Teachers coming from a distance will be entertained at the homes of our

Since 1803 Mr. Massey has been con-nected with the commission, first as stenographer and then as secretary, and in that time he has made hundreds of friends in every section of the country. The position to which Mr. Massey has beed elected in Columbus is a very lu-crative one, and will afford him a much wider field for his talents than the place he has so ably filled for the past eight people if they will write immediately to David F. Probably the largest order ever given for paint in the State of North Carolina was received by the Odell Hardware Co., of Greensboro, N. C., from W. A. Irwin, Esq., of Durham. The order was for 5,000 gallons of De-vee lead-and zine paint, to be used on the large Irwin Mills and their cottages now being built in Hartnett County. Many of the leading paint manufac-turers were eager to secure this order, and it speaks volumes that the prefer-ence was given to Devoe lead-and-zinc, which is undoubtedly the foremost paint in this country to-day.—Greensboro (N.
