OUR MR. STECK IN BROOKLYN

HE HAS BEEN TO THE BOWERY AND CHINATOWN—THESE A REVELATION.

Brooklyn, June 18.—Keowee Courier: Jas. M. Moss and I reached New York Sunday, June 9, and have been entertaining ourselves in various ways there and here in Brooklyn since. We were both surprised and pleased to meet Dr. C. M. Walker, of Westminster, a half hour after reaching New York. The fact that Mr. Moss has been attending to business affairs in New York while I am working in Brooklyn, has divided our ways completely except after 6 o'clock in the evening. On our way here we stopped over for an hour or two in Washington. Mr. Roosevelt was looking for us, of course, and accorded us a splendid reception, which would doubtless, had we arrived on any day other than the Sabbath, have partaken more of the nature of a grand ovation. Mayor McClellan, of New York, received us in equally good form on our arrival at the "front door to everywhere."

Of all the sights I have seen so far, I think the view over New York after dark from Brooklyn Bridge is the grandest. With Brooklyn spreading out on one side and New York on the other, and thousands of boats, tugs, steamers and launches winding in and out on the river between the two cities, the whole brilliantly lighted, the effect is indeed wonderful. Twice I have taken the trouble to cross the bridge on the promenade after dark just for the view it affords.

Two things have struck me as being the opposite from what I expected to find. First, that the "colored brother" in New York and Brooklyn (or perhaps I should say Greater New York) is but slightly in evidence except in those sections where cheap dives appear to be the centre of attraction.

ON THE BOWERY

there are plenty of them, and in that section they seem to be in the height of their glory. I walked through the Bowery Monday night in company with two friends from Philadelphia, one from Brooklyn and one from Washington. The trip was a revelation to me. Those few words from the old song, once so popular in all vaudeville attractions, "They do strange things and they say strange things—on the Bowery," are peculiarly appropriate and by no means untrue to-day. I both saw strange things and heard strange things—on the Bowery. Some of the dives and dens of infamy there would do credit to hell itself. The maudlin, drunken, sickening tongs that dart from bar-room to street, from street to dive, and reel, stagger and curse and shout here, there and everywhere, are well calculated to turn any human being, not already totally depraved, from the very horror of it to something higher and better. With my friends I stepped inside of two of the Bowery bar-rooms, where we each paid for a "glass" of beer and left them standing untouched on the counter. (That, too, may seem strange, but still it is a fact.) These Bowery "glasses" are but slightly short of water buckets, and at the standard price of 5 cents each there is not much wonder at the results worked on the demoniac wretches who scarcely know any home but the Bowery bars. Yet the Bowery can scarcely be said to be the worst place in New York. A short

TRIP TO CHINATOWN

was my second chapter in the way of revelation of infamy. In Chinatown the street is scarcely wide enough for two vehicles to pass, and the walks on either side do not exceed three feet in width. The filth and stench of the place are enough to sicken and kill anybody but a Chinaman. No wonder one door leads into a bar and the next into an opium joint from one end of Chinatown to the other. I looked into a couple of these opium dens and the sight was revolting. There were men and women standing, sitting and reclining, most of them "hitting the pipe" and apparently enjoying a semi-consciousness. It is said that there are many white women held in the underground dens in Chinatown who have not seen the light of day for years. Hundreds of Chinese men, women and children throng the streets continually, and to walk through is like entering a veritable bedlam. Fights, drunken brawls, sports of all kinds go on in the streets, and beyond the necessary precaution taken by each one for self-protection, no one seems to notice any of these peculiarities of Chinatown, within whose borders the motto would seem to be, "Every man for himself and the devil take the hindmost"—and I doubt not that, aside from a few visitors, his Satanic Majesty will finally get the whole push.

Mr. Moss and myself are quite a "separate and distinct race of people" up here. In all New York we seem to be the only possessors of crushed or "slouch" hats, and these give us an air of distinction. Several days ago an old gentleman, passing Mr. Moss, turned, and looking at his hat, asked, "From the West?" "No, from South Carolina." "I knew you were not a New Yorker by the hat," was the rejoinder, "and I glory in your spunk." And the old gentleman shook hands heartily and made himself generally agreeable. My experience was on the same line, but serves to show the difference between the sound sense of age and the lack of it in youth. I was walking with a young fellow from Washington, when, without the slightest provocation on my part, or warning on his, he shot this at me: "Why don't you shake that hat?" I knew what he was driving at, but merely asked, "Anything particularly wrong with it?" "Oh, no," he said, "only everybody will think you are from the country." "I know I'm from the country, so what the—do I care if other people think I am." "Oh, if you don't care, of course it's all right," was the reply. I haven't as yet "shaken that hat," but my young friend has shaken me and doesn't take any more walks with me. And, by the way, any old thing from South Carolina "looks good to me." If you can spare time and trouble send me a few South Carolina papers, so I can read something beside slush about murders, robberies and divorce court troubles. Even an account of an old-fashion Dixie lynching would be refreshing.

