

History of the Old Stone Church From Time of Its Organization.

A book of much interest to all who care for local history has just been issued with the name of Dr. R. N. Brackett, of Clemson College, on the title page as its editor.

As secretary of the Old Stone Church and Cemetery Association Dr. Brackett has collected and edited a set of papers on various phases of the history of the church, known formerly as "Hopewell."

It would be impossible to do more here than to indicate by titles the contents of the many papers that make up the volume. Some of them are as follows:

Old Stone Church Property, by Major A. T. Broyles. Transcript—Extract of the Earliest Session Book of Hopewell Congregation. Hopewell Congregation and Old Stone Church, from Howe's History of the Presbyterian Church in South Carolina.

Old Stone Church and Cemetery, by D. E. Frierson, D. D.

Memorial Address, by W. S. Morrison, Clemson College.

Old Pendleton, editorial in Keowee Courier.

List of the dead Revolutionary, Confederate and Indian Creek war soldiers.

Andrew Pickens, from Cowpens Centennial 1781 to 1881.

Robert Anderson, by Prof. J. J. Halsey, Lake Forest, Ill.

John Miller, the Printer, and his Descendants, by Mrs. Julia Miller Browne.

John Adger Brown, by Miss Susan B. Adger, Pendleton, S. C.

Turner Bynum, by Mrs. Sallie Chase Patillo, Atlanta, Ga.

Joseph Whitner, by Major John C. Whitner, Atlanta, Ga.

The Keese Family, from Ramsey's History.

James McElheny, D. D., by Mrs. P. H. Mell, Clemson College.

Lemant and Walker Families, by Mrs. Annie Lee Hudson Hill, Washington, Ga.

Dr. Wm. Backley Cherry, by Mrs. Fannie Cherry Davis.

Dr. Oliver M. Doyle, by a lifelong friend.

The introduction of the volume consists of an account of the Old Stone Church and Cemetery Association, its constitution and by-laws and the officers and members of the Andrew Pickens and Catechee chapters, D. A. R., which helped to publish the book.

Excellent cuts of the old church as it stands to-day, of Gen. Andrew Pickens and of the sword presented to him by Congress in token of his services at Cowpens, together with a map of the grounds, help to make the volume attractive.—Anderson Mail, October 14th.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold.

There are strong indications that the prohibition executive committee will break out in Columbia at the fair week meeting with a State ticket with Joseph A. McCullough for Governor and Louis J. Bristow for Lieutenant Governor.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nerveine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longchiff hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 20, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family and he could not walk or talk. We were told he was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nerveine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he came so bad that we sent him to Logansport, Ind. We pronounced him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, write me at Liberty, Mo. E. H. BUNNELL, Lincoln, Ind.

Dr. Miles' Nerveine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

Another Big Power Plant in Anderson.

Jos. E. Serrine, of Greenville, will be the engineer for the \$750,000 new electrical power development near Anderson. The Hatton's Ford Power Company, incorporated in August with a capital stock of \$150,000 to develop Hatton's Shoals, 16 miles west of Anderson, on Tugaloo river, will build by Mr. Serrine's plans a dam fifty-three feet high and one thousand feet long for the development of eight thousand horse power, and will build a power house for the transmission of this in Electrical energy to Anderson. Several Northern capitalists are interested, and about \$750,000 will be expended in construction and equipment. It will be one of the finest power developments in the South.

From Sweeper to Mill Chief.

Union, October 14.—William E. Touchstone, who for over a year has been superintendent of the Union cotton mills and the Buffalo cotton mills here, has tendered his resignation, and it will likely take effect about the end of this month, the chief reason, it is understood, being the wish of his wife to return to her home near Greenwood, as she has been in ill health for many months past.

Touchstone calls attention to a man who has worked himself up from being a sweeper in a Georgia cotton mill at six and one-quarter cents an hour to a position with a salary of from \$6,000 to \$8,000 a year. As superintendent of the mills referred to, as well as the Seneca cotton mills and the Pine Creek Manufacturing Company, at Camden, he has had under his immediate supervision 133,084 spindles, 5,324 looms and 2,550 operatives, or more than any other one man in the South. It is probable that he may retain the superintendency of the Seneca and Pine Creek mills, but this is not definitely known yet.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears away blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. Bell, Walhalla.

Gamblers Raided by Police.

Augusta, Ga., October 15.—Last night the police made a raid on every gambling room in Augusta, at every place fluding a good game in progress, and taking proprietor and players to headquarters. The rooms were stripped of the paraphernalia, at one place property valued at \$7,000 being secured. One of the places raided, which is situated over the Cafe Metropole, has been operated continuously for the last 30 years and this is the first time in history that the authorities have ever raided the place and it was looked upon as safe.

To-night Dr. S. R. Belk, pastor of the largest Methodist church in the city, publicly commended the action of the chief of police and said that he was glad to see there was one man here who had the courage to pu. down lawlessness which prevailed.

Don't Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. Bell, Walhalla.

Birmingham Gets the Methodist Conference.

Birmingham, Ala., October 13.—The committee on place of meeting of the Southern Methodist conference has decided on Birmingham for the conference to be held in 1906. The committee at first selected Birmingham, but thought seriously of reconsidering this decision on account of alleged insufficient hotel accommodation. It visited Asheville, thought of choosing that city for the conference, but finally decided to make no change and meet at Birmingham.

