Mason & Hamlin Organ Company,

At the great Italian Industrial Exhibition just closing in Milan, Italy, the highest awards for musical instruments, a silver medal and diploma, were taken by an American manufacturer, the Mason & Hamlin Organ Company, whose cabinet organs were judged to to be so superior that they were the only reed organs of any manufacture, European or American which were awarded a medal. It is a great honor to these makers, that in Italy itself, the and Onions very home of music, their organs should receive such distinction. They excited much interest among musicians, and were by special order repeatedly exhibited to the royal court by Carlo Ducci, the distinguished artist of Rome.

One of the riest, bestest, quietest, tastiest and cheapest places, where Santa Claus, the dear old man, has placed his hand and seal in sign of kindest and most loving approbation, is the little bazaar nook round the corner (the HERALD Book Store), where can be found the prettiest Christmas books, blocks, albums, cards, poeket books and other fancies that are to be had this side of the old gentleman's headquarters in Fairy Land, and which were selected especially for Thos. F. Greneker to deal out to little people. These goods are really pretty and cheap. Do not fail to see them.
