. LUKE'S CHURCH.—Right Rev. W. B. W. Howe, accompanied by Rev. Mr. Kershaw, paid his annual visit to this parish last week. On Saturday night Mr. Kershaw delivered an appropriate address, and on Sunday morning the Bishop administered the Holy Rites of Baptism and Confirmation and celebrated the Lord's Supper. Six persons were confirmed. The Bishop preached morning and night in his usually clear, chaste and incisive manner. His sermon in the morning was a vivid portrayal of the beautiful narrative of the widow of Nain, in which the wonderful compassion of our Lord's humanity, the consolation afforded through His redemption and sovereign power, as the Resurrection and the Life, were signally shown on that memorable occasion. Some of the causes and effects of this, among the most touching of our Lord's acts while on earth, were most happily adverted to. The discourse at night was based upon the text "What is Life?" The gifted speaker did not presume to attempt a demonstration of this great problem by the light of science, but touchingly presented the striking truism that "It is even as a vapor that appeareth for a little while, and then vanisheth away." His allusion to the dark volume of false thoughts, writings, words and acts which are daily emblazoning upon the tablet of memory was a strong and touching appeal to a life in earnest in its duties, and in "the uses of the true, the beautiful and good," whose lofty ideals are based upon a sweet simplicity, a fervent charity and the graces of humanity.

The music, while more elaborate than usual, was in perfect harmony with the beautiful and elevating services appointed for the occasion.

The China, Glass and Crockery Store of Messrs. Kingsland & Heath is in the same old place, under the Columbia Hotel, Columbia, and notwithstanding the pressure of the times keeps up to its old standard of attractiveness. It is always full of the newest goods and at prices to suit the pockets of the people.

THE SEMI-TROPICAL, a monthly journal devoted to Southern Agriculture, Horticulture and Immigration, Literature, Science, Art and Home Interests, published by Chas. W. Biew, Jacksonville, Fla., at \$3 per year. This is a first-class monthly and worthy of a place in every planter's home.

COURT.—Judge Northrop opened Court Monday afternoon. As soon as the Grand Jury was organized, the Foreman approached the Judge and was for some time engaged in earnest conversation with him. It was understood that the Grand Jury through their foreman was very urgent that the Judge should discharge the jury—Grand and Petit—at once, as it would be most prejudicial to the public interests to hold them. The Judge had the Solicitor called and proposed to wait until next morning before charging the Grand Jury. The foreman, however, suggested that if His Honor would consider their suggestion at once, it would save much expense and time, and that in an hour or two they would be ready with their presentment. The Judge then took a recess until late in the afternoon. Upon reassembling the Court, the Grand Jury made the following presentment, which was ordered published. Rules were at once issued to carry out the special orders of the Court at the former term and the jury discharged—the Court observing that he felt constrained to obey the behest of the Grand Jury, but would hope to clear the Equity Docket before leaving. There is but one prisoner in jail—and he has been released on bail—and that for a slight offense. This speaks well for the peace of the County. There are no funds to pay Court expenses, the fields are white with cotton, and the lawyers are nearly all at the front engaged in the great work of redeeming the State.

STATE OF SOUTH CAROLINA, NEWBERRY COUNTY—OCTOBER TERM. Hon. L. C. Northrop, Judge 7th Judicial Circuit.

The Grand Jury would respectfully report, that they have been informed that there is no County funds in the hands of the Treasurer to pay the expenses of the present Session of the Court, and as a majority of the Jurymen are daily laborers they cannot afford, in justice to their families, to lose the time, and wages they would earn, in attendance upon the Court; and as this is a very busy season of the year in gathering the crops, we would respectfully suggest to your Honor that in our opinion it would be well to adjourn that part or portion of the Court requiring the attendance of a Jury.

The Grand Jury would respectfully ask the Court what action, if any, has been taken by the Court, in regard to the various presentments made by it, at the last term.

Respectfully submitted, S. P. BOOZER, Foreman, MANN X FLOYD, mark, SMITH X DAVIS, mark, HENRY X BOYCE, mark, EDWARD X YOUNG, mark, P. RODELSPERGER, J. D. CASH, JESSE DOMINICK, J. M. SILL, WILLIS X SAUNDERS, mark, CHAS. M. LONG, mark, LANG X DEWALT, mark, JOHN X FERN, mark, JNO. G. PIESTER, W. H. HARRIS, JOHN T. PETERSON, mark, DAVE X BOOZER, mark, Newberry, S. C., Oct. 2, 1876.

