

Calendar table for July 1878 with columns S, M, T, W, T, F, S and rows of dates.

Locals.

Our price for announcing a candidate is five dollars, cash in advance. Positively no announcement will be inserted without the cash accompanying the same.

Weather melting hot.

Road the Sheriff's sale in another column.

Blank Licens just printed and for sale at this office, for the cash.

We had refreshing showers of rain on Sunday and Monday.

A second hand cooking stove, in good repair, for sale. Price \$10. Apply at Burns & Hayes' store, Main street.

One death by sunstroke in Charleston on the 8th instant.

Hon. A. Burt, of Abbeville, passed through town last week on his way to the mountains.

Preaching in the Baptist Church on Saturday and Sunday by the pastor.

Preaching in the Methodist Church on Sunday and Sunday night.

Be sure and attend the club meetings on Saturday and send good delegations to the County Convention on the 20th.

QUERY: "Why will men smoke common tobacco, when they can buy Marlburg Brothers Seal of North Carolina," at the same price?"

Judge L. E. Bleckley, of the Supreme Court of Georgia, was in town last week on his way to his old home in Rabun.

W. W. Burley, Esq., of Seneca City, has placed upon our table the finest specimen of German millet that we have seen this season. The head measures twelve inches in length.

We learn that Professor Moore, of Adger College, delivered an address before the "Reading Club," at Seneca City, on Thursday night last. We have heard the address of Professor Moore very highly spoken of.

The tomato is one of the most powerful aperients, and in all affections of the liver, where calomel is generally used, it is the most effective and least harmful remedial agent known to the profession.

Died, in Greenville, Texas, on the 21st June, 1878, Margaret Vincetta, infant daughter of Frank P. and Georgia A. Alexander, at the age of three months and twenty days.

Less powder was expended in the celebration of the 4th of July than ever known before, though many a band of music, supplemented by the exercise of a numerous procession, "wasted its sweetness on the desert air."

The officers of the South Carolina and Greenville and Columbia Railroads have been served with what is called a restraining order, and also notice of a motion to appoint a receiver for said roads, and other relief, to be heard before Judge Bond, in Baltimore, on the 4th of September next.

Sylvester Bleckley, Esq., wife and child, and his three young daughters, Mary C., Ella C. and Annie M. Bleckley, of Anderson, passed through our town on Wednesday on their way to Clayton, Ga., to spend a few weeks with relatives.

A letter recently received by M. J. S. P. Denny announces the arrival in New York of Rev. John G. Law. Mr. Law made the passage from Ireland to New York in eight days. It is thought that he will be in Wallhalla in about ten days. Our people will gladly welcome this man of God among us again.

Professors Riley and Strong will leave in a few days on a canvassing tour to get up the endowment for Adger College. Their course will be through the lower part of Oconee, Anderson, Abbeville and Laurens. Already Mr. Riley has secured \$625 at Bachelors' Retreat and Fair Play. He has also been promised larger amounts at these places.

Mr. S. E. Maxwell has handed us an Irish potato composed of three large potatoes connected together, from the sides of which eleven small potatoes project, making fourteen well shaped potatoes connected after the Siamese twin fashion. The cluster is eight inches long.

Notice of the concert of the musical class of Prof. Evans will be seen in another column. This entertainment is given to assist the class in making up the salary for Prof. Evans during the time which he has been giving instructions. The well known skill of the professor and his class guarantees to all who may attend a valuable compensation for their time and money thus spent.

We spent a few days last week on Keowee River. The crops in the neighborhood of Old Pickens and on Keowee River and Cane Creek are very promising, especially the cotton crops. Corn looks well, but we have seen better crops on corn of the river, but the cotton is larger, cleaner and better fruited than we ever saw it this season of the year. There is also a larger area than usual planted. The wheat crop generally has been a failure, but the oat crop is good. Fruit of all kinds abounds, and the year looks to a season of plenty.

Mr. J. N. Rutherford has handed us a cluster of tomatoes, five in number, attached to a stem four inches in length, which weigh one and three-fourths pounds. The central tomato is very large, weighing about one pound, and the four around it making a cluster rarely seen. He also handed us an Irish potato, the largest we have seen this season, weighing one pound and three ounces. The Irish potato crop is the finest grown for years, but that of Mr. R. is the finest we ever saw, being smooth and of an oblong shape.

