

CLOTHING CLOTHING

WE HAVE A BIG STOCK OF MEN'S, YOUTHS' and BOYS' CLOTHING. We are now making a specialty of Clothing, and we have a line we are going to make a fuss with. You will hear from it all around. Come and let us show you through. **IT PAYS TO BUY FOR CASH.**

We bought some short lots while in New York, and we can sell you Good Suits for less than the wholesale cost on them—NICE, NEW, NOBBY SUITS—only they had but a dozen or two of them, and we closed out the lot. We bought this lot of Pants so we can sell them at lower than you ever saw. We have all sizes and styles—and the prices are less than the other fellow paid for them, and yet make money on them. Come around to see us and we will show you that **IT PAYS TO BUY FOR CASH.** That is how we got them so cheap—buying WOOL GOODS IN SUMMER AND PAYING CASH FOR THEM.

Monument to Jefferson Davis.

The Jefferson Davis monument will be unveiled in Richmond June 8, 1907, the anniversary of President Davis's birthday. The occasion will bring together one of the largest gatherings in the history of Richmond.

The Davis monument fund was turned over to the United Daughters of the Confederacy five years ago by the United Confederate Veterans' Association at a convention held in Richmond. Twenty thousand five hundred dollars were turned over to the Daughters and since that time they have raised over \$43,000. The total amount raised is \$86,000, though this amount is not all in bank, the Daughters having invested quite a sum in Sheppard's picture, representing the three arms of the Confederate service—the artillery, the infantry and the cavalry. From the sale of these pictures they expect to realize about \$5,000.

The monument will cost about \$70,000, which will include everything. The Daughters of the Confederacy want to raise about \$10,000 in addition to the sum they have on hand. Of this \$10,000 they propose to invest \$5,000, the interest of which they propose to use in caring for the grounds of the monument.

Work on the monument will begin next July and the granite work will be completed long before the time for the unveiling. Three years, however, will be required for the completion of the bronze figures, the statue of Jefferson Davis, the other a female allegorical figure. Sculptor Valentine has stated that he could

not possibly complete the figures under three years.

The figure of Davis will stand eight feet high on a granite pedestal of about the same height, and the female figure, pointing heavenward, will stand about seven feet high on the summit of a column 55 feet high.

A Policeman's Testimony.
J. N. Patterson, night policeman of Natchua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Sold by J. W. Bell, Walhalla.

Ashland Stud is Dissolved.
Lexington, Ky., November 20.—The famous Ashland stud, property of Mrs. John M. Clay, widow of the son of Henry Clay, was dissolved today at the W. T. Woodward's disposal sale. The stud was founded by Henry Clay 74 years ago, descended to the son and then to his widow. Senator Wade Hampton, of South Carolina, an admirer of Henry Clay, presented him with Margaret Wood in 1845 and in 1846 Commodore Morgan, U. S. N., presented him with Yorkshire. With these Clay founded the stud of thoroughbreds that has continued for nearly three-quarters of a century.

The Dispensary Business.

We publish an article to-day which shows what the dispensary has done for South Carolina. It was an awful thing when the State went into the liquor business, and we are just beginning to reap some of the results. That the harvest will be greater is perfectly evident to thoughtful observers. We have sown to the wind and we shall reap the whirlwind. Possibly it is wrong to say that we did the sowing, for the people of the State asked for prohibition and the politicians gave us whiskey in its worst form. They engrafted it into the very fibre of the State, making it a dealer in the whiskey business.

Relief must come and we believe that it will come. The people need to be thoroughly aroused from the mountains to the seaboard and then something is sure to happen. The cry of every man who loves his fellowman and his State should be for the deliverance from this awful curse.

In view of all the evils connected with the dispensary business it is strange to see good people in other States working for the establishment of local dispensaries. This can be accounted for only on the ground that they have not taken the means to inform themselves. It may be said of them in a fearful sense, "they know not what they do."—Greenwood Journal.

In his annual report to the Postmaster General, First Assistant Postmaster General Wynne recommends clerk hire allowance at all third-class post offices.

May Get Army Post.

Columbia, November 21.—The effort to secure an army post for Columbia has taken definite shape and the decision will now rest with President Roosevelt and the war department. Governor Heyward and Major Mich Jenkins, collector of internal revenue, left this afternoon for Washington for a personal interview with the president on the matter. This is in accordance with the resolutions adopted sometime ago by the chamber of commerce and every effort will be made to secure a definite assurance that the post will be established. The interview will be had with the President to-day, and besides Columbia's Representatives the Senators and Representatives from this State have interested themselves in the matter. Vice President A. B. Andrews, of the Southern Railway, will accompany the party to the conference.

He Could Hardly Get Up.

P. H. Duffy, of Ashley, Ill., writes: "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." Sold by J. W. Bell, Walhalla.

May Name Capers.

