He is to paint two drop curtains and seven scenes. Mr. Cline will lay the floor of the stage, and Mr. Cramer is to do all the rest of the stage work. Mr. Cramer is to receive \$650 for his work.

Roanoke College, Salem, Va., June 12-16.

The Philomathean Literary Society of Erskine College will decide the vexed question of the 27th, whether suffrage should be extended to the women of the United States. Mr. W. C. Brown is the Junior Orator for the annual celebration of this Society.

Locusts.
Mr. S. P. Boozer received from his brother, H. D. Boozer, of Wallhalla, a few dozen eggs of a specimen of the "seventeen year locusts" that are now interesting some of the upper Counties. Mr. Henry Boozer says they are so abundant about Wallhalla that the noise they make is a great annoyance. They have done little damage so far. They lay their eggs in lumps of trees. The limbs generally die. Mr. Boozer sent along a specimen limb, which being opened was found to contain quite a number of eggs.

The wings of the locusts under a microscope reveal a well formed W, which is vulgarly supposed to mean War. Perhaps, it means the war between Conkling and the Administration.

God bless the wives!
Who fill our fires
With little bees and honey!
They ease life's shocks,
They mend our socks,
But—don't they spend the money?

Well, suppose they do, what of it? Well, nothing, provided they spend it at Kingsland & Heath's popular China and House-furnishing Store. Money spent there is well spent, for you get the worth of it every time. When you visit Columbia do not fail to pay them a visit.

THE SIGNS all point to Maybin & Tarrant's, whose drugs and medicines are pure and fresh, and whose prescriptions will be relied on. They confine themselves to a legitimate business, no ginger-bread, tin cracks or notions, but pure medicines, perfumery, cigars, tobacco, etc. The signs tell the public where to go.

There is no use in drugging yourself to death, and buying all the vile medicines for internal use when you can be cured of fever and ague, dumb ague, bilious disorders, jaundice, dyspepsia, as well as all disorders and ailments of the liver, blood and stomach, by wearing one of Prof. Guilmette's French Liver Pads, which is a sure cure every time. If a druggist does not keep the pad, send \$1.50 in a letter to French Pad Co., Toledo, O., and it will be sent you by return mail. It is the only Pad that is guaranteed to cure. Beware of counterfeits.

WADLEY, EMANUEL CO., GA., Oct. 10, 1879.
Gentlemen: While attending the General Assembly this summer, I tried your Star Curine on my leg, it being affected with an old sore caused by a wound received during the late war. After having thoroughly tested it I am compelled to say that it is a success, for I have had experience with different physicians and remedies, and found nothing to cure me, until I used your Star Curine, which has cured a remarkable bad case. Wishing you success, I am yours, respectfully,
JOHN BELL.

Smith's Scrofula Syrup and Star Curine are purely vegetable. Why will you suffer with Cancer, White Swelling, Catarrh, Rheumatism, Kidney and Liver Diseases, when a few bottles of these two great remedies will cure you?

From C. D. McCurry, Newnan Co., Georgia.—I take great pleasure in recommending to the public Dr. Cheney's Expectant and Croup Preventive. My little son had been a great sufferer from Spasmodic Croup during the night. Dr. Cheney, about two years ago, prescribed for him his Croup Preventive, which has most miraculously cured him. I find it equally beneficial in all cases of Coughs. I consider it a blessing in my family. Every one should keep it in their houses.

Try Smith's Scrofula Syrup for your blood. It removes all skin eruptions and will give you a beautiful and clear complexion. For sale by Dr. W. E. PELHAM, 50-ly.

Thanks
Are due the Philomathean Literary Society of Furman University for an invitation to attend its Anniversary Celebration on the 13th inst. The Debate—Resolved: "That a Monarchical form of government is preferable to a Republican form." will be discussed in the affirmative by Messrs. C. M. Hiers and J. W. Hewell, and in the negative by J. P. Carlisle and J. L. McDavid.

Also, to W. F. Rhame, G. W. S., for a copy of the Journal of Proceedings of the tenth annual session of the Grand Lodge, I. O. G. T., of South Carolina, held at Sumter, S. C., in April last.

