

Calendar for 1893 showing months from January to December with days of the week and dates.

LOCAL MENTION.

The prospects are favorable to a good fruit crop this year. T. E. Alexander has plenty acid phosphate on hand. It is reported that some snow and sleet fell near Wallhalla on last Wednesday morning before day. Dr. W. J. Bramlett is improving his residence on Main street, by the addition of a neat piazza. And now comes the news that Hampton is sure of a \$100,000 factory. Verily the mills are coming to the cotton. One car each of C. S. meal and hulls just received. Strictly for cash. G. K. MAXWELL. Very heavy showers, followed by weather this Thursday morning, will, no doubt, do a great deal of good. Miss Carrie Perry will leave this week for Chicago to attend a meeting of the Board of Lady Managers of the World's Fair. The weather last night was of the typical April sort—wind, lightning, thunder, rain—with delightful sunshine this morning. On and after April 1st, 1893, Dr. Fahnstock will work for those who only come prepared to pay cash for all dental operations at the end of each sitting. Those interested in base ball are requested to meet in the office of Mr. O. H. Schumacher, in the rear of his store, to-morrow (Friday) night at eight o'clock. M. W. Coleman & Co., of Seneca, continue to please the ladies and hence their dress goods go so fast. Read what they say about their second order in this issue. We would suggest that the board of health have a general cleaning up of all the lots and premises of the town residents before the warm weather arrives. The young men are meeting with substantial encouragement in their efforts to build a park. The subscriptions amount to over \$150 already. Hurray for the boys! Some of our young people greatly enjoyed a "Cold Water Party" last Monday night. They report a delightful evening, spent under the auspices of Mr. C. S. Reid. Married, at the residence of the bride's mother, in Hart county, Ga., on April 2, 1893, by Rev. F. M. Coe, Mr. P. L. Pullen, of Fair Play, S. C., and Miss Sallie E. Martin. Columbia is to have a carnival in May. Messrs. W. J. Striding, of Wallhalla, and J. C. Cary, of Seneca, have been invited to act as civic escort to the speakers on the occasion. The youthful fisherman has come out of his winter quarters, with hook and line ready for business, his bait-box being, generally, of larger capacity than his game bag. Married, at the residence of the bride in Wallhalla, on Tuesday night, 18th instant, at 8 o'clock, Mr. Anthony Effring to Mrs. Laura T. Simmons, Rev. R. W. Seymour officiating. Mr. Willie J. Neville, Jr., is at home from Moore's Business College, Atlanta, Ga. The institution has changed hands in consequence of financial stringency, but Mr. Neville completed his three months' course in book-keeping before the crash came. Mr. Wm. Hiles and family left Tuesday morning for their Northern home in Father, Michigan. Their Wallhalla friends wish them a safe journey. During the several winters they have spent in Wallhalla, our people have learned to know and love them. The regular meeting of the I. O. G. T. will take place on Monday night, April 24th, at 8 o'clock in Vandivier's Hall, over the News office. All members are earnestly requested to be present, as business of great importance will require our attention. R. W. SEYMOUR, L. D. Dr. Fletcher S. Porter, of the graduating class of 1893, College of Physicians and Surgeons, Baltimore, has our thanks for an invitation to the commencement exercises on Wednesday, April 19th. The many friends of Dr. Porter congratulate him on his graduation and wish him a long and useful career as an eminent M. D. The committee appointed by the Park Construction Company to meet the Town Council, complied with their orders, and at a meeting of the Council on Wednesday night, the honorable body granted the company the privilege to use Adger Meade grounds and part of North Broad st. For the purpose of building a bath-house, many names were given, and the committee were instructed to do nothing else.

Cotton is coming up where it was planted early.

