It is a struggle there between the white civilization of the nineteenth century and the barbarism of Africa, augmented by the villainy of the carpet-baggers. The people of the North have hardly the faintest idea of the desperate struggle that the decent people of South Carolina, without regard to party, made to shake off the reign of Chamberlain and his thieving crew. To effect this object they were willing to sink even the success of the national Democratic ticket. Indeed. so far was this idea carried that last September Judge Mackey advised the to that element of the population re-Democrats to withdraw their electoral ticket and concentrate their efforts on Hampton. The Democrats disregarded the advice. Judge Mackey also mapped out the course that Grant would pursue in the matter, and predicted that unless his advice was taken Federal soldiers would patrol the corridors of the State House in Columbia. "Our cup of misery was full when Corporal O'Flaherty, of Company K, 18th United States Infantry, at the door of the State House, reviewed the decision of our Supreme Court."

"What was the direct object of your visit to Governor Hayes?" said the reporter.

The Judge paced the floor a moment or two in reflection, and then said: That Governor Hayes, who may have to decide as President of the United States questions vitally affect-I ing the interests of South Carolina, in view of the conflicting governments there established, might know the sitnation from a Republican who had supported him with great ardor, and had addressed in his advocacy over one hundred Democratic meetings in the late canvass in South Carolina. Governor Haves received me very kindly, he continued, and expressed the warmest interest in our condition in South Carolina. He also expressed warm admiration for the character and course of Governor Hampton, and trusted that he would maintain his peaceful attitude until the question as to which is the lawful government was authoritatively decided, which he hoped would be done in a peaceful manner. He stated that it was highly gratifying to him to perceive in the speeches of General Hampton in the recent canvass most positive and explicit pledges that no attempt to bridge any of the blegal rights of colored citizens of the State should ever be made with his sanction, but that if elected he would be the Governor of the whole people.

at having read General Hampton's no intimidation was practiced. The speech at Darlington, in October last, where he declares that while he should cast his individual vote for Tilden as ing such provision making each ly fitted for the chief magistracy of bers, the Board of State Canvassers, g this great republic, he cheerfully accorded to Governor Hayes all of the re-election, considered the returns capacity and patriotic worth attributed of the election of members of the Gento him by his most ardent supporters. | eral Assembly, and asserted a right to Governor Hayes also stated that it hear all questions of protest and conedwould be improper for him to express test that should be brought before any opinion as to which is the lawful them. government in South Carolina.

which Governor Haves smiled his assent. Judge Mackey asserts that, as a Republican, he knows that Hampton and his associates are ready to submit their cause to the judgments of the brave men to whom they surrendered at Appointation Court House whatever may be their political faith.

When I presented Governor Hampton's letter to Governor Hayes, said Judge Mackey, he expressed his high gratification at the respectful consideration which it indicated an the part of Governor Hampton, (the letter contained the inaugural address.) and especially commended the tone of the letter as timely, in view of the belligerent utterances of some Democratic leaders of the North. Governor Hayes stated that he recognized in Governor Hampton a most potent leader in the Southern belt of States, in his relation cently arrayed in arms against the government, and said his influence in favor of peace would have weight in

Governor Hayes thought that lamentable state of affairs had existed in South Carolina, but was satisfied that Governor Hampton's past course would insure a peaceful solution of the

The Governor said that he had been subjected to gross misrepresentation, recently, by the partisan press, and during the canvass, in relation to his views with regard to the States of the South; that he was represented as manifesting extreme political malignity, and that there was nothing in his record to warrant such harsh judgment. He said that if, in the order of events, he should be called upon to act upon these questions, the best efforts of his head and heart would be directed to their just solution.

Notwithstanding all the evils that have attended the late political excitemeut, some good has resulted. The attention of the people everywhere has been called more closely to public affairs than ever before, and men who hitherto knew nothing of the practical workings of the National or State Governments, can now talk as glibly about politics and the Constitution and the laws as a regular thoroughbred stump speaker. January 4, '77. To the Editors of the Newberry Herald : Alone this evening at the hearthstone, we silently watch the coals and embers as they fall into strange forms. The sound of the sleigh bells without, and the merry laugh of the riders, make the euphony to my musings, as, fancy free, they roam the corridors of the past. Do we find in cot and conventicle, as we haste along, the reflex pictures of courteous greetings, kind amenities and fond farewells, or are they the bitter fruits of envyings, doubt and strife? We see before us the forms of many

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty-one years. It is the oldest, largest, cheapest and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the world.

The practical recipes are well worth ten times the subscription price, and for the shop and house will save many times the cost of subscription.

tion.
Merchants, Farmers, Mechanics, Engineers

Inventors, Manufacturers, Chemists, Lovers of Science, and People of all Professions, will find the SCIENTIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office and Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1877.

A year's numbers contain 832 pages and Several Hundred Engravings. Thousands of volumes are preserved for binding and reference. Terms, 83 20 a year by mail, including postage. Discount to Clubs. Special Circulars, giving Club rates, sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

applications have been made for patents through their agency.

Patents are obtained on the best terms, Models of New Inventions and Sketches examined, and advice free. A special notice is made in the Scientific American of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the Invention by such notice. A Pamphlet, containing full directions for obtaining Patents, sent free. The Scientific American Reference Book, a volume bound in cloth and gilt, containing the Patent Laws, Census of the U.S., and 142 engravings of mechanical movements. Price 25 cents.

THIRTY-THIRD YEAR.

THE ECLECTIC reprints from all the foreign Quarterlies, Reviews, Magazines, and Jour nals, their choicest contents, including ESSAYS, SCIENTIFIC PAPERS, BIOGRAPHICAL SKETCHES, REMINISCENCES OF TRAVEL AND ADVENTURE, TALES, STORIES AND POEMS. The field of selection is very large, and it is believed that the ECLECTIC presents A GREATER VARIETY AND HIGHER STANDARD OF LITERATURE than any periodical can hope to do that depends exclusively upon home

talent.

A knowledge of the current literature of other countries is indispensable to all who would keep pace with the progress of the human mind; and the ECLECTIC offers the best, and, indeed, the only, opportunity for obtaining this knowledge within a reasonable compass, and at a moderate price. Among the writers represented in recent numbers of the ECLECTIC are: The Et. Hon.

M. E. Gladstone, James Anthony Froude, Matthew Arnold, Charles Kingsley, Robert Buchanan, Geo. McDonald, John Ruskin, Alfred Tennyson, Thomas Hughes, William Black, Mrs. Oliphant, Thos. Hardy, William Morris, Miss Thackeray, Mrs. Alexander, Profs. Huxley and Tyndall, Richard Proctor, B.A., Prof. Owen, Dr. W. B. Carpenter, Max Muller, J. Norman Lockyer, Herbert Spencer, and others equally eminent. Be-sides the regular articles in the body of the magazine, there are four original Editorial Departments: LITERARY NOTICES, FOREIGE ITERARY NOTES, SCIENCE AND ART and

VARIETIES. With regard to the character of the selec-tions, the aim of the ECLECTIC is to be instructive without being dull, and entertain ng without being trivial. While each number contains something to interest every member of the family circle, it addresses itself particularly to that great body of intelligent readers who seek profit as well as amusement in solid and healthful litera-

ture.

Besides the 128 pages of reading matter, each number of the magazine contains a FINE STEEL-ENGRAVING—usually a portrait—executed in the most artistic manner.

TERMS.—Single copies, 45 cents; one copy one year, \$5; two copies, \$9; five copies, \$20. Trial subscription for three months, \$1. The ECLECTIC and any \$4 Magazine to one address, \$8.