The Helena Car Shops Enterprise.
There was no public meeting in the interest of the Car Shops movement either Thursday or Saturday. Everybody was too busy Saturday to get out. The Committee met, however, and agreed to open books of subscription at once, at the four following places: Office of O. L. Schumpert, Esq.; Dr. Wm. E. Pellam's Drug Store; Office of Y. J. Pope, Esq. The shares were fixed by the Committee at \$25 each. The capital stock was fixed at \$50,000. Members of the Committee subscribed at once for 200 shares, amounting to \$5,000.

Sheep Raising.
Col. J. Wash Watts, of Laurens, writes to the Charleston News and Courier "that it is really surprising to see how little encouragement sheep husbandry gets from the Press of the State. No branch of the farming interests pays as well, and it ought to be encouraged in every possible way."

Col. Watts is prepared to speak knowingly on this subject, as he has for many years paid much attention to sheep raising. We know a few farmers here and there that raise sheep, and they all say that it pays handsomely. Our farmers should pay more attention to this branch of industry.

Telephone.
Steps are being taken for establishing a Telephone Exchange in Newberry, and it will no doubt be done. Ten subscribers at \$51 each will be sufficient. Mr. R. L. McCaughrin will take two subscriptions, one for a telephone at his residence, the other at the depot; Mr. Pope will take one for his residence; Mr. A. J. McCaughrin will take one; several other persons have signified their intention to subscribe. After the Newberry Telephone Exchange is gotten up it is proposed to connect it with the Columbia Telephone Exchange. The C. & G. R. Co. have offered the use of their telegraph poles free.

We hope the matter will not be allowed to drop. It would be a great convenience, and it is in the line of progress.

A Boy with a Tail.
There is a white boy near Vaughnville, in this County, five years old, that is a natural curiosity. He has a tail about a foot long, and about an inch in diameter. Dr. Mayer, Jr., who saw the child, thinks the formation is an undeveloped fetus, and that it came near being another case of "Siamese Twins". The formation has bones in it, but there is no bone at the junction with the body, which is exactly at the termination of the spinal column. It could be cut off with little trouble and with perfect safety. In this connection, we would add that Dr. Mayer says the statement made by a correspondent of the Laurensville Herald that he offered \$25 for the privilege of amputating it is incorrect; that he did nothing of the kind; but, as the parents are poor, he did offer to amputate it for nothing.

Of the stilly night the sufferer with pines wondered where he could obtain relief until he sought and found it in Tabler's Buckeye Pile Ointment, certainly the best remedy for piles. Price 50c. For sale by Dr. W. E. Pelham.

Idle Saturdays.
The Abbeville Press & Banner says: "Although nearly every farmer is behind with the big crops which he has undertaken, crowds of their mules, wagons and field hands fill our streets every Saturday. They come early, and loaf about during the whole of the day."

The same is true, in every particular, of Newberry. Our streets are so crowded every Saturday by the colored population that it is almost impossible to get along. They stand in large groups on every corner; they sit around in gangs on the curb stones; they hang around "from early morn till dewy eve" with apparently nothing to do, their sole object seeming to be to pass away the day in perfect idleness. If time thus lost could be calculated and summed up it would surprise the farmers. It makes a very great difference in the course of the year.

A Steamboat on the Blue Ridge.
A steamboat is being built to run on the French Broad River from a point nearly opposite Hendersonville to Broadway and above, a distance of thirty-four miles. The steamboat will be 75 feet long and 22 feet beam, and will carry about 100 passengers. When the Spartanburg & Asheville Road is built above Hendersonville the steamer will connect with the railroad. In the summer there will be a great deal of travel on the river, and in the winter there will be a good freight business. The steamer will be completed in a month. A steamer 2,200 feet above the sea level will be a very novel affair.

Mr. R. W. Davis, of Newberry, an experienced sailor, went up to Hendersonville last week to make arrangements for taking charge of the steamer as Captain. He expects to accept the position.

All are cordially invited to attend the meetings, especially the young men.

