THE FIRST REQUISITE OF A SHOE

The very first requisite of a Shoe is that it shall fit the foot with absolute accuracy—closely, but not tightly—with no waste space, yet with no pressure.

"Queen Quality" is the one shoe for women which is made so that it fits the foot just as a Paris-made glove fits the hand.

Have you ever noticed that but few other Shoes talk much about fit? They talk about "style" and "beauty" and "fashion" and other things that mean nothing. But they say little about "fit."

"Queen Quality" fits because it is an entirely different construction, which, by the way, adds many dollars to the weekly pay roll.

But the Shoes fit perfectly!

STRICKEN BY EARTHQUAKE AND VOLCANO

The People of Tuxpan, Tonila and Other Towns Flee For Safety.

Guadalajara, Mexico, February 25.—Colima volcano, which broke forth in a violent eruption last evening, is still active. The lava which is flowing down the mountain side has already devastated many farms in the cultivated valleys at its base, and the inhabitants for 50 miles around are terrorized.

All last night explosions occurred at intervals within the volcano and frequent earth tremblings added to the terror of the people. The fires in the crater were reflected on the dark pall of smoke which overhangs the mountain and the brilliant spectacle could be seen for 100 miles.

Poisonous gas, similar to that which destroyed St. Pierre, was emitted from the volcano last evening, but was swept off seaward at a great height from the earth. The earthquake shocks have done considerable damage to buildings in the cities of Colima, Tuxpan, Tonila, Autlan and other towns of that section. Many people are leaving the port of Manzanillo through fear of a tidal wave.

The people, terrified by the belching flames and pouring lava, are seeking refuge in distant towns and villages.

The city of Tuxpan, in the State of Jalisco, continues under a heavy cloud of smoke. The volcano is alight with flames. The new eruption yesterday afternoon has increased the general fear.

There is not much alarm in the city of Colima, but fears are felt for the farmers in the neighborhood of the volcano.

La gripe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." Sold by J. W. Bell, Walhalla.

He Answered Advertisements.

A man who answered advertisements in cheap "story papers" has had some interesting experiences, says an exchange. He learned that by sending \$1 to a Yankee he could get a cure for drunkenness. Sure enough he did. It was to "take the pledge and keep it." Later on he sent 50 2-cent stamps to find out how to raise turnips successfully. He found out—"Just take hold of the tops and pull." Being young, he wished to marry, and sent 34 1-cent stamps to a Chicago firm for information as to how to make an impression. When the answer came it read, "Sit down on a pan of dough." It was a little rough, but he was a patient man, and thought he would try to succeed. Next advertisement he answered read, "How to double your money in six months." He was told to convert his money into bills, fold them and he would see his money doubled. Next he sent for twelve useful household articles, and he got a package of needles. He was slow to learn, so he sent a dollar to find out how to get rich—"Work like the devil and never spend a cent." And that stopped him, but his brother wrote too find out how to write a letter without pen or ink. He was told to use a lead pencil. He paid \$1 to learn how to live without work, and was told on a postal card to "fish for suckers as we do."

Teacher Shoots Pupil.

Spartanburg, February 25.—A very unfortunate affair occurred at Inman late yesterday afternoon, in which Edward Foster, the eighteen-year-old son of Gabe Foster, was shot and probably fatally injured by his school teacher, W. B. Pitts. Both parties to the trouble are agreed upon these facts:

Several days ago Pitts had occasion to administer floggings to three pupils of his school. This incensed the young men against the teacher, and they agreed to suffer no chastisement in the future. Pitts heard of such an agreement and on the morning of the day which the shooting occurred he took his pistol to school with him, as the boys are strong, sturdy fellows, while Pitts is of slight build and delicate. In the afternoon he called Foster after school hours, telling him that it was necessary to administer a whipping and proceeded to lay on the switch. The boy grabbed the teacher. The latter, in order to frighten him, so he says, pulled the pistol. Foster caught the weapon, causing it to fire. The bullet entered Foster's abdomen, ranged downward and is considered very serious.