The commencement exercises of the colleges—male and female—at Due West, last week, were all that the friends of those institutions could wish for. The attendance was large, the weather fine and everything tended to make the occasion one of enjoyment and sociality. The programme of the male college was an attractive one, the young men in all the classes acquitting themselves with honor and distinction. There

were some ten or twelve graduated in Erskine College this year. Gen. M. C. Butler delivered the anniversary oration, which was a finished and scholarly production. The exercises of the Female College were fully up to those of the male college. This institution sends forth eleven graduates this year. An entertainment on Thursday night, at the female college building, concluded the commencements of the two colleges. It was the occasion for a general mingling of students, male and female, professors and teachers, reporters and the people generally. It must have been participated in to be appreciated, as words would fail to picture it. We regret our inability to be present at the beginning of the exercises of these two old and popular institutions of learning, so that we might have been able to chronicle somewhat in detail what was said and done by each of the participants in the two colleges. There being, however, a full corps of newspaper reporters from the first, there is no danger of these institutions suffering from a want of publicity. In fact, the leading daily papers of the State have already given to the public through their columns a full and complete account of the proceedings, and the Abbeville papers are yet to hear from. In concluding this short and imperfect notice of the Due West Colleges, we desire to return our warmest thanks to Mr. Calvin Pressley for the kindness and attention shown us on our brief visit. We desire also to return our thanks to the Hemphills, of the Abbeville Medium, for their interest in our welfare at the entertainment on Thursday night. May their shadows never grow less.

OAKWAY LOCALS.

July 5th, 1878.

Fodder scarce.

Corn looks well.

Old corn plenty.

Cotton is very fine.

Peaches are ripening.

The people peaceable.

Vegetables in abundance.

The farmers are getting done plowing.

Times good, with the exception of the scarcity of money.

"Nabbin Ridge" is needing rain. Some prospect of it to day.

Rev. O. A. Darby, P. E., preached two of his best sermons at Beavordam Church on Saturday and Sunday, the 29th and 30th ult., to a large and appreciative congregation. The next quarterly meeting is to be held at Center Church.

The County Lodge of Good Templars is to be held with Oakway Lodge at New Bethel School House, on the 24th day of this month. Speeches are to be delivered by Revs. Hays and Holder and other persons. The public are specially invited to be present and hear the speaking and bring their baskets of good things to satisfy the inner man. The lodges of the County will send delegates to represent them—one for every ten members. The lodge exercises will commence at 9 A. M. The public speaking at 11 A. M. Come on and let us try to enhance the common temperance cause against the evils of drunkenness and intemperance. O. C.

TOWNVILLE LOCALS.

July 5, 1878.

It is no easy matter, just at this juncture, to get up a local communication of even mere ordinary interest. Times are dull in the extreme and diversions from the monotonousness of this rural haunt have gotten to be rare occurrences. But the people have many things to be especially thankful for. The crops of cotton and corn give great promise, the health of the entire community was never better, and withal there is less frequency in the practice of the leading vices, such as whiskey drinking, &c., than formerly. There are no whiskey shops nearer this place than those at points along the railroads; but the mischief that was formerly wrought to the community grew from the frequent appearance of mountain whiskey wagons. Up to within a year back these "traveling bar-rooms" infested this locality more perhaps than any other section, and the deleterious effects consequent were almost incalculable. But by the interposition of law as well as by the stern fiat of the citizens this nuisance is almost wholly removed.

A rousing picnic, to be given here some time soon, is now spoken of. Addresses from a number of accomplished speakers, political and otherwise, will form a part of the programme, and as the ladies head the project it will surely be successful. When the arrangements are fully developed, I will apprise you. It is very probable that Wallhalla will be called upon for a quota of speakers on that occasion. U. NOHU.

SENECA CITY, July 2, 1878.

DEAR COURIER: The excellent school, conducted by Professor Carlisle and his accomplished assistant, Mrs. Young, closed its first session on Friday last, with a highly creditable examination to teachers and students, during the day, and with speeches, orations, &c., during the evening, which were attended by a large and appreciative audience. Where all acquitted themselves so well it would be invidious to discriminate, but I hope one who has a weakness for the softer sex will be excused for acknowledging that his sweet young friend who so beautifully relieved "Cinderella" contributed much, very much to relieving him of a fit of the blues and once more reflecting the sunshine into his heart. May God bless them and may their future be as bright as were their beautiful faces on that occasion. We suppose Professor Carlisle will resume the good work which he has been doing, after a few weeks vacation. B. P. S.