Some farmers in Oconee have worked over their corn the first time. Mr. J. E. Rideout, of the Mountain Eagle, published at Highlands, N. C., was in town this week. Mrs. Kate O. Lewis and Miss Lucia Lewis left Tuesday for Enoree, S. C., to visit the family of Mr. Wm. G. Perry. Mr. D. A. Smith left Tuesday morning for Orangeburg to attend the meeting of the Grand Lodge of Knights of Honor. Miss Emmie Verner, one of Seneca's most charming young ladies, spent a few days in Wallhalla this week, visiting Miss Addie Haltiwanger. Dr. Geo. C. Probst expects to be in Westminster Monday, April 24th, 1893. Persons wishing to have dental work done will find him at Dr. J. W. Quillen's house. Sallie Clark, a young colored girl, living near Wallhalla, died suddenly on last Friday afternoon. She was buried at Flat Rock cemetery on Saturday afternoon. The building of the hoop factory is progressing rapidly. The forty horse power engine, which is to furnish the power, was brought on the grounds last Tuesday. Mr. Clifford S. Merrick, the exceedingly swift stenographer and typewriter in the Richmond and Danville office, at Columbia, was on a brief visit to his parents, in this city, this week. Maj. E. B. Murray, of Anderson, has accepted an invitation to deliver an address at the closing exercises of the Westminster High School on May 10. A literary treat is in store for those who hear him. Davis & Davis is the style of a new law firm in Waco, Texas, composed of W. H. Davis and N. L. Davis, formerly of Oconee county. Their many Carolina friends wish them unbounded success in their professional career. The United States Senate, in extra session at Washington, has adjourned. The President will be relieved from the pressure of office-seekers, many of whom are following the honorable legislators to their respective homes. Rev. S. Lander, D. D., of Westminster, will preach in the Wallhalla Methodist church next Sunday morning at 10 o'clock, and administer the sacrament. Dr. Lander is well known in Wallhalla and we bespeak for him a large congregation. The contest over the location of the State Industrial and Winthrop Normal College continues to excite much interest. The points competing now are Chester, Rock Hill and Spartanburg, Columbia and one or two other related towns are endeavoring to put in bids. Messrs. Drexel, Morgan & Co., of New York, have accepted the huge job of re-organizing the Richmond Terminal, and all the railroads owned and operated by that mammoth corporation. The obligations of the company are to be shaved down until the interest can be made and paid on them. We hope they will pay their taxes promptly hereafter. Dirt has been broken at last for the erection of a large factory on the Columbia canal. The long sought for has arrived, and it now begins to look as if the "big ditch" will be utilized at last. Large contractors have the work in charge. Wm. Chapman & Co., of Providence, R. I., have the contract, and their tools and machinery are arriving and being put in place for active operation. Mr. Geo. A. Ledford, advertising agent of H. E. Bucklen & Co. of Chicago, paid us an appreciated call last week. Being a gentleman of culture and large information, he is a great friend of the press. His house does an extensive business in all parts of the country, and reach their thousands upon thousands of customers through the medium of the press. See their advertisement of Electric Bitters, Dr. King's New Discovery and Arnica Salve. Why has not something been done to carry into effect the resolution of the Town Council to put a fence around the new cemetery? It is said that the money is in hand to do the work. There should be a fence around the cemetery until the substantial fence stands to ward off the depredations of stock on that which should be the most sacred spot on earth—the resting place of loved ones gone before. Let every one who has an interest in the new cemetery urge the erection of this fence at once. On the night of April 9th, in Glassy Mountain Township, Greenville county, the house of a man named Hensley was burned. Five persons were mysteriously burned to death, viz: Hensley's wife, his mother, a young woman of twenty years and a boy. No satisfactory explanation of the burning has yet been made. Conclusions are settling down between two theories. One is that there were a crowd of men and a good deal of whiskey there; that a drunken brawl arose and somebody was hurt or killed, and that the desperate conclusion was reached to put the entire family out of the way and apply fire. The other is a mere whisper and hints at a preconcerted raid to clear out what may have been considered a den of vice and a source of neighborhood discord. Spartanburg Spartan: "The Wage Earners' Convention will meet in Columbia Wednesday afternoon. It is said that invitations have been sent out to every county of the State and that there will be a large meeting. The object of this meeting is to organize the State thoroughly and have all classes of wage earners represented. It seems that these class political leagues and alliances are not the best for the State. They tend to develop a partisan spirit and a general distrust of all classes not belonging to the league. Politically speaking, the Democratic party is about enough for us and we have a poor opinion of the benefit of all these class political organizations. We do not deny their right to organize, but the danger is that they will soon set class and industrial platform above the Democratic party."