Later—Pitts has been lodged in jail. Young Foster died Friday morning.

CAPUDINE

Cures COLDS, LA GRIPPE and all HEADACHES, etc.

An Interview with Senator McLaurin.

New York, February 26.—The Commercial Advertiser printed Tuesday afternoon a lengthy interview with Senator McLaurin, of South Carolina, in which he gives his views of the negro question and labor in the South, Democratic and Republican policies and the industrial development of the South.

He says he is ready to concede the political rights of the negro, but social equality is at the root of the trouble, and the problem is one the South must settle. Race troubles are superceded in the South by questions arising out of the great commercial expansion. He declares the South is divided on Bryanism.

It is rumored that Senator McLaurin will become a member of a New York law firm upon his retirement.

A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness is not removed. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism.

Dr. Pierce's Female Prescription cures a womanly disease and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nerve, tranquillizing the nerves, promoting the appetite and inducing refreshing sleep.

"When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation," writes Mrs. Anna Erickson, of 206 Rice Street, St. Paul, Minn. "Was not able to do anything. It was so bad I had to get up for a day or so, and I would have to lie in bed for a day or so. I had six bottles of Dr. Pierce's Female Prescription and six of the 'Golden Medical Discovery,' and now I feel as well as I could expect anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I got all the doctors and began taking your medicines I gained right along. I weighed 115 pounds, when I began taking your medicines (in August) and now I am up to my usual weight 165. I am as well and feel as good as ever."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Man Admits Killing Five Women.

Hamilton, Ohio, February 26.—Alfred Knapp, the Indianapolis man arrested yesterday, who confessed to the murder of his third wife, to-day made a full confession of five murders. Among them is that of Ida Gebhart, the West Indianapolis girl who was found murdered and outraged in a stable July 3, 1885.

Knapp's confession, which was sworn to before Mayor Bosch, is as follows:

"On January 21, 1894, I killed Emma Littleman in a lumber yard in Gest street, Cincinnati.

"On August 1, I killed May Eckert in Walnut street, opposite the Y. M. C. A., in Cincinnati.

"On August 7, 1894, I killed my wife, Jennie Connors Knapp, under the canal bridge, in Liberty street, Cincinnati, and threw her into the canal.

"In Indianapolis, in July, 1895, I killed Ida Gebhart.

"On December 22, 1902, I killed my wife, Annie Knapp, at 339 South Fourth Street, in Hamilton, and threw her into the river out by Lindenwald. This is the truth.

"I make this statement by my own free will and not by the request of any officer or anyone else.

(Signed.) "Albert Knapp."

Ugly Riot in Mining Camp.

Charleston, W. Va., February 25.—A pitched battle took place at Wright's Coal Works, in Raleigh county, yesterday evening between one hundred United States deputy marshals and deputy sheriffs under Chief Deputy Cunningham, of Raleigh county, and two hundred and fifty striking miners, who refused to permit Federal officers to serve injunction papers. The posse met with a mob, armed with Winchester, which defied arrest and service of papers. The mob followed the deputies with hostilities, opening fire on the deputies at once. The deputies responded and the battle raged furiously for several minutes. Eight striking miners were killed, twelve wounded, two mortally; one colored deputy marshal was killed and three wounded.

After the posse had repulsed the miners, they followed up this advantage and secured the arrest of over a hundred. An ugly strike in progress there is the cause of the trouble. Most of the mob are foreigners.

Four Burned to Death.

Cleveland, Ohio, February 25.—As a result of a head-on collision of a west-bound passenger and an east-bound freight, a mile east of Berea, Ohio, on the Big Four last night, four mail clerks were burned to death and several trainmen were more or less seriously hurt. L. W. Walworth, of Cleveland, the fourth victim, was not killed outright, but was so badly burned that he died within a few minutes.

