Brownfield to Hang.

John Brownfield, the negro barber of Georgetown, who killed the deputy sheriff of that county some three years ago, will be arraigned and resentenced at the next term of the Court of General Sessions. The Supreme Court of the United States has affirmed the decision of both the Circuit Court and the State Suprerae Court, Brownfield having been sentenced to death at the term of the former court when he was first tried. His attorneys at that time appealed to the State Supreme Court which affirmed the decision of the lower court. The case was then carried to the highest tribunal which now refuses to alter the sentence or to grant a new trial. Brownfield's case is one which has attracted national attention, and the fact that there were no negroes on the jury which sat on his case was an argument freely used by the lovers of the black race, and was the ground on which appeal

on the Confederate rolls, which the United States government has asked for with a view to their publication. Col. Tribble invites and earnestly solicits co-operation in the work he has been designated to undertake and hopes very much that those hav-ing rolls or information such as is

sought will communicate with him. There has been a great deal written about the matter and a good deal of misunderstanding, and with a view of getting before the people the in-formation that is sought he has given out one of the letters he has received from Washington, in which the exact information which the government seeks and how it is to be obtained is given. It reads as follows: Record and Pension Office,

War Department,
Washington City, March 28, 1903.
Col. M. P. Tribble, Anderson, S.
C.—Dear Sir: The department
having been advised by Governor Heyward on the 25th instant that he will be glad to co-operate with it in compilation of the recently authorized roster of the officers and men of the Union and Confederate armies, and that he has designated you to confer with me relative to the details of the work, I beg leave to submit

the following suggestions for your consideration: A considerable collection of the rolls of South Carolina Confederate organizations is now in the possessorganizations is now in the possessorganizations. While that collection does not by any means show all the names of the officers and men who were in the Confederate service from South Carolina, and while it does not show the complete military histories of those whose names it does show, it is hoped that the list of names and the histories of individual officers and men can be made much more nearly complete by record evidence obtainable from other original rolls that may now be in the possession of the State of South Carolina or of historical societies, memorial associations and in-dividuals of South Carolina and other States.

The legislation authorizing the compilation of the roster is construed by the department to restrict it, in the department will be unable to use in the compilation any of the rosters that have heretofore been published. but must in all cases seek the original records upon which those rosters were based.

You will readily see that, in order that the compilation now in progress shall be as nearly complete as it is parts of the country. possible to make it, it is essential that the war department shall obtain the temporary loan, for the purpose of copying, of any original official of copying, of any original official rolls, lists or other documents that show the names of Confederate offishow the names of Confederate officers and men, and that are now in the custody of State officials, historical or memorial associations, public or private libraries, or that are in the

possession of private citizens. It is impracticable for the Department to communicate with the first time in the history of Iowa the various holders of these scattered to collect, by loan or otherwise, such records of its own or other Confederate organizations as may be obtainable within the State, and to forward the collection, when completed, to this department, by which the records will be copied and returned to the State with the least possible delay. Of course, express charges incident to shipping records to and the department.

Permit me to suggest, if the plan herein outlined meets with your approval, that you take such steps through the public press and otherwise, as you may deem to be advisable and proper to give the plan wide publicity and to enable you to gather all original Confederate records that can be collected in your State by oan or otherwise.

If it occurs to you that a different plan from that indicated herein adopted, or if during the progress of the work you can make any suggestions tending to facilitate or improve t, you will confer a favor upon the department and myself by advising me freely and fully with regard to your views. Very respectfully, F. L. Ainsworth,

Heart Trouble Baffled Doctors. Dr. Miles'Heart Cure and

Nervine Cured Me.

There is nothing more necessary to health than sleep and rest. If these are denied you, if you rise in the morning more tired than when you went to bed, there is an affection of the nerves plainly present. If your heart is weak, or there is an inherited tendency in that direction, your weakened nerves will soon so affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nervine is a nerve tonic, which quiets the nerves, so that sleep may come, and it quickly restores the weakened nerves to health and strength. Dr. Miles' Heart Cure is a great blood and heart tonic which regulates the action of the heart, enriches the blood and improves the circulation.

"Some time ago I was suffering severely with heart trouble. At times my heart would seemingly stop beating and at others it would beat loudly and very fast. Three to four hours sleep each night in ten months was all I could get. One week in last September I never closed my eyes.