Union Meeting of the Beavard Association. The union meeting of the Beavard Association will convene with the Poplar Springs Baptist Church on the fifth Sunday and Saturday before in April at 10 o'clock A. M. A lecture sermon by Rev. D. B. Napkin, A. M. and lectures for discussion: before. What should be done with the church members who constantly forsake the church and are living of themselves together? Speak with W. Bearden, Rev. J. H. Stone. A hymn. What is the aim and object of church discipline? Speakers—James Seaborn, J. M. Callas, J. W. Shelor. Is not the want of spirituality manifested owing to the want of proper discipline? Speakers—T. R. Norris, H. S. Vandivier. Sunday school mass meeting at 10 o'clock Sunday morning. Address by H. A. H. Gibson, Prof. J. W. Gaines. Churches will please send up a full delegation, and dear brethren, when appointed, please come. R. W. SEYMOUR, Chairman of Committee.

CATHARINE PARK.

At a meeting of the young men, held at Reid's Hall Tuesday night, April 18, "The Wallhalla Park Construction Company" was organized with twenty members. The object is to build and maintain a City Park on College Hill. The following officers were elected: C. S. Reid, President; B. R. Moss, Vice President; James Thompson, Treasurer; George Seaborn, Secretary. A committee of six, consisting of C. S. Reid, E. L. Herndon, J. R. Kay, J. A. Steck, E. R. Kay and James Thompson, was elected to superintend the building of the park. A financial committee of three members, consisting of E. R. Kay, George Seaborn and P. A. H. Schroder, was elected to solicit financial aid from the citizens of the town. C. S. Reid, E. L. Herndon and James Thompson were appointed on a committee to confer with the Town Council and invite their co-operation and assistance. The members of the company are young men with pluck and energy. They will leave no stone unturned to give the citizens something to be highly appreciated, besides furnishing a nice place for visitors and others to spend the long summer days. The composition of the committees and officers of the company constitute a guarantee that the work done will be first-class. These young men have been tried before and never found wanting. If they can receive the hearty support and co-operation of the citizens of the town, they will soon transform the brow of College Hill into a beautiful and pleasing pleasure ground. "Catharine Park" is to be in honor of the memory of one of Wallhalla's sainted women, who, living, ever had the best interest of the town at heart. Help, from all is earnestly solicited. It is understood that the ladies, too, will lend their influence to further the enterprise. A nucleus of \$60 has been donated to the fund by the Wallhalla Comedy Company. This is a good beginning. Donations from the citizens will doubtless swell the sum to some \$200, and Catharine Park may be written down as one of the attractions of Wallhalla. The Teachers' Column. In this issue Prof. J. W. Gaines, of the Westminster High School, has assumed editorial management of a column on our first page, known as the "Teachers' Column." Prof. Gaines is a wide-awake teacher, and in his endeavor to make this column what it ought to be, he invites the earnest support and co-operation of all the teachers in Oconee county. Teaching is no longer a mere pastime for drones and laggards, but a high, exciting and honorable profession. The condition precedent to all successful teaching is thorough preparation. The purpose of Prof. Gaines and those who assist him in the conduct of this column is to stimulate a desire for still more thorough preparation, and then to render mutual help by a free discussion of the means for achieving the best results. This column should be one of great interest and attraction