Washington, November 20.—In case the bill becomes a law for the creation of a new Judicial District in the Western part of South Carolina, President Roosevelt strongly has John G. Capers in mind for Judge. The President is impressed with and likes Capt. Capers and believes he would make a competent and satisfactory Judge for the new district. It is not known of course what disposition will be made of the measure, although it has much support. It is claimed that the new court system will be of great benefit to lawyers and others, and there are so many strong points in its favor that it may prevail. Capt. Capers was at the White House to-day and it is said that he discussed the situation with the President.

The Farmers' and Mechanics' Bank of Camden, S. C., is in the hands of assignees. The directors investigating the affairs of the bank thought this course was the best. They feel satisfied that the assets and securities are sufficient to meet all obligations.

More Dispensary Suits.

Columbia, November 20.—A third action has been instituted against dispensary constables in Charleston, according to notice received at the Attorney General's office to-day. This action has evidently been started after the action of the State Board in taking away the profits of the city of Charleston. The suit gives notice that Rudolph D. Winters has filed claims against Giddoon, Bateman, May, Hoyer and Grady, dispensary constables, and their bondsmen for the sum of \$500 each for damages. A few days ago Winters filed suit in the United States Court for \$10,000 damages, and also began original action in the Circuit Court of Charleston, there being some trouble at the time over the bond. This last suit is in the State Courts also, making three separate actions against these men. The constables are represented in the State Courts by Messrs. Bellinger, Townsend and Haskell, of this city, and in the United States Court by the Attorney General. The last move is regarded with much surprise in official circles.

No Way to Remove a Dispensary.

The Legislature should in all justice do some untangling whereby a dispensary can be removed from a community as well as to be established in it. As it is now the hands of the people are tied and the hands of the State Board are tied, and when a dispensary is once located in a community it is there to stay, for the weight of a surplus dollar is sufficient to anchor it there. The spirit of commercialism is a mighty lever.—The Kershaw Era.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. Sold by J. W. Bell, Walhalla.

The question of having warehouses in the South for the purpose of storing cotton is being generally discussed. It is argued that a farmer could then store his cotton, take a warehouse receipt and draw money on it and keep his cotton as long as pleased before selling it. Farmers can now store their cotton with the cotton factories, take a receipt and settle with the mill when they please at the price prevailing at the time of settlement. The mills charge no storage or insurance from the farmer, as they carry all the insurance themselves.—The Ensign Progress.

Ear Grafted on Head of Millionaire.

Philadelphia, November 21.—Dr. Andrew L. Nelden, of New York, last Wednesday performed the operation of grafting an ear on the head of a Western millionaire, whose name the surgeon says he is under bond not to divulge. The operation was to have been performed in New York, but District Attorney Jerome is said to have interfered.

Dr. Nelden advertised for a man willing to sell an ear for \$5,000, and of 300 applicants he selected a young German who conducts a restaurant in New York. Dr. Nelden said to-day: "The operation has been performed and promises to be successful. I am under legal contract and heavy bond not to reveal the name of my patient. Generally speaking, he is a wealthy man from the West. The operation took place at a private hospital here where I was assisted by a Philadelphia physician and one from New York. I think they will be willing to have their names known later."

"The two men were placed in opposite directions upon an elongated bed. One-half of the volunteer's ear, the upper half, was cut off, together with about 4 inches of the skin behind the head.

"This was twisted around and fitted to a freshly prepared wound upon my patient's head. The half ear was held in place by bandages and the two men so bound they cannot move their heads. They must remain in this position for at least twelve days to allow the circulation to come through the flap of skin that still remains a part of the volunteer's scalp.

"If this half ear starts to knit properly the lower half of the ear will be grafted in the same manner."

Andrew Johnson's Boyhood.

When ten years old Andrew Johnson, who succeeded Abraham Lincoln as President of the United States, was a ragged street boy in Raleigh, N. C., and had never been to school. Andrew was apprenticed to a tailor and began to learn his trade before he was able to read or write. A benevolent old gentleman in Raleigh used to go about the city reading to the apprentices in the shops, and in the course of time he came upon Andrew. It was supposed that in this way the boy who was to become a president got his first love of reading, for shortly thereafter he began to learn his letters. Ten hours a day he worked at his trade, and the rest of the time, with the exception of a few hours devoted to sleep, he was trying to read. At sixteen he finished his apprenticeship, but he had yet to learn much before he could read well. Then he was fortunate enough to marry a young woman who became his teacher. He opened a tailor shop after he was married, and his wife sat with him while he worked and read to him in the evenings, teaching writing, geography, arithmetic and spelling.

In sixty years the annual per capita consumption of whiskey has gradually decreased from two and a half gallons to one gallon and three quarts. In forty years the consumption of beer has increased from one gallon to more than seventeen gallons per capita. From this report it would seem we were getting to be a beer drinking people.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.
All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name—Swamp-Root—Dr. Kilmer's Swamp-Root, and the address—Binghamton, N. Y.—on every bottle.
