What to Put in the Garden,

Of the many hundreds of sorts of Peas, Beans, Cabbages, Corn, Sweet Corn, Lettuce, Potatoes, Tomatoes, Beets, Carrots, Cucumbers, Melons, Radishes, Turnips, Onions, etc., etc., (each variety praised by its seller), is an important question. A right choice of kinds will return many dollars worth more for the same labor and expense, even in a small garden. To help all in deciding, Peter Henderson, the highest authority in such matters. has tested, side by side, over 800 varieties of the above garden products. and he gives the results in the American Agriculturist for March 1st. Chester and Newberry Railroad

George Johnstone, Esq., of Newberry, a talented and rising lawyer of that place passed through Chester on Monday of last week, on his return from the King's Mountain meeting. In conversation with one of our citizens. a prominent railroad man, he said that the people of Newberry, especially the business men of the town, are becoming aroused on the subject of the proposed railroad from Newberry to Chester, a charter for which was obtained from the Legislature several years ago. The excessive and discriminating rates of freight on the Greenville & Columbia Railroad, causes the merchants and farmers of the town and county to turn their thoughts towards the necessity for a competing line. A narrow gauge railroad to Chester, some think, is the remedy. The people of Fairfield and Chester, along the line of the proposed road, would doubtless co-operate with the people of Newberry in aiding this enterprise. Here is another boom for Chester.
