Mr. Wallazz is desirous of locating in some of our Piedmont cities and is making a tour of inspection for this purpose. Shockley's Mineral Springs. Mr. J. C. Shockley, of West Union, has received from Clemson College the analyses of his mineral springs. They contain a high per cent of the carbonates of iron, potassium, calcium and magne-sium, nitrate and sulphate of potassium, chloride of sodium, actual and albumi-noid, ammonia and traces of carbonate of lithia, and are free from injurious or-ganic matter. A number of physicians Stepped Against a Hot Stove. A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do ganic matter. A number of physicians who have seen the analyses have endorsed them as being a fine chalybeate water, valuable in the treatment of diseases of the blood, stomach, liver and kidneys. Mr. Shockley and other local promoters have in contemplation the erection of a great agony and his mother could do nothing to passify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well.
