Death of Mrs. J. C. Key. Mrs. Lizzie Thompson Keys, the beloved wife of Mr. J. Crawford Keys, died at the home of her parents, Col. and Mrs. R. A. Thompson, on last Saturday, 28th September, 1898, at 3 P. M., after an illness of ten days, from malignant fever, aged thirty-nine years and eight days.

She was born at Old Pickens Court House on August 25th, 1859. In 1868 her parents removed to Wallhalla, and here it was that she received her education and lived until her marriage in 1883. Being beautiful, accomplished and attractive, she was long esteemed one of Wallhalla's reigning belles.

At an early age she united with the Wallhalla Presbyterian church, and in her daily life the Christian graces were exemplified.

She was happily married to Mr. J. Crawford Keys, of Anderson, and of this union five children, three sons and two daughters, were born. Little Helen, the oldest daughter, died when only four years old, and was buried here.

Since their marriage Mr. and Mrs. Keys resided principally at Blackville, S. C. There she took an active part in religious and benevolent work and did much for the upbuilding of the church of her choice.

While residing in the low country she had been in the habit of coming to Wallhalla every summer with her children to spend a few weeks visiting her parents and other relatives. Soon after her arrival this summer she was attacked with malarial fever. The germs of the disease were doubtless brought here in her system, and the change in climate only added to the virulence and violence of the attack. All was done for her that the best medical skill could devise, but to no avail. The skill of the physicians and the gentle ministrations of friends and loved ones could do naught but painfully alleviate her intense suffering. She realized that she could not get well, and spoke of her decease with calmness and composure. The Christian faith and fortitude which had been her joy in life was no less her solace in the hour and article of death.

On Sunday afternoon at four o'clock her funeral services were conducted from the Wallhalla Presbyterian church by Rev. R. L. Rogers, and attended by a large concourse of sorrowing friends. Her body was then laid to rest in West. View cemetery beside her predeceased child, and thus all that was mortal of the dutiful daughter, devoted wife, loving mother, faithful friend and humble Christian faded from the view of this present life as the tea-dimmed eye beheld the closing tomb. Language is lame in giving expression to the emotions which stir the heart on such an occasion. We can but take the last, lingering look, and then turn away in sadness and silence, awaiting the glorified vision of the resurrection morn.

To the many friends of the deceased here and elsewhere the announcement of her death has been received with profound sorrow.

To the aged parents, bowed down with grief for the death of their oldest daughter, to the grief-stricken husband, to the sorrowing brothers and sisters, and last, but not least, to the motherless little children, is extended the sincere condolence of numerous friends.

Rev. C. L. Craig closed his series of meetings August 28th. He was assisted in the meetings by Rev. Benjamin Holder, of Pickens. The meeting was one long to be remembered. The Lord wonderfully drew out the hearts of the laborers by giving them nineteen souls for their hire. Seventeen were baptized and many more were seeking his law to know.

One of the most deeply interesting and truly educative books ever written is "The Common Sense Medical Adviser," by Dr. J. C. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. It is a splendid volume of 1008 pages, includes ninety pages on the subject of diseases peculiar to women, with directions for home-treatment, rendering it a most valuable and interesting "examining" and generally a most "good treatment," so dreaded by modest women. The book contains the most complete explanation of human physiology and the most practical and hygienic ever published. Illustrated with over 300 engravings—a complete medical library in one volume. The price is \$1.50. A new free edition of half a million copies will be sent to the World's Dispensary Medical Association, Buffalo, N. Y., 21 one-cent stamps to each of our friends. The present edition is in all respects the same as that sold at \$1.50 except only that it is bound in strong manila paper covers instead of cloth.

For all diseases not now being will be willing for me to do less.

Heretofore I have always had the confidence of a majority of the people among whom I lived. Now there is a higher expression a desire for a change of management, or the whole matter is perverted with politics. There is a higher law than that of politics, and I prefer to withdraw while at peace and charity with my fellow-men and while I have no animosity against anyone. I fully appreciate the kindness and confidence reposed in me heretofore by the people of the county, and especially those who voted for me in the last primary.

V. F. MARTIN.
