A PAPER FOR THE PEOPLE. The Herald is in the highest respect a Fam-The Herald is in the influence respect a rainty Newspaper, devoted to the material influences of the people of this County and the State. It circulates extensively, and as an Advertising medium offers unrivalled advantages. For Terms, see first page.

### Nearly a Clean Sweep.

The next General Assembly will be composed almost entirely of new members. Whether the old members had got tired of office, or the people had got tired of the old members, we do not know in all cases; but we do know that in very many cases the old members wanted to go back but could not.

The Senate is composed of one Senator from each County, except Charleston, which sends two-making 35 Senators. At the election a few days ago 19 new Senators were chosen; 6 of these, Maxwell, of Abbeville, Benbow, of Clarendon, Coker, of Darlington, Moore, of Hampton, McCall, of Marlboro, and Byrd, of Williamsburg, were in the Senate last session; the other 14 are new men-one of the new ones being, of course, the Senator from Berkeley.

The House is composed of 124 members, and these are all elected every two years. Of the members caster, Brooker, of Lexington, Sligh Sumter, McKissick, of Union, and provide for such a Commission. Massey, of York.

It is a significant fact that in every County where the proposed Constitutional amendment in reference to new Counties was discussed by the newspapers the majority was against it; and in other Counties the majority was for it. Abbeville, Anderson, Laurens, Spartanburg, Chesterfield, Lexington, Oconee, Greenville and York, in each of which Counties the question was discussed by the local papers, the majority against the amendment was heavy. In many Counties the question was not discussed at all, and the voters had not considered the matter; but on election day voted just such tickets as the State Executive Committee furnished. And these tickets. we understand, were "yes" in all cases, except where the County Chairmen asked specially for "noes."

The Executive Committee, for some cause or other, desired the amendment adopted, and used its official position to further that end.

The Charleston News and Courier, and the Columbia Register also, were as silent as the grave on the subject; and our recollection is that neither of these papers ever explained to their readers what the proposed amendment was. And in Charleston and Richland the majorities for the amendment were large.

Moral: It is the business of newspapers to discuss all public measures.

One of the practical results of the Atlanta Exposition in 1881 was the establishment of the New Enland Manufacturers' and Mechanics' Institute. This Institute has alof the Richmond & Danville Rail grants in this direction. The next | the State University. exposition will be in September, 1883, in Boston, and this is expected to be carried out on a grand scale.

The defeat of the new County
Amendment was a severe blow to
aspiring politicians. There were
many who favored the movement
from good motives; but the basis
of the matter was political aspiration.

The State Fair

Last week is conceded to have een the best ever held. In the lepartments where one looks for the signs of enterprise and thriftthe Stock, Field Crops and Mechancal Departments—the exhibits were numerous and of a superior character. These exhibits afford proof that the agricultural and mechanical interests of the State are on ising ground.

The attendance at the Fair was arger than ever before; indeed Columbia could scarcely hold the rowd. The jam was so great, and there was so much inconvenience and trouble in securing comfortable entertainment that the enjoyment of large numbers of visitors was marred, and what was expected by them to be a pleasure trip turned out to be anything else. The railroad trains, the hotels, the boardng houses and the restaurants were so crowded that many found it impossible to get accommodations of any sort, and heartily wished themselves at home. It seems to us that it would be far better to have the Fair extend over two weeks or more, and thus avoid the rush and the jam that are necessary

under the present arrangement. At the election of officers for the ensuing year Mr. D. P. Duncan, of Union, was re-elected President, and Col. Thos. W. Holloway, of Newberry, was re-elected Secretary. Among the Executive Committee elected are Maj. Jno. K. Nance and Capt. J. S. Hair, of Newberry.

## The Matter of Rail Road Discriminations.

Upon this subject we confess a great deal of ignorance. We do of the next House only 24 are old not know how railroads should be members. They are Parker and run; we do not know how freight Gary, of Abbeville, Murray, of An. tariffs should be regulated, nor derson, Gantt and Robinson, of what charges are exorbitant and Beaufort, Simonton, Simons, Mears, | what are not. Mr. Johnstone has been a member of the House since 1877, and has served on some of the most im portant committees during that time; for the past two years he has been Chairman of the Ways and Means, the most important committee of the House. He is familiar with the rules of the House, and his experience in that body would enable him to discharge the responsible duties of Speaker efficiently. Newberry County would feel complimented in the selection of Mr. Johnstone for this position.

The other candidates are Jas. bottle. Simons, of Charleston, E. B. Murray, of Anderson, and W. H. Parker, of Abbeville.

Governor, we desire to say, that he goes out of the Executive office with a record of which any man may well be proud. His term of office has not been marked by anything brilliant or dashing; for there has been no occasion for it. The duties of the office have been discharged conscientiously, ably and impartially, with no attempt at display, no pretended State craft, no skyrocketing of any sort; but in a plain, simple business way, as an honest, modest and capable man attends to his own business affairs. South Carolina has never had a better Governor than Johnson Ha good; and the hearts of the people will follow him into his retirement with sincere wishes for his future welfare and prosperity.

# THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in at-Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving non-sense—all the news of the busiest world at

sense—an the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish in the face of dissent as plainly and fear in the face of dissent as plainly and fear-lessly as when supported by general appro-val. The Sun has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good. Because it is everybody's newspaper. No man is so humble that The Sun is indiffer-ent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robesonism and for honest government. No matter what party is in power. THE SUN No matter what party is in power, THE SUN stands and will continue to stand like a

rock for the interests of the people against the ambition of bosses, the encroachments the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers,
All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half of the rascals out of that matty, and is proceeding. cals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that anneals

covers one of its many sides that appeals with particular force to his individual lik ing.
If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and im agination, a mainstay for the cause of hor est government, a sentinel for genuine Jef fersonian Democracy, a scourge for wicked ness of every species, and an uncommonly good investment for the coming year.

TERMS TO MAIL SUBSCRIBERS. The several editions of THE SUN are sent by mail, postpaid, as follows: DAILY-55 cents a month, \$6.50 a year; with Sunday edition, \$1.70.
