—Special attention is directed to the new ordinances for Waihalla, published on the 7th page of this issue. It is important that the citizens inform themselves as to the town laws and abide by them. It is the intention of the City Council to have the laws rigidly enforced, and they should have the backing of every citizen. Some slight changes have been made in the laws and also in the tax levy and occupation license, made necessary by changed conditions in the town.

—A new religion is reported for this section. It is the "third blessing" outfit, by which those reaching the third degree are enabled to speak in unknown tongues. Last Friday night, it is reported, at the meeting in West Union there was a veritable babel of voices as of old. We have not attained to the third yet, and can't even speak German with our friends, but we live in hope of receiving a liberal education in modern and dead languages. From what we have heard the "third blessing" is somewhat similar to the "amplified third" in the K. of P., with a few side issues.

—On last Friday evening a most enjoyable occasion was the party given at the residence of Mr. and Mrs. C. M. Shelton, in honor of their sister, Miss Nell Duffie, of Lancaster, S. C.