LOST AND FOUND.—We have been informed that a gentleman living in the upper part of the county, in the neighborhood of the "Charleston House" was brought to grief one morning last week at the loss of his upper teeth which he had placed in a tumbler of water on retiring the night before. The lower set were left, but with them only what could be done with the morning's breakfast? Visions of death from starvation entered his mind, while he swore vengeance against the thief. He did not die, however, and the next night he determined to wait and watch in the event of the thief's return for the other teeth; so he lay him down on "his little bed" and with bated breath waited. He did not wait long ere he heard something coming down the steps, and directly saw a large rat making towards the chair on which stood the tumbler with the teeth. Nimbly climbing up, the rat seized its prize and made off, followed by the owner, who watched the animal until he entered his hole. Upon tearing down the ceiling he was made happy in finding both the upper and lower sets placed together in the form of a circle—the rat evidently intending them as a wall for a nest. We are pleased that the finale was so pleasant, and that our friend is again the happy possessor of the teeth without which he never could have held his own in a neighborhood where the ladies are so charming, and good eating is so abundant.

The watermelon season is about over, but young love's dream is always in season. Isn't this nice: "Dear Samie, Pap's watermillions is ripe, come and bring some poetry like you brought afore. My love for you will ever flow like water running down a tater row. Bring a piece as long as your arm, and have a heap more about them raving ringlets and other sweet things. Come next Sunday and don't fule me."

Hickory shirts are sometimes worn and tea is made of certain herbs, but to expect printers to live entirely on wood is simply preposterous. Everybody in ten miles of Newberry wants to pay for the Herald in wood. A little flour, corn, oats, chickens to vary the bill of fare will give pleasure.

At a republican meeting in the country a few nights since, a party of white demagogues sent in a request to be permitted to occupy seats on the floor and to talk out in meeting. Without any reason the chairman, secretary and other head men leaped through the windows and fled. This, no doubt, will be worked up into a ku klux story in one thrilling chapter.

ABOUT THE TOWN AND COUNTY.—Weather delicious, cool, bracing. Mosquitoes are withdrawing. And all kinds of business reviving. Except that of printing. Heavy white frost on Monday morning.

Political atmosphere is serene and all along the line is quiet. It does one good to see Court House square filled with wagons once more. Sow oats, sow oats. The farmer cannot be too strongly urged to this. Streets crowded on Monday. Court, cotton and canvass cause of concourse. Turkeys are being fattened for Christmas—there are none in our yard. Jalapa is healthier at this season than the oldest inhabitant remembers. The colored glue club sing well, and their serenades are enjoyed. "Possum and 'tater suppers are now in order. The democratic ticket, State and County, grows in favor every day with the colored voter. We congratulate our friend at Kinard's T. O. in that he does something for his country. The disgust for the Chamberlain ticket grows stronger every day. There is no good in it. Frog Level had a big time on Thursday last. Everybody was out, both white and black. There is a practice under the sun of Newberry which ought to be stopped, and this is asking the editor to do work for nothing which should be paid for. Pool's Hotel was in luck last week—among the arrivals we noticed Peas and Beans; a little Bacon to season them would have made things better. We have been running two or three hundred subscribers since Spring on the promise of pay in the Fall. The time has come. There was a baby show in town last week; specimens exhibited were fair to look at, and the happy fathers and mothers had cause to rejoice. Never was there a quieter time in Newberry on the eve of an election. It is a good indication of a return to better times. The devil will surely get the man who won't pay his debts when he can, or who contracts a debt without any intention of paying. The clubs are admonished not to relax in their efforts although the prospect looks bright and hopeful. Work steadily, work all the time till the end. Col. Lipscomb has removed his stock of goods to the large brick store in Amoska—former stand of Capt. Webb. We wish him a big trade. Democratic barbecues and basket picnics are the order all over the country, and great credit is due the ladies for the good work they are doing in this direction. Mr. Alfred Crotwell will accept our thanks. When he says anything he means it. We hope he will get 15 cents for cotton before the season is over. A smart little fellow—not in Newberry—surprised his mother by saying, "God is everywhere; He is all over me; and when you spank me you spank God." He's a spanking boy. Newspaper men all over the world long ago settled down on the folly of trying to please everybody. The Herald is in line. Some men are not worth a single effort. Many colored men in the county would join democratic clubs, but they fear they would have to fight their radical friends from now till election day. Drugs remain firm, not so druggists. Our young friend Sam, in the execution of a gymnastic on Thursday last unexpectedly found himself sitting on the granite step of his store. Glad that a friend is occasionally found who shows his appreciation of the Herald by settling his dues, and thus recognizing the fact that printers have to live as well as other kind of people. As the season when the young folks will want to dance is approaching, we give to the colored preacher's idea about "the time to dance": "Yes, dar am a time to dance," said this divine, "an 'it's when a boy gets a lickin' for gwine to a ball."

