

FOR THE HERALD. To Edgefield's Stella.

But leaving self—my secret longings— I chafe in verse what others think of you. Angelic maid! most heavenly of thy train! Thy lips drop nectar in each vocal strain.

Our Visit to Newberry.

In the absence of the pastor, Rev. Mr. McClintock, it was our privilege, on last Sabbath morning and evening, to occupy his pulpit in the village of Newberry. The attendance was not large, but encouraging.

During this occasion, we had the pleasure of meeting Rev. Mr. Broadus, pastor of the Baptist church, who referred very kindly to Dr. Bonner, Lindsay, and Grier. He is a native of Virginia, and a relative, we believe, of the Rev. Dr. Broadus, so favorably known to our people.

It gave us pleasure to observe that Col. Renwick was enjoying what the Roman poet calls *viriditas senectutis*—a green old age. Although he has nearly completed his three score and ten, his step is firm and elastic, giving promise of at least another decade.

On Monday morning, our courteous friend and host, Mr. Martin, laid us under additional obligations by a drive over town. He took us first to the Lutheran College, situated on a commanding eminence, from which could be seen, in the distance, the former residence of Gen. A. C. Garlington.

Don't speak angrily to a child. Don't kick a dog when he is asleep. Don't go back on the friends of your parents. Don't often visit your neighbors at meal time. Don't neglect a cough thinking it will cure itself.

The cordial and unanimous support of the citizens. The Faculty consists of five, the Rev. Mr. Holland, a disabled Confederate soldier, being President. Success to him, and the institution over which he presides!

In the course of our drive, we passed the lot on which once stood the elegant and hospitable mansion of Dr. McMorris, unfortunately destroyed by fire. We also saw the former residence of Chancellor Johnstone, a name so familiar to the people of South Carolina. Upon the whole, we were much surprised to find that Newberry was so large a town.

Trade seems to be brisk, all the stores being thronged with customers. Mr. Martin is doing a fine business, his sales amounting to eight thousand dollars a month.

John, my dear, said she tenderly, if you do not buy a bottle of Dr. Bull's Cough Syrup immediately, I will go home to my mother; I can't stand this coughing any longer. He bought a bottle.

Substantial Indications of Prosperity.

The annual circular of the Mercantile Agency of Messrs. R. G. Dunn & Co., just issued, gives something more solid than the hope of better times. For seven years the annual reports were doleful enough.

The circular speaks of the past year as "phenomenal," both in the extent and rapidity of its profits, resulting from the advance in values and the increased volume of trade, and in the losses from bad debts. The statistics of failures show that in the Western States only one trader in every 159 failed, as against one in every 93 in the Southern States, and one in every 85 in the Eastern States; while in the Pacific States the failures have equalled one in every 45.

The number of failures and the amounts of liabilities in the Southern States, for 1879 and 1878, are as follows:

Table with 3 columns: State, 1879, 1878. Includes Virginia, West Virginia, N. Carolina, S. Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee, and Total.

Messrs. Dunn & Co. speak with great confidence of the future, the indications all showing that the good times, so anxiously looked for, are coming to stay. The figures presented by Messrs. Edward Russell & Co. in their circular upon mercantile failures are also satisfactory.

It gives us pleasure to observe that Col. Renwick was enjoying what the Roman poet calls *viriditas senectutis*—a green old age. Although he has nearly completed his three score and ten, his step is firm and elastic, giving promise of at least another decade.

On Monday morning, our courteous friend and host, Mr. Martin, laid us under additional obligations by a drive over town. He took us first to the Lutheran College, situated on a commanding eminence, from which could be seen, in the distance, the former residence of Gen. A. C. Garlington.

The Herald.

THOS. F. GREENEKER, EDITOR. W. H. WALLACE, EDITOR.

NEWBERRY, S. C. WEDNESDAY, JAN. 28, 1880.

A PAPER FOR THE PEOPLE. The Herald is published weekly, except on Sundays and public holidays. It is published for the people of the State, and is not responsible for the opinions of its contributors.

Radicalism Looking Up.

The State Executive Committee of the Republican party met in Columbia the 22nd; present, R. B. Elliott, Chairman, W. N. Taft, C. C. Bowen, E. W. Mackey, Sam'l Lee, June Mobley, W. J. Meyers, L. A. Webster, L. E. Miller and J. F. Ensor. They decided to hold the State Convention the 28th of April for the purpose of electing delegates to the National Convention, which meets in Chicago in June.

The Charleston News and Courier.

We cannot too often make mention of the industry and energy of our Charleston contemporary the News and Courier. It almost surpasses comprehension. Its fine daily-unsurpassed by any paper we receive as a commercial and news reflex, and its interesting Sunday edition, and then its immense weekly, all entitle it to the highest consideration.

Editorial Change.

The last number of the Abbeville Press & Banner contains the Valuedictory of Mr. W. C. Benet who retires from the editorial control of the paper, and who we are satisfied carries with him the good wishes of its host of readers, and their regrets because of his retirement. The Press and Banner has been one of the most ably conducted papers in the State, and we too regret losing so able and forcible a writer.

The Hayden Trial.