to every teacher in the county, and then as a recompense for the good received, let each and every one feel free to furnish Prof. Gaines an article on the experiences of the school room during the year now drawing to a close. Read and write to the end that you may the better teach. In Memoriam. Mrs. Cynthia, the beloved wife of Mr. John Lindly, departed this life at her home, in West Union, on the morning of the 17th instant, in the 53rd year of her age. She was a native of Laurens county, and about four months ago moved into this county. In early life she united herself with the Rabun Creek Baptist church, in Laurens county, of which church she remained a consistent member. For thirty-five years she followed Christ, and those who knew her best say that her life was a luminous commentary upon the profession which she made. She suffered a great deal before her death. A part of the time she could not lie down, and what little sleep she enjoyed was obtained while she was propped up in bed. She did not complain or murmur, but bore it all patiently. The day before she died she called her children to her bed-side and spoke lovingly and tenderly to them, telling them she was happy and resigned. She was sustained and comforted by her Saviour in this moment of great need and passed away singing the triumphs of redeeming grace. We laid her to rest on Tuesday (after preaching her funeral sermon) in the quiet grave yard connected with the Bethel Presbyterian church, to await the resurrection morn. Our sister was twice married, her latter husband surviving. Many relatives and friends mourn her loss. Death to her was gain. She is absent from the body only to be present with the Lord. God bless and comfort the bereaved. R. W. SEYMOUR. Laurensville Herald special copy. A Horse Thief from Georgia. TOWNVILLE, April 10.—Frank Tims, a Georgia horse thief, was captured here on Friday morning. He came here on Thursday morning riding a good mule, which he sold for twenty-five dollars. He had stolen the mule from Mr. James Prather, on the head waters of the Savannah, in Habersham county, Ga. Mr. Prather was in close pursuit all the way and caught the thief as he started. Our people have been agitated for some time on the subject of holiness, and so intense is the feeling that schisms in the several churches are likely to result. The Rev. T. C. Ligon, pastor of the Presbyterian church, is attending the spring meeting of the South Carolina Presbytery at Honea Path. Prof. Rice, assisted by Miss Olive Brown, who was educated at Greenville and Vassar College, New York, is just closing a very prosperous session of the Townville High School. Many rise in the morning with a headache and no inclination for breakfast. This is due to torpidity of the liver and a deranged condition of the stomach. To restore healthy action to these organs, nothing is so efficacious as an occasional dose of Ayer's Pills. There have been three decisions by United States Courts lately that are discouraging to labor strikes, one at New Orleans and the other two at Toledo, Ohio. They are to the effect that restraint of trade by force is in violation of the laws of the United States, and that railroad employees as public carriers cannot boycott a road that is at odds with a brotherhood of its operatives. The sentiment is increasing about ex-Congressman Hemphill securing a foreign mission. Some of the knowing ones go so far as to name Russia, and believe he will fall heir to this juicy morsel. Mr. Hemphill was seen Tuesday afternoon, but was non-communicative. "I have heard that my name is being discussed in connection with a foreign mission, but which one in particular I have no idea. I have made no application, and will not. If Mr. Cleveland sees fit to appoint me, well and good."