THE SUFFERERS BAIN.—The above named remedy is offered to the public after having been thoroughly tested in a great number of cases, both in private and domestic practice, and by several eminent physicians. Its efficacy in affording relief from pain in boils, carbuncles, bites and stings of insects has been all that could reasonably be expected from a remedial agent. It has effected more cures in all of the above named diseases than anything that has ever been offered to the public.

Prepared by T. S. Bradford, LaGrange, Ga. For sale by R. E. Norman & Bro., and all Drug-gists.

ABBEVILLE'S DELEGATION.—The County Democratic Convention of Abbeville met on Monday, representing precinct clubs numbering over three thousand voters. The following delegates were elected to the State and Congressional Conventions:

State Convention Delegates—S. McGowan, J. C. Maxwell, J. M. Latimer, Sr., J. S. Cochran, D. W. Aiken, William Hood.

Congressional Convention Delegates—Dr. J. D. Neel, A. M. Aiken, M. L. Bonham, Jr., Capt. J. W. White, Gen. P. H. Bradley, W. D. Marr.

Buy only the NEW AMERICAN It is the Only Sewing Machine WHICH HAS A Self-Threading Shuttle. It has Self Setting Thread. Never Breaks the Thread. Never Skips Stitches. Is the Lightest Running. The Simplest, the Most Durable, and in Every Respect

The Best Family Sewing Machine!

The "NEW AMERICAN" is easily learned does not get out of order, and will do more work with less labor than any other machine. Illustrated Circular furnished on application.

AGENTS WANTED.

J. S. DOVEY Manager, 64 N. Charles Street, Baltimore, Md.

WHENEVER AND WHEREVER diseases of a choleraic type prevail, or there is cause to apprehend a visit from them, the system should be toned, regulated and reinforced by a course of Hostetter's Stomach Bitters. Perfect digestion and a regular habit of body are the best safeguards against such maladies, and both are secured by this inestimable tonic and alterative. The Bitters are also extremely serviceable in remedying such disorders. If promptly taken in bilious colic, diarrhoea and cholera morbus, the disease is usually frustrated. In diarrhoea cases, it is only necessary to restore the tone of the relaxed bowels, and this is one of the specific effects of this medicine. Wind on the stomach, heartburn, biliousness, nausea, headache and other symptoms of disturbance in the gastric and hepatic regions are also speedily relieved by this excellent remedy. As a family medicine it is invaluable, since it promptly and completely remedies those ailments which are of most frequent occurrence.

There is no longer any doubt that the grain crop this year will be the largest ever harvested in the United States. Kansas will be the banner State, and it is stated on authority of careful and competent observers that fully 45,000,000 bushels of wheat will come to market from that State alone.

Mothers, stay at home, and cure your child with Dr. Moffett's Teething Powders. Teething regulates the bowels and makes teething easy; cures cholera-infantum and the summer complaints of children; heals eruptions and sores; removes and prevents the formation of worms. No medicine ever received such enthusiastic commendation from those who have used it. R. E. Norman & Bro. and all druggists keep it.

NEW YORK, July 8.—A special from Paris states that the explosion yesterday in the petroleum factory at Lyons, caused the death of thirty persons.

ATHENS, GA., October 22, 1877.

DEAR SIR: Last night I called at the Drug Store, Dr. King's old stand, and bought a bottle of "Worm Oil," and gave it to my little boy as directed. This morning he passed 31 worms. I had previously tried other worm medicines.

W. A. BAIN.

For sale by R. E. Norman & Bro. The people of Georgia have just voted on the question of "Fence" or "No Fence." The "Fence" party have carried the day by a large majority.