A gentleman across Scott's creek purchased a basket of chickens from a darkey; the number paid for was five, but when taken up there were six. Was it a mistake in simple addition, or were the chickens borrowed without knowledge as to the number? Corn stealing is on the rise at Jalapa. Col. Cannon, L. E. Folk, Maj. Kinard and Hayne Chalmers have all lost more or less. Col. Cannon has had his smoke house broken open and cleaned out of everything eatable. A Molochan candidate don't make big speeches, but makes good points in a brief way. Among the good things promised is that when the democratic ticket is elected the ladies will have the privilege of enjoying moonlight walks, and with enhanced chances for getting good husbands. They deserve all this and more for the good work they are now doing. The watermelon season is about over, but young love's dream is always in season. Isn't this nice: "Dear Samie, Pap's watermillions is ripe, come and bring some poetry like you brought afore. My love for you will ever flow like water running down a tater row. We have received a copy of "The City Record," the official journal of the Bureau of Vital Statistics of New York and extract from the report upon milk inspection, the scientific deductions of Dr. J. Blake White, assistant sanitary inspector, from experiments made by him under directions of the Health Department what may prove useful to farmers, as well as to consumers, for testing the purity of specimens of milk. To the physician who is frequently consulted as to the value of a given specimen of milk for the nourishment of infants the observations are particularly valuable. The series of experiments which were conducted from various farms in the vicinity of New York are highly interesting, and show a wide range of experimental research and chemical analysis, and from which the following facts are deduced from experiments at 60 Fahr: 1st. That no healthy cow, as a rule, yields milk of less specific gravity than 1.029; if exceptions do occur they are so rare as hardly to deserve mention and are not of permanent duration. 2nd. That the mixed milk of any number of cows never has so low specific gravity as 1.029. 3rd. That the 100 mark upon the Board of Health lactometer equals specific gravity 1.029, adopted as a standard by the Department, is a computation far below the average; hence any sample of milk tested in this way and found to fall below the standard can be justly adjudged grossly tampered with.—Beaufort Tribune.

MORE TROOPS FOR SOUTH CAROLINA.—WASHINGTON, September 27.—Ex-Gov. Scott, who is here, expresses the opinion that it will be necessary to have more United States troops to inspire the negro voters with confidence in that State, and that without them Haupton will be elected. Senator Patterson has returned from Philadelphia, where he went to see the President, and reports that the troops necessary to preserve order in Aiken, Edgefield, Newberry and Laurens Counties will be furnished. [Special to N. Y. Times.

A CARD. Mr. U. B. Whites, Chairman Ex. Com. Prosperity Dem. Club: I understand there is a report in circulation that my life was threatened at Prosperity, at the meeting on the 28th inst. In justice to the Executive Committee and the Democrats at that meeting I must say that I apprehended no danger, heard no threats and saw no pistols drawn. I did not see but one pistol in the crowd. I was cordially invited by the white citizens and guaranteed by the colored citizens a respectful hearing. As I am in favor of peace I hope my friends both white and black will deny and correct the report. Respectfully Yours, RILEY MCKISSICK.

TO SHAKE, OR NOT TO SHAKE? Ay, that is the question. Is it better to cover from heat in the prostrations of fever and age, or to banish the atrocious disease by a course of that standard anti-febrile remedy, Hostetter's Bitters. There cannot be much doubt as to the response of the malaria-stricken to this inquiry. For every locality on this continent whose inhabitants are tormented with the shivering, placid cure is an increasing demand for our only genuine preventive and eradicator of malaria provided by science. The demagogues of the South, who know how utterly inadequate to do more than give a brief respite are the so-called remedies of the faculty. Quinine, arsenic, bismuth—what are these but poisonous palliatives, which cease after a time to produce any beneficial effect whatever, and if persisted in break irreparable mischief upon the system. Hostetter's Bitters are being abandoned by intelligent persons, and that genuine vegetable specific for intermittent and remittent disease, Hostetter's Bitters, substituted in their place.

QUESTIONS FOR EVERY ONE TO ANSWER. Are you troubled with Indigestion, Constipation of the Bowels, Dyspepsia, or any other disease of the Liver? Have you suffered for years and found no relief from the use of medicines? Do you have a faint appetite, and are you troubled with feelings of languor? If you have these feelings we know you have not tried the new discovery MERRELL'S HEPATINE, at Dr. S. F. Fant's Drug Store. It is performing wonderful cures in this and all other communities where the people use it. It is pronounced by all the best Liver Medicine in the world. Two doses will relieve the worst case of Dyspepsia or Constipation of the Bowels. Each bottle contains fifty doses, and a teaspoonful of this medicine in a wineglassful of water three times a day for one day, produces a most wonderful change. Where the system is run down, or Dyspepsia with all its train of evil, is effecting its deadly work, this remedy, MERRELL'S HEPATINE, never fails to bring about a speedy and permanent cure. Those who doubt the merit and virtues of this medicine and live from day to day without trying the HEPATINE, have our sympathy, but cannot be cured unless they take the Medicine. 39—tf.

SINGULAR FACT! Is it not strange that people run off after strange things, when they could do better at home? Nearly every man, woman and child in the country knows Ayer's, Jayne's, Wright's, Radway's or Tatt's Pills, and very few know Dr. Jas. E. Gilder's Liver Pills; and yet, we venture the assertion, that any one buying and using a single box of Dr. Gilder's Pills, will never buy another manufacturer's. Dr. S. F. Fant sells them. 39—tf.