Passengers saved the life of Joseph Coulter, an express messenger, who was pinned between express matter, by throwing snow on the flames which were threatening him.

It is reported that no passengers were killed. The passenger train was heavily crowded with school superintendents and teachers en route to Cincinnati to attend a meeting of the school directors and teachers held there.

All of the passenger coaches but two were burned.

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right
Wants to Keep on Shouting.

Columbus, O., February 25.—Isaac Tenant has been suppressed by the United Brethren of Mount Gilead for calling out "amen" too loud at revival meetings. Isaac was always seated close to the front and in the excess of his piety his ejaculations reverberated through the church. His voice grated on the ears of other members of the flock and they put a stop to it by injunction. The court allowed a restraining order, but later modified it in such a manner that Tenant had the privilege of attending meetings, but had to worship in silence. Tenant is wealthy and has employed lawyers, who will carry the case to the supreme court.

Handling High Explosives.

It takes some nerve to toy with eternity every day and go to work every morning with the thought that you may come home at night to your sorrowing family in a basket. There are men who face death six days out of seven and think nothing of it, and it is death of the most horrible kind. These men handle the dynamite and nitroglycerin which are used in blasting rock in the different quarries, and they pay but little heed to handfuls of high explosives done up in yellow wrapping paper.

These men are experts in their trade and hold the position of foreman of the various gangs who do the drilling and blasting. They are young men mostly, the trade not being conducive to old age. They begin as assistant foreman and remain such until a premature crash causes a vacancy. At first the fear of high explosives is drilled into them until they regard the sawdust-lined boxes with horror. But in a few months they become accustomed to their trade and handle the big sticks of dynamite as a boy handles a big firecracker. They claim that dynamite is not such a terrible thing, after all, unless you eat it, and then it will give you a violent headache.

Dynamite is an uncertain quantity, however, and acts differently at different times. It burns without an explosion and can even be dropped on the ground without going off, but this is not a safe experiment to try. Let a stick be stroked with a piece of metal, however, and if the man who does it wishes to communicate with his friends he will have to use a long-distance telephone. Nitroglycerine is almost an unknown quantity, and even the most hardened quarryman handles it with the utmost care. Anything will explode it, and many men have been striven over the landscape through its offices.

In loading a whole with dynamite various methods are used, but the most popular one is to put the explosive into the hole quietly and then press it in even more gently with a stick. When the hole has been almost filled the percussion cap attached to a thirty-second fuse is put in and then a bit more dynamite put in on top of it. The whole charge is then covered with a little sand and a match touched to the fuse. While this is being done the sons of sunny Italy have been seeking the long grass and tall trees for safety. Each one yells "Fire!" at the top of his voice as he runs, and just before the blast goes off there is nothing to be seen but the fleeing foreman. After the crash and when the showers of rock have subsided to some extent the sorrowing foreman goes in search of Italians. He finds them peacefully slumbering or talking in the woods, and when told to go back to work each asks in a curious tone if the blast has gone off. It was heard in the three adjoining counties three minutes before.

Strange things are apt to happen to the little tin box in which the sticks are kept. This box is placed carefully in the tool box each night and the keys of both boxes are placed deep in the pocket of the foreman during the night. Wild adventures often take place near the boxes, and one of the foreman told of the narrow escape which a gang of men under him had this spring. The dynamite was used freely during the day, and some loose sticks of it were left in the bottom of the big tool box. When the 6 o'clock whistle blew the Italians flocked to the tool box like homing pigeons. The men began to throw their picks and crowbars into the box at long range. Just then the foreman came on the scene and yelled at them to stop, as he dove behind the nearest tree. No one knows why the whole gang was not blown into bits. It was just one of the strange freaks of dynamite.

Of course, as dynamite and "jelly" are not allowed to be carried on the trains they never are, but there are some interesting times for men who sit in a seat holding a bag in their arms during the entire journey. One local foreman said he took a trip a while ago in a crowded car, and if any one had hit his traveling bag no one on the car would have reached the next station collectively.