HOME ENDOUSEMENT.—For the benefit of the parents and children of our community, we copy the following from the Columbus (Ga.) Enquirer—Sun of June 30th, and advise all mothers to use Teething:

ANOTHER COLUMBIAN ENTERPRISE.—We are glad to see the press in this State and many other parts of the country speaking in such complimentary terms of Dr. Moffett's Teething Powders, for we have regard it as a very meritorious preparation, and put it down as another of the successful enterprises indicative of the brain and energy of our people. Dr. C. J. Moffett, the proprietor, is a graduate of Jefferson Medical College, Philadelphia, Pa., was a Major in the Confederate service, and since the war has been one of our leading druggists and prescriptionists. He has to the fullest extent the esteem and confidence of our people, among whom he was raised, and we can assure the public that his Teething (Teething Powders) is no humbug, but the greatest blessing yet given to mothers. It is used here by those in this office and other leading citizens having small children, and is endorsed and recommended by all.

ACCIDENT ON THE GREENVILLE AND COLUMBIA RAILROAD.—The engine of the down passenger train, says the Columbia Register of the 7th, ran off the track Saturday morning, three miles above Belton. The baggage car and one passenger coach were dragged along after the engine. Engineer J. M. Seiger had a foot and ankle badly crushed. Conductor Isaacs had a gash out in his head, and the baggage master was considerably bruised, but, so far as heard from, there was no other damage to limb or life.

AN UNDENIABLE TRUTH.—You deserve to suffer, and if you lead a miserable, unenjoyable life in this beautiful world, it is entirely your own fault and there is only one excuse for you—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a druggist but will tell you of its wonderful cures. You can buy a sample Bottle for 10 cents. Three doses will relieve you.

The Organ War.—A 100 Lb. Solid Shot.

If any man insults your common sense by offering a first-class 100 Stop Organ for \$65, "Shoot him on the spot." All necessity for buying such inferior Organs is forever done away with. \$100 cash, or \$110 on easy terms, now buys a magnificent Mason & Hamlin Parlor or Church Organ with FOUR EXTRA REEDS and TEN STOPS, in Elegant New Style Case with ILLUMINATED PANELS. Handsome Style of Case ever produced. Special Offer to introduce this new Style. Sent on trial. Guaranteed for a life time. Rented until paid for. Other new styles just out. Illustrated catalogues free. Address JUDEN & BATES, Savannah, Ga., Manufacturers Wholesale Agents for the South. 82-41

DESPONDENCY.—The most perilous hour of a person's life is when he is tempted to despond. The man who loses his courage loses all; there is no more hope of him than of a dead man; but it matters not how poor he may be, how much pushed by circumstances, how much deserted by friends, how much lost to the world, if he only keeps his courage, holds up his head, works on with his hands, and with unquenchable will determines to be and do what becomes a man, all will be well. It is nothing outside of him that kills, but what is within that makes or unmakes.

The railroads of the United States have in use 3,500,000 car wheels. Those on fast passenger trains are renewed every two months; but freight cars use the same wheels sometimes ten years. The average life of a wheel is 50,000 miles, and at that rate it takes 700,000 a year at a cost, less the old wheels, of \$3,000,000.

M. B. DENDY, School Commissioner Oconee county. July 4, 1878 33-3t

STATE SOUTH CAROLINA, COUNTY OF OCONEE.

IN THE COMMON PLEAS.

George P. Cobb, Plaintiff, against A. H. Ramsay, Defendant.—SUMMONS.

To the Defendant, A. H. Ramsay: YOU are hereby summoned and required to answer the complaint in this action, which is filed in the office of the Clerk of the Court of Common Pleas for said County, and to serve a copy of your answer to the said complaint on the subscribers at their office on the public square in Wallhalla, S. C., within twenty days after the service hereof, exclusive of the day of such service; and if you fail to answer the complaint within the time aforesaid, the Plaintiff in this action will apply to the Court for judgment against you for the sum of fifty dollars with interest thereon at the rate of one per cent. per month from 22d of February, 1877, and costs of this action.

NORTON & STRIBLING, Plaintiff's Attorneys. Wallhalla, S. C., July 3, 1878.

J. W. STRIBLING, C. C. P. [L. S.]

To A. H. Ramsay, Defendant in this action: TAKE NOTICE THAT the complaint and summons, of which the above is a copy, were filed in the office of the Clerk of the Clerk of the Court of Common Pleas for Oconee County on the 3d day of July, 1878.

NORTON & STRIBLING, Plaintiff's Attorneys. July 4, 1878. 33-6t
