E. E. Watley, at 1131 Third evenue, be-tween 2 and 3 o'clock this morning. There were twenty-one boarders in the house, almost all of whom were street railway employees. In addition there were three other per-sone, Mrs. Walter and her two sons. All have been accounted for. All the dead and injured occupied rooms on the second story of the house. The flames enveloped the entire building when the fire was discovered and it was with greatest difficulty that the persons on the lower floor made their escape. They saved nothing and every piece of furniture in the house was burned. The fire is thought to have been of incendiary origin. Burglars have been of incendiary origin. Burglars have been detected on the premises twice within the last two months and Mrs. Watley thinks the house was burglarized this morning and then set on fire. Thieves were discovered at work during the progress of the at work during the progress of the flames and the police were called to keep guard. The dead were burned beyond recognition.

Mesaba ranges and extending as far west as Fosston. Denver, Col., Oct. 22.—Snow, wind and cold have extended over nearly the entire country be-tween the Rocky Mountains and the Missouri river to-day, causing heavy losses to live stock and late fruit. Telegraph wires are prostrated and railroad schedules disarranged. The storm is almost unprecedented for its severity at this season of the year. Up to 6 o'clock this after-noon about 20 inches of snow had fallen in Den-ver, much of which melted, and the indications are that the snowfall will continue to-night. At some places on the Eastern slope of the Rocky Mountains the snowfall measures from three to fluctuated between 20 and 30 degrees above zero, it is much colder in the higher altitudes. At Corona, the highest point on the New Salt Railroad, two degrees below zero was reported to-day. At Emery Gap there is a snow drift nine feet deep and traffic is practically tied up.

Come in and get one of our line of Studebakers-the kind that stands up. If you have much hauling to do a Stude-baker will pay for itself in a few months by saving you time and trouble and the expense of constant repairs.

You Know the Studebaker Wagon

For more than fifty years its reputation has grown better every year. This reputation is due to the good quality that has always been a part of the Studebaker Wagons. Each part is made from the lumber that is best fitted for that part. New England black birch makes the best hubs— the Studebaker hubs are made of it. Butt cut, second growth black hick-ory is the best for axles—Studebaker axles are made of it. Selected white oak is best for spokes and running gears—that is what is used in the Studebaker Wagon. The Studebaker Wagon

is Perfect in Every Detail

That is why we sell it. Come in and let us talk it over. We have some interesting wagon books for every one.