Our Sunday Schools.
We would speak a word for our Sunday Schools of which there are in this town no less than six. Are they prospering? Do all the children attend? Alas, no. Two reasons, if no more, may be assigned as the cause. First, the negligence of teachers, who make it a point to attend as irregularly as possible, and who when they do attend seldom make any effort to interest the children. There is no surer way of getting near to a child's heart than by showing an interest in it, and when that is secured, the good seed can be sown—the great object of the Sunday School. A punctual attendance, too, on the teachers' part secures punctuality on the part of the pupil. When the teacher absents him or herself the child is sure to follow the example. A faithful, punctual teacher will always have a full class. Second, much of the blame attaches to parents, who for the most part have no objection to their children attending this means of improvement, but who do not make it a point to see that they are ready to go and insist on their going, and who do not whenever convenient encourage them by attending also. There are scores of children in this town who do not attend Sabbath School, who we feel satisfied could be induced to go if the proper efforts were made. We wish our people would think of this.

From the Hub.
There is perhaps no tonic offered to the people that possesses as much real intrinsic value as the Hop Bitters. Just at this season of the year, when the stomach needs an appetizer, or the blood needs purifying, the cheapest and best remedy is Hop Bitters. An ounce of prevention is worth a pound of cure; don't wait until you are prostrated by a disease that may take months for you to recover in.—Boston Globe.

The following jurors were drawn in open Court by the Jury Commissioner, the Clerk and the Sheriff, to serve in place of those excused: Peter Rodelsperger, T. Q. Boozer, D. W. T. Kibler, Joseph Brown, W. H. Cartwile, C. A. Bowman, J. N. Martin. Mr. Cartwile was excused.

The grand jury brought in true bills against Simon Johnson, Ella Robertson and others, and Calvin Gallina. The trial of Simon Johnson for murder was fixed for Thursday morning. Court adjourned to 9 A. M., Tuesday.

Col. H. T. Wardlaw, of the Abbeville Press & Banner, is in town.

Mr. D. Oscar Herbert, who recently graduated at the Vanderbilt Law School, Nashville, Tenn., arrived in Newberry to-day on a visit to his mother and sisters.

Mr. I. P. Hawkins, of this County, and Mr. J. Q. Wertz, of Edgefield County, graduates in 1879 of Newberry College, have completed their course of study at the Theological Seminary at Salem, Va.

Mr. Robt. Y. Leavelle returned Saturday from Florida. He purchased an orange grove of twenty acres in Marion County for \$1,300. Most of the trees are small; some of them are five or six years old—old enough to bear. He sold three acres of the twenty before he left the State for \$500 cash. Mr. Leavelle was much pleased with Florida.

Rev. Prof. Thos. Ward White, of Mississippi, the recently elected President of Laurensville Female College passed through here on last Monday on his return home. Prof. White is well and widely known as an educator both in this State and in the South-West, having spent four or five years in South Carolina, during which time he superintended one of the most flourishing Female Colleges in the South. His wife, an elegant and highly accomplished lady, has many warm friends in Carolina, both on her own account and her father's, the intimate friend and literary executor of Jno. C. Calhoun. Prof. White's determination is not yet known, though it is hoped he may be induced to cast in his lot with the people of our rapidly developing State.

Peterson's Magazine
For July is on our table, ahead of all others, as usual. We have so often spoken of this lady's book, as the cheapest and best, that all we can do now is to reiterate that opinion. The present number is peculiarly rich in embellishments. The steel plate, "The First Train," is one of those charming illustrations, never seen except in "Peterson." The colored steel fashion plate is a gem, as "beautiful as a daisy," as a lady at our elbow says. There is a profusely illustrated article on "Ancient and Modern Gardens," and a prettily illustrated love-story, by Agnes James, "Pulse and Diamond." In this number, we have the first chapters of a historical novelet, "The News From Yorktown," which is also illustrated, and which is particularly appropriate, as this is the Yorktown "Centennial Year."

In addition to this, there are some two score cuts of fashions, work-table designs, etc.; besides a beautiful colored pattern for a Photograph Frame, in daises on black velvet, alone worth the price of the number. Every lady ought to be a subscriber for this magazine. The terms are but two dollars a year, with great reductions to clubs, and handsome premiums to the person getting up the club. Now is the time to subscribe. A new volume begins with the July number, but back numbers, to January inclusive, can always be supplied, if wished. Specimens are sent, gratis, if written for, to persons wishing to get up clubs. Address, Chas. J. Peterson, 306 Chesnut Street, Philadelphia.