The longest and one of the most remarkable trials on record has just been ended at New Haven, Conn. Rev. Herbert H. Hayden, a Methodist minister, was indicted for the murder of Mary Stannard. The theory of the prosecution was that he murdered her to hide a crime. The trial began the 7th day of October last, and ended the 20th instant. The prosecution was conducted with an energy and zeal that had much the appearance of vindictiveness.

The Agricultural Land Lien.

We take from the Columbia Register the following Act passed at the late session of the Legislature. It gives the person making advances a lien prior to all other liens until the article shall be consumed in the use.

The Japanese Capital in Ashes.

YOKOHAMA, January 8.—Public attention is entirely absorbed by the disastrous conflagration in Tokio on December 20th. This is the third overwhelming calamity in seven years—the first in 1872 and the second in 1876. Now miles of ground are laid waste. Nearly 15,000 houses have been destroyed and 50,000 persons rendered destitute.

sumed in the use. Sec. 2. That in case any one to whom such provisions, supplies and other articles are so advanced shall endeavor to dispose of the same for other purposes than that for which they were advanced, or in case any person shall endeavor to make said provisions, supplies and other articles liable for the debts of the party to whom they were advanced, then the party advancing said provisions, supplies and other articles shall have all the remedies and means for enforcing his lien, as provided in the act entitled "An act to secure landlords and persons making advances," approved March 4th, 1878, for enforcing liens on crops for advances made.

Approved December 24, 1879. The committee appointed to investigate the treatment of hired convicts on the Greenwood & Augusta Rail Road, had commenced work.

It is thought that the Agricultural College will be opened about the first of October. The Board of Trustees held a meeting in Columbia on Tuesday last.

The Lexington Dispatch says: We hear that a disease similar to the black tongue is prevalent among the cattle in the lower portion of the county on the Orangeburg line. It is proving very fatal, one gentleman having lost ten head in one week. Death ensues in two days after the attack.

The County Commissioners of Aiken have paid all debts contracted during the year, the debts contracted by the first set of Democratic Commissioners, the interest on the debt contracted by the former Republican Commissioners, and have money left to pay off the jury when court meets.

On Friday last, Mr. Jonathan Taylor, probably the oldest citizen of the West side, departed this life. Mr. Taylor, who was a man of most worthy character, and very much esteemed by his neighbors, lived in the old Crafter neighborhood in Meriwether Township. His age was about ninety years.

An Act passed by the Legislature.

At its last session provides that any school funds now or hereafter remaining in the hands of any County Treasurer for any school district in this County, after the payment of all claims for school purposes for the fiscal year for which such funds respectively were collected for such school district, may be applied to the payment of any claim for school purposes in and for such school district.

A destructive fire occurred in Charleston on Wednesday morning, by which the South Carolina Rail Road lost the large car shop North of the Line Street Depot.

All the passenger coaches housed in the shed, some fifteen or twenty in number, were consumed. In addition to this some twenty or thirty freight cars lying in the yard were destroyed. Some of them were loaded with fertilizers. The shed was 310 feet long and 50 wide.

Says the Columbia Register: Quite a commotion was caused about half past 5 o'clock, Tuesday afternoon, by a man falling out of the second story window of the Wheeler House, into the street. He fell on the pavement on Plain street, and was picked up and carried into the hotel and medical attendance summoned. He is registered on the hotel book as George T. Gorren, New York, and was a drummer for some mercantile establishment in the North. No bones were broken.

The Grand Lodge I. O. O. F., met in Columbia, Jan. 21st. Columbia was selected as the permanent place of meeting, but the lodge may meet elsewhere on the invitation of a subordinate lodge. The following officers were elected: F. W. Sindorf, Charleston, Grand Master; Thomas Steen, Greenville, Deputy Grand Master; J. R. Semrill, Chester, Grand Warden; John Heeseman, Charleston, Grand Treasurer; F. Demars, Orangeburg, Grand Secretary; John A. Elkins, Columbia, Grand Chaplain.

YOKOHAMA, January 8.—Public attention is entirely absorbed by the disastrous conflagration in Tokio on December 20th. This is the third overwhelming calamity in seven years—the first in 1872 and the second in 1876. Now miles of ground are laid waste. Nearly 15,000 houses have been destroyed and 50,000 persons rendered destitute.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure? Ask your neighbor this same question.

FOR THE HERALD. Our Washington Letter.

WASHINGTON, D. C., Jan. 21, 1880. The House will close considerations of its new rules this week. The Speaker insists on finishing this work before going on with legislation. Then will come the appropriation bills, some of which are ready to be reported.

Probably the Senate discussion of the Bayard resolution, opened today by Senator Beck, will not be very long. There is unquestionably a majority against the resolution, and the majority will not waste time in profitless discussion.

Dissatisfaction over the appointment of Census Supervisors is not great. Mr. Hayes, under the influence of Superintendent Walker, has done better than was expected. There were but few cases in which he promised places to this or that man, and did not keep his word—many less in proportion than in connection with any offices heretofore filled.

In General Fitz John Porter's case, there is substantial agreement in both Houses that the vindication by the Board of inquiry should have legislative approval, and the only question is as to the terms of the required act. All differences will be settled soon, and the bill passed.