CONNEROSS.

(For the Keowee Courier.) The question has frequently occurred to me, Shall we let all the beautiful legends which the Indians left us utterly perish? No portion of the State is richer, perhaps, in Indian legends and traditions than Pickens and Oconee counties. Why may not many of them be rescued from oblivion before it is too late? There is an interesting legend connected with the Conneross creek. The name Conneross is an English corruption of the Cherokee word *Kanawassaw*, which signifies "At the duck track." The name refers to a local legend relative to a fabulous duck. Do any of the old citizens of Oconee remember ever to have heard the legend? If so, why not write it up in my power to produce it. Oconee was not "named after the Oconees" (erroneously translated "Brown Pipes"), "a minor tribe of the Cherokees, who formerly lived in the territory embraced by the county," as some historians have stated, but the word Oconee signifies "At the head of the water courses." It is from the Cherokee locution ending in *oo*, generally written *ee* in the translation of Cherokee words into the English tongue, and *oo*, *oo*, *oo*, *oo*. I have succeeded in obtaining the meaning of nearly all of the Indian names in our State. Oconee abounds in beautiful Cherokee place names, and I am satisfied, from the meaning of many of them, that the legends connected with place names in Oconee county alone would make an interesting volume if they could be rescued from the devouring jaws of the past. To save them, if possible, from utter oblivion is a duty that the present generation owes to those who shall come after us. If you, gentle reader, know a legend, write it for your county paper or tell it to some one who will. I beg pardon, Mr. Editor, for trespassing on your valuable space—I mean the columns of your paper. I have many pleasant recollections of the years spent in Wallhalla, of the beautiful blue mountains, salubrious atmosphere, "students' frolics," and most of all, of the kind citizens. Fourteen years have passed away since the old college bell called me to recitation in the old building which lies in ashes, but it seems but as yesterday when I walked your streets. May your paper and the town be crowned with prosperity. J. W. DANIEL. Chester, S. C., April 14, 1893. Westminster Dots. WESTMINSTER, S. C., APRIL 18, 1893. DEAR COURIER: The Westminster Lodge Knights of Honor, No. 3245, is represented at the annual meeting of the Grand Lodge at Orangeburg this week by Mr. W. P. Anderson. He went down on Monday. At the regular meeting of the Westminster Lodge I. O. G. T., No. 117, on Monday night last, the following new officers were elected to serve for the ensuing quarter, beginning April 30th: Col. R. E. Mason, Chief Templar; Mrs. Bessie Zimmerman, Vice Chief Templar; Rev. W. W. Leathers, Past Chief Templar; J. B. Sanders, Chaplain; Miss Pauline Mason, Superintendent Juvenile Templars; Jabez Jones, Secretary; W. L. England, Financial Secretary; Mrs. Lila England, Treasurer; G. Blackwell, Marshal; B. M. England, Guard; Walter Zimmerman, Sentinel. The Secretary and Marshal were requested to choose their assistants by the next meeting. The attendance the past quarter has been very small. About half the members have not been present since the lodge was organized. The meetings are held semi-monthly, on Monday night after the first and third Sundays. A new location has been surveyed on the public road leading from here to Jarrett's bridge, on the Keowee river. The bridge over Chauga, at Capt. R. A. Gilmer's, is unsafe and a new one is to be built. The Town Commissioners found they could save several hundred dollars by building it about one-half mile above where it now is, and put the road on better ground and make the distance much shorter. The new route will leave the present route a short distance West of Hopewell Methodist church and will intersect again about one-half mile West of Gilmer's mill. The Commissioners say the bridge on that route will not cost over \$100. Rev. W. W. Leathers preached two able sermons in the Baptist church last Sunday morning and night. He also preached at Mt. Barber, several miles below here, in the afternoon. Rev. Leathers certainly does a large amount of ministerial work. Mr. S. T. Maretz has opened up a stock of goods in Col. Mason's brick store-room in rear of the bank. Mr. Maretz will continue to travel on the road and the store will be managed by his brother, Mr. G. W. Maretz. Mr. Claude Little, Westminster's champion base ball pitcher, visited his former home at Harmony Grove, Ga., this week. About twenty-two of Westminster's citizens took in Clemson College at Fort Hill last Saturday. The railroad officials sold reduced round trip tickets. They all report a pleasant time. Mrs. W. M. Gossett is on a week's visit to relatives and friends in Pickens and Greenville counties. Miss Florence Norris, who has been teaching school in Anderson county the past six months, has returned home to the delight of her many friends. Mr. J. W. Quillen has the misfortune to lose his valuable milch cow this week.

Ayer's Pills

Are better known and more generally used than any other cathartic. Sugar-coated, purely vegetable, and free from mercury or any other injurious drug. This is the ideal family medicine. Through prompt and energetic in their action, the use of these pills is attended with only the best results. Their effect is to strengthen and regulate the organic functions, being especially beneficial in the various derangements of the stomach, liver, and bowels.

ITEMS OF GENERAL INTEREST.

