-At a recent conference, held in Wash-ington, General Manager Spencer, of the Southern Railway, and representatives of the South Carolina Traffic Association, Southern Kallway, and representatives of the South Carolina Traffic Association, it was proposed to change the passenger schedules so as to give Columbia a morn-ing train and an afternoon train to the up-country. Such an arrangement would work a hardship on the Walhalla travel-ing public, necessitating, as it would, a corresponding change on the Blue Ridge Railway. The morning train would be moved up from 8.45 s. m. to about 6 a. m. and the afternoon train, now arriving at 5.45 p. m., would arrive at about 10 p. m. Such a change as this would work a hardship at this point and would be in-jurious to every point on the Blue Ridge Railway, and it is hoped, therefore, that the change will be abandoned and that schedules remain as at present, which cannot be improved upon. Furthermore there is but little demand, if any, at this point for a trip to Columbia and return in a day. It is more desirable to spend the night in Columbia for sight seeing and rest, which, by the way, is likewise to Columbia's interest.