Well Worth its Price.
The Illustrated Scientific News has again reached our editorial table, and right glad we are to welcome the June number which is unusually full of handsome engravings and interesting and valuable reading matter.

Under the management of its new publishers—Messrs. Munn & Co.—the Illustrated Scientific News has risen to the front rank of illustrated journals published in this country, and being issued at a very low price, it is within the reach of all who are interested in novelties, science, the useful arts and natural history.

The June number contains handsomely illustrated articles on The Chimpanzee and Gorilla, Ostich Farming, New Fireless Locomotives, The Maxim Fire Boat, Perforating Machine, a new and novel Embroidering Frame, the new Electric Middlesings Purifier, and a number of other handsome illustrations, besides a large number of interesting articles not accompanied by engravings.

The subscription price of this handsome paper is \$1.50 per annum, or 15 cents per copy, and can be had of all newsdealers or from publishers, Messrs. Munn & Co., 37 Park Row, New York.

Mr. M. B. Buford's team ran away on Caldwell Street Thursday. Mr. Buford and Mr. Thos. Lane were in the buggy. The latter jumped out, but Mr. B. held on till the buggy was upset and he was thrown out. He was a little bruised, but not seriously hurt. The tongue of the buggy was broken.

The Car Factory movement begins to look like business. One-tenth of the stock was taken as soon as the books were opened. Those who have money to invest should look into this matter. It is a home enterprise. If carried to success it will be a great benefit to the business of Newberry.

If your child suffers from tooth-ache at night—the attacks generally come at night when you want to sleep—while applying the remedy manage accidentally to touch the bare leg with the hot chimney of a kerosene lamp. The tooth-ache will immediately disappear and the howling will change to another key. We tried it on Eugene, and discovered the remedy in that way.

We looked to see a serious accident at the depot Thursday afternoon as the train of the Marion S. C. picnic started homeward. Mr. Pressly and another of the teachers, in getting on the rear platform of the moving train succeeded only at the risk of their lives. For a minute or two as they ran, clutching at the rods, we stood aghast, and looked for blood and broken bones.

Picnic at Helena.
The Annual Picnic of the Marion Street Church Sunday School of Columbia, was celebrated last Thursday at Helena; the coaches bearing their precious freight of two hundred and fifty pupils, teachers and friends, with a wilderness of baskets, boxes, barrels and bundles rolling into the Newberry Depot at 9.30. Here as at Helena the happy party was largely augmented. It was hoped to have the frolic on the green sward, but the weather clerk getting sulky, by permission of the reigning powers at the Work Shops the party was kindly taken out of the rain into the large car shop and there made comfortable. It was decidedly a pleasant affair, the dinner being a grand success, not only as to variety, quality and quantity, but as to the admirable management of the committee of ladies who superintended it. We take infinite pleasure in recording their names as follows: Mrs. S. A. Smith, Mrs. W. R. Capers, Mrs. Allen, Mrs. Burket, Mrs. Martin, Mrs. Price and Mrs. Gage. We never saw ladies work more harmoniously or untriflingly, and we give them our meed of praise. The plan of giving the baskets into the hands of a select few was a good one, and in consequence there wasn't the least bit of confusion, no exclusiveness, but one common, big, generous pool, from which every one cared alike and abundantly, an example worthy of imitation. We never saw a better picnic dinner, nor as much, nor as nice; and every one had a plate, which the indefatigable committee saw well filled, and every one had a tumbler kept supplied with iced lemonade, while the fathers and mothers in Israel had besides delightful hot coffee. The only regret uttered came from under the vest of the HERALD representative who complained of want of capacity and ability to do it justice, and that the committee did not have time to furnish supper out of the abundance left. We are pleased to say that the crockery and glass ware were kindly furnished by the Stanley Bros. of China Hall fame, the Junior of the firm being present. Altogether it was a charming affair, and much enhanced by meeting very many friends.

Always New.