I am putting in from 8 a. m. to 12 m. and from 1 p. m. to 5.30 p. m. "doing time" around the corner at the Mergenthaler plant, where there are said to be 1,400 employees hammering away on Linotype machines in various stages of construction. The Courier's machine has been shipped. I hope to get back to Walhalla about July 1st, but it may be a little later. I keep hammering away each day and learn something all the time, but haven't quite got all the wheels, space bands, matrices, levers, vice, pawls, stop gauges, etc., straightened out yet. The Model 5 is a beauty, but I have to content myself with working on an old trap that was built a short while before the inventor died. I think when he saw it the shock killed him. The last machine made was No. 11321, and this old plug that I hammer on is No. 650.

Death of Little Miss Margaret Hughes.

On the night of May the 16th, when all the earth was wrapped in sombre garments, the dark Angel of Death stole into the home of Mr. and Mrs. Wm. H. Hughes and bore away the sweet spirit of their third daughter, Margaret.

"For when the morn came dim and sad And oh! with early showers, Her sweet eyelids closed—she had Another morn than ours."

She was a tender bud, too frail and delicate for the "cold stormy blasts" of this world, so we feel that God was wise and good in transplanting her to a far more delightful clime.

She had suffered far more than a year from the "great white plague." Each day as she grew weaker her patience, always apparent, seemed to be re-doubled and was remarked upon by all who visited her.

Margaret was nearing her fifteenth birthday. Since early childhood she exhibited a spirit of devotion to her church and Sabbath school, and endeared herself especially to her teacher by her sincere interest and attention. Several months ago she made an open confession of complete trust in her Saviour and united with the Richmond Presbyterian church.

She leaves a father and mother, two sisters, four brothers, beside many cousins and other relatives who will always remember most tenderly the gentle, winning manner of little Margaret.

A Cousin.

Every Man His Own Doctor.

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must, from necessity, be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds and whooping-cough. Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains. Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles. Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by Dr. J. W. Bell, Walhalla; Wm. J. Lunney, Seneca.

Remarkable Rescue.

That truth is stranger than fiction has once more been demonstrated in the little town of Fedora, Tenn., at the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c. and \$1 a bottle at all druggists. Trial bottle free.

A Card of Thanks.

We desire to express our appreciation of the many acts of kindness shown us during the illness and death of our husband and father by our neighbors. The love, friendship and sympathy will ever be remembered by us.

Mrs. Herndon, the mother of J. N. Herndon, who but recently moved his family here from Greenville, died at her son's residence here this morning. The sympathies of the whole community are felt for the family in their bereavement.

There are several cases of fever in Seneca, but they are not as yet pronounced in character.

The members of the Baptist church have arranged a church social, which will be held at the Baptist church on Thursday afternoon, 25th instant. A program of entertainment will be given in the church, after which refreshments will be served on the lawn.

On last Thursday afternoon Mrs. H. P. Boggs was hostess to the Once-a-Week Club, using the occasion as a reception in honor of her distinguished guest, Mrs. A. H. Mowry, of Charleston. A large number of friends were invited, and notwithstanding the inclement weather, the affair was a charming success. Social intercourse was the distinguishing feature of the occasion, which will be remembered as one of the pleasantest of the season.

Yesterday afternoon Mrs. Ruskin Anderson was at home to her friends here in honor of her sister, Mrs. Lucien Dumas, of Charleston. The large gathering of Seneca women was a distinctly representative one, and that the hostess fairly exceeded herself in entertaining them was the universal verdict of the company. Mrs. Anderson was assisted by her sister, Miss Dora Dumas, and Mesdames J. T. Lawrence, J. Leland Marrett and T. E. Stribling. A delightful music program was rendered, in which Misses Marguerite Adams and Mary Earle were the efficient performers, this feature adding wonderfully to the brightness of the occasion. At a corner in the reception hall delicious cake and punch were served to the company in small numbers, thus rendering an opportunity for charming informal tete-a-tete. The honorees wore a costume of white chiffon with lace trimmings, delighting every one by her ease and charm of manner, the hostess appearing in a dainty costume of white crepe de chine. Mesdames Lawrence and Marrett presided over the punch bowl.
