and charged accordingly.

ted by this case is whether a State after having chartered a lottery company and entered into a contract with it still has a constitutional right before the expiration of the time of the company's charter and in the absence of any defaulton the company's part to pass laws making the conducting of a lottery, whether authorized or unauthorized, an offence against the State. In the present case the State brought suit to suppress the lottery known as the Mississippi Agricultural, Educational and Manufacturing Aid Society, chartered by the State in 1867, but forbidden by Article 12, Section 15, of the State Constitution of 1868. The Circuit Court entered judgment of ouster against the respondents, which, upon appeal, was affirmed by the Supreme Court of the State. This Court holds that although the lottery company of the plaintiffs in error was duly chartered by the State, the Legislature which granted that charter had no authority to bargain away the police power of the State, that is the

speculators and gamblers, living on

the expectation of what chance might

award them from the accumulations of

regulation of all matters affecting the public health and public morals; that lotteries are demoralizing in their effects, no matter how carefully regulated, cannot, in the opinion of this Also, that for improving the Tyger Court, be doubted. There is now scarcely a State in the Union where they are tolerated, and Congress has enacted a special statute, the object of which is to close the mails against them. This being the case there can be no question that lotteries are proper subjects for the exercise of State governmental or police power. Contracts which the Federal Constitution protects are those which relate to property rights, not to governmental rights. Lotteries belong to the latter class. They are a species of gambling and wrong in their influences. They disturb the checks and balance of a well ordered cummunity. Society built on such foundations would almost of necessity bring forth a population of

Colonel Pearce has recieved further information upon this subject, which
