at present. In line with this belief he has introduced a bill to increase their compensation to \$900 per annum.

Mr. Aiken believes that this bill will undoubtedly pass. The last annual report of the fourth assistant postmaster general recommends that this amount be paid free delivery carriers in lieu of whatever amount they may now be receiving.

"I have always thought that the free delivery carriers ought to be better paid," said Mr. Aiken to-day, discussing his bill, "and I believe the bill that I have introduced will undoubtedly pass. "In my district, the third, the carriers

are hard worked, and besides are forced to travel in all kinds of weather and to maintain also their stock and traveling equipment. These are all items of expense and in the end take out not a small amount from the fund going to the carriers. If there is any one set of men that ought to have good pay for what they do it is the free mail carriers."

Rural mail carriers are resigning from the service at the rate of 490 a month. Last month the resignations aggregated nearly 500.

Put a Bull Behind the Bars

We call especial attention to the hinge joint at each intersection of stay with main bars.

This is the essential of every good wire fence. Unless the stay has a hinge joint the fence cannot receive pressure from contact and right itself. All rigid stay fences have been unsatisfactory and disappointing, as they crush down and when once down, remain so.

Is made with a hinge joint, by which the maximum of elasticity is secured and the fence if properly stretched, remains in place indefinitely. With the hinge joint, no amount of strain on the bars can effect the connection of stay and bar, while the opposite is true of all rigid stay fences.

A Home Made Happy by Chamberlain's Cough Remedy.

Remedy.

About two months ago our baby girl had measles, which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors, but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well to-day.—Geo. W. Spence, Holly Springs, N. C. For sale by J. W. Bell, Walhalla; W. J. Lunney, Seneca.

A Hair Dressing

Nearly every one likes a fine hair dressing. Something to make the hair more manageable; to keep it from being too rough, or from splitting at the ends. Something, too, that will feed the hair at the same time, a regular hair-food. Well-fedhair will be strong, and will remain where it belongs on the head, not on the comb!