Freight Wrecked by Striking Cow.

Oskaloosa, Iowa, October 15.—Five trainmen were killed to-day at Seaton, Ill., when a heavy, double-header freight train, eastbound, on the Iowa Central railroad, ran into cattle on the track at a speed of twenty miles an hour. Both locomotives and 11 freight cars loaded with grain and lumber were piled in a heap beside the track.

All the men killed lived in Oskaloosa except Briley, whose home was in Monmouth, Ill. The engineers lived several hours after the wreck occurred, but the other three men were killed instantly. A cow was lying on the ties between the rails. She was hidden from view by other cattle standing about it. At the sound of the whistle of the approaching train, the standing cattle scampered away, but the forward locomotive struck the lying cow. The cow was crushed under the wheels of the pilot truck and rolled along the ties for a hundred feet. The animal blood made the rails slippery and pieces of bone threw the front locomotive from the track. The derailed locomotive pitched down an embankment drawing the second locomotive into the ditch, where the two machines piled up, crushing the engineers and firemen. The wreckage caught fire from the live coals of the locomotive fire boxes. The conductor and rear brakeman with persons who lived near the wreck hastily took the mangled trainmen from the burning debris and saved the rest of the train from the flames.

Government Regulation of Rates.

In view of the widespread interest in the proposal to regulate railway rates by government authority, the Macmillan Company, who are bringing out Professor Hugo Richard Meyer's book of the above title, anticipate a much more general demand for it than is usual with works of this character. A first edition of sixty-five hundred copies is being printed and, from the heavy advance orders received, the publishers anticipate a second printing within a very short time. Certainly no book dealing with an economic subject could possess the element of current and general interest in a greater degree. The book embodies the results of twelve years spent in careful investigation of the subject of government ownership and control in many lands, and is the most important and convincing contribution to the discussion of this much-discussed subject that has appeared thus far.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better and continued to improve until I was entirely well." J. W. Bell.

Unusual Damage Suit.

Spokane, Wash., October 15.—George A. Lovejoy, an Elk, who was selected to furnish cuticle to save a fellow Elk's wife, Mrs. Fred B. Searles, suffering from severe burns, yesterday brought suit against C. P. Thomas for \$10,000 as the value of 50 inches of skin, which he says the doctor peeled off his legs while under chloroform.

Mr. Lovejoy asserts that it was represented to him that the surgeon would take from his thighs only two or three strips of cuticle three or four inches long and three-fourths of an inch wide. After the operation, Lovejoy found that the fronts of his legs between knee and hip were stripped of skin and it was ten days before he was able to leave the hospital. Mrs. Searles was burned in an accident with a lamp at Lewiston, Idaho, and was brought to St. Luke's hospital, Spokane, for treatment. A number of Elks volunteered to furnish cuticle to cover the burned places, but Lovejoy proved such a promising subject that while under chloroform all the skin necessary, except some supplied by Mrs. Searles' husband and brother, was peeled off his legs. The grafting operation was successful, but the woman was so weakened from long illness that she died.

Burned to Death Alone in a House.

Rock Hill, October 15.—Two colored children that had been left alone in the house were burned to death yesterday and the house and contents all destroyed in a fire that occurred on the farm of J. H. Miller, at Ebenezer. The mother of the children had spread a quilt on the floor before the fire before leaving and had placed the children there. She had been absent about 15 minutes at her duties near Mr. Miller's home when the fire was discovered. The children's bodies were found in the bed in the room where they had been left and are thought to have taken refuge there. They were aged two and four years. The negroes are respected and, according to Mr. Miller, bear good reputations.

Another deplorable affair of the same kind occurred on Thursday on the plantation of B. F. Merritt. The child of Shaver McLure, having been left before the fire while the parents went to pick cotton, was so badly burned that it died after five hours of agony. Both cases are but repetitions of the old story that is told every year, that of careless ness.

Tokeena Happenings.

Tokeena, October 16.—Our Sunday school is on the decline, but this should not be the case; all should come, as your presence will encourage the faithful superintendent. The school house at this place has lately been painted, which greatly improves its appearance. Mr. and Mrs. J. J. Cromer, of Seneca, visited the latter's parents Sunday. Misses L. la Callahan and Ida Phillips are working in W. C. King's new store at this place. T. P. Singleton and family are visiting relatives at Anderson and Starr. Alfred Pritchard and wife, of Connors, visited the former's parents, near here, recently. Mr. and Mrs. R. A. Moore visited relatives near Return Sunday. The Sock Party, given at the home of Mr. and Mrs. W. S. Pritchard on last Friday evening, was one of the most enjoyable occasions it was ever my pleasure to attend. A large number of invitations were sent out early last week and of course everybody was anxious to attend, and a merry crowd never met, for from the time we arrived till we left they were engaged in some amusement. The young men contributed \$6.00, which will be used in improving Cross Roads church. It certainly was interesting to see them count the money after the socks had been collected. This is a commendable act for our young people, but they are ever busy working for some good cause. After this we were invited to the dining room, where the table was loaded with nice refreshments, which the young ladies had prepared. We were sorry when the time arrived for us to say good bye, after spending such a delightful evening. Violet.