The Democratic Committee can hardly do better than call the nominating convention in this city. We can give them the use of the new Museum building, the finest in the world, and which will hold all the people who wish to attend.

The selection of foreign ministers just made is the work of Secretary Everts, and not of Mr. Hayes. The promotion of Mr. Lowell, and the appointments generally, seem to give satisfaction.

Of course all good Democrats hope to carry Illinois this year, but if we cannot carry it, it is well for us to hope that the Republicans will put forward men of reputation to be honored there, as is not always their habit. This is preliminary to saying that General John B. Hawley, now Assistant Secretary of the Treasury, is a candidate for the Republican nomination for Governor, and seems to be ahead in the race.

It doesn't do a bit of good to take a twelve mile promenade in a fourteen foot room with the baby, and sing and declaim: "Hootchie, pootchie, pudden and pie." Use Dr. Bull's Baby Syrup and be done with it.

FOR THE HERALD. About Cotton.

Messrs. Editors: The cotton crop of 1879, as shown by the Bureau of Statistics, is about 250,000 bales less than 1878. Our exports for the year 1878 were about 3,400,000 bales, our home consumption about 1,900,000. It is fair to estimate that from the depression in trade throughout the whole world there is a scarcity of manufactured goods; especially is this true in this country, from the fact that every factory, warehouse and country store here has been emptied of manufactured goods from increase of trade, arising from unparalleled prosperity. You may estimate that we shall want 40 per cent. more cotton for home consumption than we did last year. This would require 640,000 bales more than we raised in the year 1878; add to this the 250,000 bales short in the crop of 1879, and you have a deficiency for export of a million bales.

You may take into account the extensive exodus of negro labor from the cotton producing States to the North-western States. Taking all things into consideration, the farmers of the cotton belt in the Southern States will have to expect to see cotton sell very much higher—at least 50 per cent.—above present prices. China and India have been raising about as much cotton as the Southern States, say 5,000,000 bales; but the population of China and India has grown so rapidly in the last twenty years that they will be compelled to stop raising cotton and raise provisions for their starving people.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure? Ask your neighbor this same question.

THE LARGEST COTTON CARGO THAT EVER LEFT CHARLESTON.—The superior German steamship Graf Bismarck was cleared at this port yesterday for Reval, (Russia,) by Messrs. Knopp, Frenich & Co., with the large and valuable cargo of 6,005 bales of upland cotton. This is the most extensive shipment of cotton that was ever cleared from this port in one vessel, and goes to the Russian market, which nation is now a most important customer in the ports of the United States. The Graf Bismarck sails immediately for Reval. This large freight also proves that the heaviest cotton cargoes can go from our city.—News and Courier.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure? Ask your neighbor this same question.

FOR THE HERALD. The Leap Year Party.

EDITORS HERALD: The ladies can't vote, but by some arrangement they inherit peculiar rights every fourth year. To give expression to their gallantry they put the ball in motion by giving a party at the residence of Capt. Mazek last Thursday night.

The whole expense and management were in the hands of the ladies. The party was large for a private house, and the supper well to break the monotony of the occasion—monotony a strange thing indeed where such joyfully prevailed. The young ladies kept the leap year bonnet all night and in motion. Some of the maidens seemed very much excited when a young lady would ask him for a dance. I tell you it's awful to play woman. Some would forget, however, and play man and woman at the same time. If we mistake not we heard a gentleman unfolding his soul to a fair dame. This was wrong, because courtship was out of order—as to gentlemen. A nice joke was played upon the managers: the musicians struck for higher wages, and as no funds—extra funds—were on hand, the young ladies started to go into committee of the whole, and raise a "Relief Fund", when a liberal minded gentleman came to their relief. The ladies played their part well. Took the boys to the table and waited on them well. They were very gallant, and their opposites very (b)uoyant. It was amusing to see a late newspaper take a maiden's arm. One striking feature—from which men may take a hint—was that there were as few wall flowers as possible. The gentlemen received marked attention. Every woman has an honest heart, and from the very fact that not a single—nor married—man heard a word of love from fair maiden's mouth, one would naturally infer that that female party were subject to prior mortgages. "Cut and come again," young ladies. The boys will love you whether you play boy or girl. "Dat's rihd out you ish rihd too poy's."

All the newspapers in New York State were invited by the New York Times to say whom they preferred as the candidate for President. Nearly three hundred of them accepted. The list is summarized as follows:

For Blaine..... 38 27 35 For Grant..... 21 8 32 For Sherman..... 17 6 23 For Tilden..... 13 7 20 For Hancock..... 12 8 20 For Seymour..... 10 8 18 For Hendricks..... 1 1 17 For the nominees..... 15 7 22 For anybody to beat..... 10 10 10 No choice..... 13 32 45 Total..... 91 81 119 284

Blaine beats Grant among the papers two to one, getting most of his strength from the Independent papers. Grant trails behind, and Sherman is out of sight. In the Democratic list the strong men are Bayard and Hancock. The weakness of Seymour is accounted for by his pertinacity in refusing to be a candidate.
