Many explanations, scientific and otherwise, have been given of the warm winter, but the most plausible of all is that of a Newberrian, who says that this portion of the world is getting nearer to—well, to the place that has the name of being specially hot.

Prof. Stoekey entertained a vast crowd on Tuesday last with his feats on the tight rope. He would have cut up several more shins but for the wind which was too high. He was high, about fifty feet, and two high things won't agree. He promised to come back when Spring breezes blow.

Codey's Lady's Book for February. Comes full of interest and beauty. The best "Darley" picture yet given, is the exquisite one illustrating a scene in "Erangelina." Every department is full of attractive matter for the fair readers, whose bright eyes grow brighter, as each month they welcome this most popular of periodicals. It seems to be the determination of the publishers to keep ever ahead of all competitors, and they certainly succeed in this object. Christian Reid continues her new novel, "Roslyn's Fortune," in a most attractive number of pages. Never was a more brilliant story offered to the public, if one may judge by the sparkling vivacity of the opening chapters. The bewitching heroine is in strong contrast to the "Gentle Belle," who won our favor last year, but it would be hard to say which type of girlhood is most fascinating. The "Rosebud Garden of Girls" follows the fortunes of Delphine, the bright little widow, whose love story is developed in several interesting pages. Every page of literary matter is of the highest kind, and the February number will be warmly welcomed by all appreciative readers. We will furnish Codey's Lady's Book and the HERALD, at the low price of \$8.50 per annum. Apply at our office.

The Exodus—A Colored Eli Perkins. The article below is taken from the Leavenworth (Kansas) Times of the 14th inst. "A colored man from Newberry, South Carolina," is probably Press Metz, who left here about the first of this month with Grafton DeLany. These two were in St. Louis about the 14th. No doubt the poor fool thought that his lie about the whites threatening violence to the railroads would secure for him sympathy and quarters—silver quarters.

St. Louis, Jan. 13.—The Colored Relief Board received a letter to-day from the President of the Colonization Council of the South, stating that since December 26th over four hundred negro emigrants have left Caddo and Bossier parishes, La., for St. Louis, bound for Kansas. Some have money to pay their way, but many of them are without means.

The council had received a petition from nine hundred people on Red River, asking a steamer be sent up that stream to take them North.

A letter from Corinth, Miss., says that about 1,500 persons of this vicinity are ready to start North and 500 are now at Corinth waiting transportation, and advices from northern Texas say that nearly 2,000 emigrants left that section by railroad for Kansas within the past two weeks.

A colored man from Newberry, South Carolina, who arrived here with his family enroute to Kansas, says that fully 1,000 people in that section are anxious to leave, but they have little money. The railroad company is willing to sell them tickets, but this man says the whites in the neighborhood threaten violence to the roads if negroes are taken away; consequently those who have means are obliged to cross the country in wagons to Atlanta, and there take rail.

A considerable number of refugees are expected to arrive here to-morrow and the Relief Board, which is widely without funds, to add these people, appears for assistance in the shape of money, food, clothing, &c.
