STATE CONSTABLES ARRESTED.
Writers, of Charleston, Brings Suit Against Them in United States Court.

CHARLESTON, November 8.—Not content with the indictment of the five dispensary constables in the Court of Common Pleas a few days ago on the charge of assaulting him in his place of business August, Randolph D. Winters carried his case into the United States Court, securing an order for the arrest of Constables Bateman, Hoy, Gideon, Grady and May. The action is for \$10,000 damages, and the bond of the constables was fixed at \$6,000 each. Constables Grady and May were arrested and lodged in the Charleston jail, being unable to secure bondmen for so large a sum. The other three, being on duty at a few months' office, are not arrested, but will surrender to the United States authorities. The Attorney General will secure the release of the constables as soon as practicable. Mr. Grady is well known in Walhalla, having visited this section of Oconee county on a number of occasions. He is a perfect gentleman at all times, and his friends hope for his early release and complete vindication.

The frost, which has used the rains that have followed, has used the young bolls to decay, and they will not open. Some complaint is being made in the fields, but there is not much complaint of this kind, as the farmers have been able to keep up with the picking as fast as the cotton opened.

Not a Sick Day Since.
"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. for Doan's Backache Kidney Pills and determined to try that. After taking a few doses I felt relieved, and soon thereafter my kidneys were cured, and I have seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what E. J. Bass, of Fremont, N. C., writes. Only 50c. at all drug stores.

Consumption
Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.
Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.
Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.
Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.
