Beautiful Shoes

add the charm to an exquisite toilette

To the American woman is conceded first place in the matter of beauty and taste in dress—to her discrimination also is due the fact that of all women's shoes in the world by far the largest sale is enjoyed by

"Queen Quality."

If you have experienced difficulty in obtaining moderately priced shoes combining graceful outlines and correct fashion with the firm, easy tread so essential to the well-poised figure, you will appreciate the elegance and comfort of the "Queen Quality" Shoe. It is the "glass-of-fashion and the mold of form" as applied to women's footwear—the perfect finishing touch to your Easter toilette.

GOOD, PURE BLOOD

is health's best insurance. It is the blood that carries the life-giving elements to every atom of your body. If it is impure it needs no prophet to foretell the result. Springtime is the season of blood disorders. If you have any trouble at all it will be most likely to manifest itself now. Boils, pimples, headaches and that "all gone" feeling, called spring fever, are all evidences of blood impurity. These troubles and many others will rapidly disappear after you commence using our Hot Strings Blood Remedy. It purifies and builds up the blood, stimulates the digestion, brings back health and energy.

MR. GIBSON VISITS RICHMOND.

Notes of His Visit to the Confederate Soldiers' Home and Other Places of Interest.

Editors Keowee Courier: In addition to what I have already written of our recent trip to Richmond, Va., in brief would say, passing over the part of the trip from Walhalla to Columbia: On March 30 at 5.30 a. m. we boarded a Seaboard Air Line train for Richmond. The Seaboard is one of the best equipped railroads in the South. The road-bed is firm and the track is of the heaviest standard rails. The engines are of the largest and up-to-date in build with all the modern improvements, equipped with electric headlights, and the coaches are of the very latest and most up-to-date style, being built with a view to comfort. The train in charge of Conductor Gibson was made up of day coaches, Pullman sleepers, dining cafe and parlor cars, besides the usual baggage, express and mail cars, making ten or eleven cars in the train, and it is certainly a pleasure to travel on this magnificent road, where everything is done that can be done for the comfort of the traveling public. We arrived in Richmond at 4.55 p. m. on time, making the run of 360 miles in ten hours and twenty-five minutes. It is well-known that a wreck or serious accident is of rare occurrence on the Seaboard system. During our stay in Richmond we spent an afternoon in a drive about the city, visiting many important localities, no-

tably, "the old camping ground," known to old soldiers as Camp Lee; then an old field, or fields, of considerable extent, well known as Lee District, and is being rapidly built up with splendid residences, besides schools, colleges and various other institutions too numerous to mention. Among the places visited was the Confederate Soldiers' Home, located on a somewhat elevated plat of ground. The home is composed of a number of neat cottage buildings, in which were to be seen a number of old Confederates, neatly dressed in Confederate gray, and seemed to be perfectly happy and content. In the center is a building presided over by an old Confederate, an everlasting talker and absolutely "unreconstructed," but quite gentlemanly, and taking great delight in showing us over the building, which is used mainly as a kind of a museum, containing quite a number of war relics, the most noted being the horse on which Gen. Jackson was killed, and which was kept at the home until his death about two years ago, and was then embalmed by a taxidermist, and now stands in a glass case. Out in the grove nearby stand a number of cannons, old-time field pieces. After registering our names we bid the kind old "reb" good-bye and drove away for more sight-seeing.

Respectfully,
H. A. H. Gibson.

Marion Parr Pays Penalty.

Columbia, April 14.—Marion Parr, the cotton mill operative murderer of the boy, Clarence Shealey, whom he killed in a most brutal manner by slipping up behind him, apparently in a drunken frenzy, and cleaving his skull with a hoe, paid the death penalty on the gallows here today with a smile on his face and without a tremor. Under the influence of spiritual advisers, who have constantly been with him, he was keyed up with a religious fervor which sustained him to the last. He was pronounced dead in 44 minutes, his neck having been broken by the fall. The coarseness of his features was even more pronounced in death than in life.