Man Kills Wife and Her Lover.

Mexico City, February 27.—A strange crime was committed in a village near Mapin, last week. Jose Mercedes Carrillo's wife left him for another man. He followed the couple to a peon's hut, where, waiting until nightfall, he fastened four dynamite cartridges to the hut. The explosion wrecked the house, killing the woman and her lover.

Stabbed by Hotel Porter.

Greenville, February 26.—Capt. J. O. Westfield, one of Greenville's most prominent citizens, was seriously stabbed this morning by Bud Lewis, the negro porter at the Manselton House.

Captain Westfield, it seems, had gone to McBee avenue to collect rent from the negro. Lewis handed Captain Westfield a five dollar bill and asked for the change.

The only witness, a negro boy, says that Capt. Westfield told him that he would give him the change up at his office, and that thereupon the negro drew a knife and stabbed Captain Westfield three times. One wound is in the right shoulder, one in the abdomen and one near the spine. Captain Westfield was found in a vacant lot near Lewis' home by a carrier of the Greenville Herald.

Physicians were at once summoned and the injured man given every possible attention. Dr. W. C. Black, who dressed the wounds of the injured man, says that while the wounds are very serious they will not prove fatal.

The negro made good his escape and had not been captured up to 4 o'clock this afternoon. The affair has created a big sensation, Captain Westfield being one of the most prominent men in the business and social world here.

Wreck on the C. and G.

Columbia, February 24.—There was a wreck on the Greenville and Columbia road last night about midnight, at Cane Creek, near the locks, and several freight cars and two hundred feet of trestle were burned.

The burning of the trestle came about in a most peculiar manner, and was a matter of comment in railroad circles to-day. The freight was derailed by a broken journal and several of the cars thrown into the creek. One of them was loaded with lime, and almost immediately caught fire, the blaze spreading to the trestle and cars, burning seven of them and about one-half of the trestle before it was extinguished.

Strange to say, no one was hurt, and as soon as the Columbia office was notified a wrecking train was sent out and the work of rebuilding started at once.

May Connect With S. A. L.

Raleigh, N. C., February 24.—The president of the Stone Mountain Railway is here to secure an amendment to its charter, allowing it to build southward from Roaring river to the South Carolina line. This looks very much like a connection with the Seaboard Air Line. President Hinshaw says he does not know, because it is not as yet decided what point on the South Carolina line the road will strike. It is going northward to the coal fields, and through a very easy gap in the Blue Ridge.

Fire Destroys Mississippi Female College.

Meridian, Miss., February 24.—Fire at three o'clock this morning totally destroyed the main building and laundry of the Mississippi Female College, the residence of Mrs. B. F. Ormond and two negro dwelling houses. There were two hundred girls in the building, all of whom escaped. Many lost all but their night clothing. The loss is not known, but will be heavy. The college will continue sessions in temporary quarters.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspaper is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid and all forms of kidney trouble.

Dr. Kilmor's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmor & Co., Binghamton, N. Y. The regular fifty cent and dollar size bottles are sold by all good druggists.

Don't make any mistake, but remember the name—Swamp-Root—Dr. Kilmor's Swamp-Root, and the address—Binghamton, N. Y.—on every bottle.

FOLEY'S HONEY AND TAR
Keeps the Cough and Heals Lung

There were 652 bills introduced in the House of Representatives at its recent session. Of this number 185 became laws, some are still "pigeon-holed" in the Senate until next session, a great many were killed directly and 105 were continued until next session.

FOLEY'S HONEY AND TAR
Keeps the Cough and Heals Lung

Since Governor Heyward's inauguration four Probate Judges have died in different portions of the State. Elections to fill the vacancies thus created have already been ordered.

There may not be anything in a name, remarks the Milwaukee Wisconsin, but just look how long it is taking to wind up that Waterbury strike.

The Atlanta Semi-Weekly Journal and True Courier for \$1.75 a year.