The Turks say, "The advice of woman is good for women." A man's second childhood begins when a woman gets hold of him. The word "licentious" is of Greek origin and means "sweet root." The increased acreage will so reduce the price of cotton that Texas proposes to raise cotton seed. The city stables of Atlanta were burned Sunday morning, and 140 mules perished in the flames. Postmaster General Bissell says that Republican postmasters will be allowed to serve out their terms of four years. Five inches of snow fell at Rochester, N. Y., Saturday and six inches at Cleveland, Ohio. In the next House the Democrats will have 220, the Republicans 127 and the Third Parties 8. There have been bloody collisions in Belgium between the military and police and striking mobs. In a lady's dress of the prevailing fashion, about one-third of the material goes into the sleeves. Horrible stories of famine in Russia are being printed. People are said to be dying by hundreds. The Branchville and Bowman Railroad has been completed and will likely be opened to traffic this week. The English, Scottish and Australian banks have failed, with liabilities of \$30,000,000. It began business in 1852. Charles E. Thomas, of this State, has been appointed confidential clerk to Gen. Hampton, Commissioner of Railroads. The city elections in New Jersey Thursday resulted generally in Democratic victories in all the important cities and towns. Columbia is to have a large cotton factory on the canal. Columbia is to be congratulated on the success of her "big ditch." Two negro children, aged 3 and 5 years, were burned to death near Florence Wednesday. The mother left them in her house alone. A general invitation has been extended to all Confederate veterans to be present at the interment of Jeff Davis's remains at Richmond. The American flag, which has been floating from the government building in Honolulu for two months, has been hauled down by Commissioner Blount. Gen. Schofield and Rear Admiral Belknap have been assigned as military and naval aides to the President on the occasion of the naval review in New York harbor. There is talk in railroad circles to the effect that Receiver Chamberlain, of the South Carolina Railroad, will be made one of the receivers of the Richmond and Danville system. By the collision of freight and passenger trains three miles from Edwardsville, Ill., Tuesday of last week, four persons were killed and a number of others seriously injured. Cashier John Schardt, of the Mechanics Savings Bank and Trust Co., of Nashville, Tenn., has turned up short between \$40,000 and \$80,000. He was an old and trusted employee. The European authorities are looking forward with dread to the Socialist demonstrations on May day. The Belgian government has collected a large military force at the capital. The Chicago Times of last Sunday says that the famous bicloride of gold cure for drunkenness has been sold by the Leslie E. Keeley Company to a New York syndicate of capitalists for \$10,000,000. The safe in the store of D. H. Traxler, at Timmonsville, was blown open by burglars Friday night. They obtained only \$125. This is the second robbery of Mr. Traxler's store since his appointment as State Dispenser. Mrs. John Budner, of Beaverbrook, near Blairtown, New Jersey, gave birth to four children last Thursday morning. Two of the babies are boys and two girls. Mrs. Budner is the wife of a young farmer and is but 16 years of age. Both mother and children are doing well. A colored woman in East York is bringing suit against the New Tennessee and Virginia Railroad for \$5,000, because she was not permitted to ride in the coach assigned to white people, but was forced to ride in the car provided for colored people. The jury gave her \$800. The Citizens' Industrial Alliance has issued a call for the industrial classes of America to meet in convention in the city of Chicago on the 4th day of July, 1893, there to formulate demands as a basis for permanent political union for the better protection of the industrial classes of America. The barn of Charles Reed, a prominent horse man of Tennessee, near Gallatin, was struck by lightning Wednesday night and twenty-five brood mares, in foal by the horse St. Blaize, were instantly killed. The barn, which was valued at \$6,000, was also destroyed. The total loss is over \$30,000. The question of removing the capital of Kentucky from Frankfort is now before the people of that State. The city of Louisville will vote on the 27th on the proposition to give the State \$1,000,000 in bonds if the capital shall be removed to that city, while Lexington offers \$250,000 and a building site. The present Legislature will have to settle the matter, and it is said that it is strongly in favor of removal.

We Never Stop

Trying to please the Ladies. Having had a big sale on some of our choicest patterns in Dress Goods, we had to re-order, and have duplicated our purchases at a concession of prices, which we intend to give customers the advantage of. We have opened this week a new line of beautiful 38-inch Cashmere, in all the light shades, for only 30 cents per yard. Dotted Swisses and Dimities at 20 and 25 cents per yard. You can't match them in Atlanta for less than 30 and 35 cents. "To cap the climax" we have thrown on our counters for this week a line of Challies, Muslins and Cabi-coes, in fast colors, sold everywhere at 7 cents, our price only 5 cents, but for cash only. We can't charge them at this figure. They are new and beautiful goods and all who desire to make purchases will save money by seeing them before buying elsewhere. Respectfully, M. W. COLEMAN & CO., Seneca, S. C. April 20, 1893.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder. ABSOLUTELY PURE. The Fac Similes of Columbus' Ships. HAVANA, April 15.—The Columbus caravels "Santa Maria," "Nina" and "Pinta" sailed for the United States today. They will take a prominent part in the great naval review to be held at New York. Charleston has waked up a little. It is reported that the hayburner street cars, in that city, are to be superseded by electric cars. CHEAP FOR CASH! When you want Goods Cheap for Cash call on ALEXANDER, dealer in General Merchandise. Hats, Shoes and Groceries a specialty, at hard-time prices. T. E. ALEXANDER, Walhalla, S. C. April 20, 1893.
