long illness from fever. He was about
47 years old and had never been married.
He was a son of the late Allen Bowie of

there ever since. He was a brother of

Found a Cure for Indigestion.
I use Chamberlain's Stomach and Liver
Pills for indigestion and find that
they suit my case better than any other
remedy I have ever tried and I
have used many different remedies. I
am nearly fifty-one years of age and have
suffered a great deal from indigestion.
I can eat almost anything I want to now.

Walhalla, S. C.

Saved from Terrible Death.
The family of Mrs. M. L. Bobbitt,
Bargerton, Tenn., saw her dying and
were powerless to save her. The most
skillful physicians were repeatedly
used, failed, while consumption was
slowly but surely taking her life. In
his terrible hour, the King of New Dis-
covery for Consumption turned despair
into joy. The first bottle brought im-
mediate relief, and his continued use
completely cured her. It is the most
certain cure in the world for all throat
and lung troubles. Guaranteed bottles,
50c and \$1. Trial bottles free at all drug
stores.

Death of an Old Soldier.
John A. Stevenson died at his home,
near Townville, last Tuesday. He was
formerly of Anderson county, having
moved to Oconee a year ago. He
served four years in the war between the
States, and was a consistent member of
the Methodist church. Among his last
rational words was an eloquent prayer.
After funeral services, conducted by Rev.
Ligon, assisted by Rev. Jewell, his re-
mains were interred in the Townville
Presbyterian cemetery. Mr. Stevenson
was 73 years old, and leaves a wife and
seven children to mourn his death. To
them we extend sympathy.

A Wonderful Saving.
The largest Methodist church in Geor-
gia, calculated to use over one hundred
gallons of the usual kind of mixed paint
in painting their church.

They used only 32 gallons of the Long-
man & Martinez Paint, mixed with 24
gallons of linseed oil. Actual cost of
paint made was less than \$1.20 per gallon.
Saved over eight hundred dollars in paint,
and got a big donation besides.

Every church will be given a liberal
quantity whenever they paint.

Increase Wofford Endowment.
The trustees of Wofford College have
under consideration plans for increasing
the endowment fund of the institution.
The matter was considered at the meet-
ing of the trustees in Spartanburg this
week, but no action was taken. The
present endowment of the college is
\$93,000. The trustees want to increase
this sum by \$100,000, and they are de-
termining the best means of doing so. It
is likely that a canvassing agent will be
put in the field if a suitable man can
be found, but the trustees have taken no
final action as yet, and until they get out
their plans matured they will not give
anything to the public. The college
now has an enrollment of 325 students,
the greatest number in its history, and
the necessity for an increased amount of
money is getting to be presented to the
trustees.

The First National Bank of Spartan-
burg has offered a premium of \$100 to
the farmer that county producing the
greatest yield of cotton on an acre dur-
ing 1904. We would like to see one or
two of the cotton raisers in this county
take this example. The bank would not
pay money by it, for it would be the best
kind of advertising.—Anderson Mail.

"When the butter won't
come put a penny in the
churn," is an old time dairy
proverb. It often seems to
work though no one has ever
told why.

When mothers are worried
because the children do not
gain strength and flesh we
say give them Scott's Emul-
sion.

It is like the penny in the
milk because it works and
because there is something
astounding about it.

Scott's Emulsion is simply
a milk of pure cod liver oil
with some hypophosphites
especially prepared for delicate
stomachs.

Children take to it naturally
because they like the taste
and the remedy takes just as
naturally to the children be-
cause it is so perfectly adapted
to their wants.

For all weak and pale and
thin children Scott's Emulsion is
the most satisfactory treat-
ment.
