

(Home and Farm.) This is the greatest of all the bread crops. We should study its nature and adaptions so that we can address ourselves to wheat growing intelligently.

We now see that the manner of sowing the grain is very important. The root must have time and room and food, or they will not reach full growth.

It will endure. Regarding the objections to the primary system of nominating officers being urged by a certain class of politicians, who would no doubt welcome a return to the old convention plan, under which a few unscrupulous schemers and manipulators can generally succeed in placing in office men who could not upon their merits secure the votes of anything like a majority of their fellow citizens.

Wheat roots desire to go down four and one-half to five feet in the earth, seeking water and food. This they will do if the hardpan is broken thoroughly. Deep plowing and subsoiling and repeated harrowings will all pay.

There is a great difference in the yielding power of different varieties of wheat. Rust is the great enemy. Hence, a rust proof variety should be secured if possible.

Too much care cannot be given to this point. When ready to sow, the seed should be washed in very hot water, or in a solution of bluestone, so as to destroy smut, spores or germs.

Sowing with drills seems to be growing in favor. This helps to protect the young plants against frost. But we rather think the chief advantage comes from the better preparation of soil secured by this.

If good seed be selected, soil preparation thorough, fertilizing properly

proportioned and seed sown early, the wheat crop will be sure and profitable. Carelessness, slipshod methods and general inattention have made many farmers flour buyers, who should be wheat sellers.

James B. Hunnicutt. Have home-grown bread to eat!

The Poor Census Enumerator. Amid all the dry dullness of figures and computations in the Census Bureau there are some amusing incidents to vary the monotony. Some of the questions are not thoroughly understood by the enumerators and the answers, therefore are humorous.

Meeting Oconee County Alliance. SENeca, S. C., October 1st, 1900.—The Oconee County Alliance will meet at Boutwell Land school house on the second Friday, the 12th day of October, ten o'clock A. M.

Coins bearing the names of emperors who existed over 2,000 years ago are still in daily circulation in China.

The largest plurality on the popular vote for a presidential candidate was in 1872, when President Grant, running for re-election, had 760,000. McKinley's plurality in 1896 was 600,000.

Quick Bridge Building. The rebuilding of the Santa Fe bridge across West Galveston Bay, destroyed by the recent storm, was a rapid piece of bridge erection.

There are three candidates for Speaker of the next House of Representatives, says the New York News, who are Stevenson, of Chestfield, West, of Hiedland, and Prince, of Anderson.

China has offered to atone for the murder of the German minister by libations on the altar of one heathen god, but that does not suit Emperor William, who is human enough to want the murderer punished, whether the gods are appeased or not.

This is the season when mothers are alarmed on account of crop. It is quickly cured by One Minute Cough Cure, which children like to take.

A Gloomy Prediction. A correspondent of the Wilmington Dispatch recalls a prophecy of the Galveston disaster, made ten years ago by a scientist, who, at the same time, predicted the destruction of all the chief ports of the Gulf and the Atlantic seaboard, including Charleston.

These unwelcome visitors usually appear in the spring or summer, when the blood is making an extra effort to free itself from the many impurities that have accumulated during the winter months.

Monumental Designing! I am prepared at all times to fill orders for Monuments, Tombs, Statuary and Headstones.

Notice to Teachers. THE next regular examination for TEACHERS' CERTIFICATES in Oconee county will be held at the Court House on Friday, October 12th, 1900.

Notice to Teachers. COUNTY TREASURER'S OFFICE. WALHALLA, S. C., Sept. 25, 1900. I HEREBY call attention to the fact that the taxes for the fiscal year, commencing January 1st, 1900, will open October 15th, 1900, and close on 31st December, 1900.

Notice of Final Settlement and Discharge. STATE OF SOUTH CAROLINA, IN THE COURT OF PROBATE.

Prevention better than cure. TUTT'S Liver Pills will not only cure, but if taken in time will prevent Sick Headache, dyspepsia, biliousness, malaria, constipation, jaundice, torpid liver and kindred diseases.

A Political Prognostication. The Dillon Herald says: "More provoking things have happened, but we will bet dollars to doughnuts that if W. Bryan is elected to the Presidency and Senator Tillman is given a seat in his Cabinet, Jim Tillman will be our best hope for the future."

The Corn of Kentucky. Kentucky corn is very powerful, as the following analysis, made by a Kentucky nutritionist, will show.

DR. J. W. BIRLIOR'S Dangerous Carbuncles. Carbuncles, which are more painful and dangerous, come most frequently on the back of the neck, causing great holes in the flesh, eating up the strength and often prove fatal.

MONUMENTAL DESIGNING! I am prepared at all times to fill orders for Monuments, Tombs, Statuary and Headstones.

THE NEW WAGONER. Livery, Feed and Sale Stable, WALHALLA, S. C. Good Teams and Saddle Horses. Fertilizers and Dynamite on Hand all the Year Round.

Notice to Teachers. THE next regular examination for TEACHERS' CERTIFICATES in Oconee county will be held at the Court House on Friday, October 12th, 1900.

Prevention better than cure. TUTT'S Liver Pills will not only cure, but if taken in time will prevent Sick Headache, dyspepsia, biliousness, malaria, constipation, jaundice, torpid liver and kindred diseases.
