SENATOR APPELT'S STICK.
Commended for Course which Resulted in Strenuous Attack.

(A. P. Aldrich, in The State.)

From the amount of "howl" that has been heard it does look like Senator Appelt's stick has hit a good many, and the camp evidently has been set afire. The advertisement to the world which Saturday's edition of The State makes of the virtue in our legislative halls is not one to make the breast of the average South Carolinian swell with pride. The spectacle of one of our Senators using the columns of his paper for placing before the people the situation, pleading for their support in the fight for betterment in the moral status of our time, and the outburst that comes from some of our lawmakers, is heartrending. Has the time come when each of us must go about like the sandwich man, with a label in front and one in the rear? Is it possible that so many of those to whom the people of South Carolina have done honor, have allowed themselves to become so entangled by circumstances that look suspicious that they must cry out for vindication before they are called into the court of the people to answer charges? If such is the case, then the hour of shame has come to our State. She who has furnished the world examples of brilliant statesmen, men born in purity, reared in moral rectitude, schooled in cultured gentility, must hide her face. It is an acknowledged fact, accepted of all men, that no one is expected to defend himself until he is attacked. In the meantime it is his duty to lend a helping hand to detect crime and bring to the bar of justice those responsible for breaches of the law. The same rule will apply to each and every situation in life, public as well as private.

The commission appointed to wind up the affairs of the dispensary is, I take it, for the purpose of collecting the honest dues to the State, paying the State's honest debts and to bring to justice those who have despoiled the State in their transactions. The Legislature is looked to to uphold the hands of the Attorney General at every stage of the proceedings. Can they stand by the Attorney General and do their duty by their clients, the liquor houses, at the same time? No; no one can serve God and mammon, and the man who is to form his opinion by what he reads in the daily papers is very apt to make up his mind that there is a great deal of rottenness in the place where the State has a right to expect a great deal of ability, integrity and virtue. Has old South Carolina to-day got all of the last named virtues that she has a right to have in her legislative halls? Only a few have answered to the swipe of the stick of Clarendon's Senator, and it is possible that some have done so through ill advice or sympathy, of a kind. Verily, the dispensary has brought with it and left with us its full quota of sin and shame.

Clarendon has no reason to be ashamed of her Senator. My respects to him. His example might be considered seriously before it is eschewed.

Stop that tickling cough! Doctor Shoop's Cough Cure will surely stop it, and with perfect safety. It is so thoroughly harmless that Dr. Shoop tells mothers to use nothing else, even with very young babies. The wholesome green leaves and tender stems of a lung healing mountainous herb furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other. Sold by J. W. Bell.

DARK CORNER DESPERADOES.
Killed Constable's Cow and Smashed Buggy to Pieces.

(Greenville News, 14th.)

"Moonshiners," some of whom are yet to be found in the Dark Corner section of Greenville county, have a peculiar idea of what constitutes revenge. When an injury, or at least what they term an injury, is done them by the officers of the law they at once set about trying to secure some retaliation.

On last Saturday night Wade Plumley, who is a constable for his brother, Magistrate J. D. Plumley, was a member of a party which made a raid on the Dark Corner section and cut up several stills. The men whose stills were raided chanced to know that Plumley was a member of the party, and at once determined that

some revenge must be visited on the offending officer of the law, and they set about to visit that revenge upon him. A consultation was probably held among them, and the following night was set as the time for securing that revenge.

Monday morning when Mr. Plumley went to his lot he found his fine cow lying in a pool of blood. He made an examination of her and found that her throat had been cut. He then went on to his barn and found that his buggy had been torn to splinters, and he realized that he had been visited by the moonshiners. On further examination he discovered that the clan of men had done other acts of depredation.

Of course there is no way to ascertain who did the work. Their names will probably never be known. Acts similar to this have been committed by the lawless element in this section of the county many times, but not once have the perpetrators been caught and punished for it. The work is done in the still hours of the night, and as there is no police protection in that section of the country the men have no trouble in keeping their identity hid.

THE BATTERY PARK HOTEL.
It is Now in Hands of J. L. Alexander, Formerly of Oconee.

(From the Asheville Citizen.)
The lease of the Battery Park Hotel, Asheville's famous and historic hostelry, was sold recently by D. C. Waddell, Jr., to J. L. Alexander, Hugh LaBarbe and J. M. Chiles. Mr. Alexander, the present lessee of the Tokaway Inn, will be the proprietor of, and will personally operate, the Battery Park.
The new proprietor, Mr. Alexander, is no stranger in this section, and he has the reputation of being one of the best hotel men in the South. He is popular to a high degree, in this respect being fully as fortunate as the late E. P. McKisick and the retiring lessee. He was steward of the Battery Park when it was operated by Mr. McKisick, and for five years under Mr. Waddell's management, retiring from that position to assume charge of the White Sulphur Springs Hotel at Waynesville. He became proprietor of the Tokaway Inn last year and gave that hostelry the best administration it has ever known.
The Battery Park has entertained every President of the United States elected since it was built, as well as many other men of national prominence.

(J. L. Alexander is a son of Jordan Alexander, of Oconee county, and is well and favorably known by many of our people, who will be glad to know of his success in the field he has chosen. His administration of affairs at White Sulphur Springs and Lake Tokaway made for him hosts of warm friends among the thousands of guests entertained by him there, and we doubt not that his connection with the Battery Park will result in an equal show of favor and patronage.—Eds. Courier.)

MURDERER FROZEN TO DEATH.

Hagerstown, Md., Feb. 13.—The distorted body of Thomas McPherson, wanted for the murder of his sister, Mrs. Jane Bowen, was found in the woods near Myeraville this morning. The man had been frozen to death while attempting to make his escape through the lonely woods. His hands were covered with blood, which he had not taken time to wash off, although he carried a wash basin and towel away with him.

WOMEN WHO WEAR WELL.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the changes which come with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.
For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine, nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

THERE IS MONEY TO BURN.

Greenville Bankers Burn \$148,000 Worth of "Fancie Money."

(Greenville News, 13th.)

Having served the purpose for which they were issued, and the condition of the local banks being such that they are no longer needed, \$148,000 worth of clearing house certificates were yesterday afternoon burned to ashes in this city. The burning took place in the boiler room of the Huguenot Cotton Mills, the paper which had once passed as money being tossed into the two big furnaces by Frank Hammond, president of the People's Bank, and H. P. McGee, president of the City National Bank, both of whom are members of the executive committee of the Greenville Clearing House Association.
At a recent meeting of the association it was decided to destroy all of the certificates on hand. They were carefully counted, and it was found that out of \$75,800 worth issued there was on hand about \$73,500 worth. These, with the \$75,000 worth that were not issued, made a total of \$148,500, and the executive committee was authorized to burn the whole amount at once.

There was no ceremony connected with the passing of the certificates. The paper was packed into two boxes and taken to the boiler room of the mill, and there, in the presence of two witnesses, they were thrown into the fiery furnace by Hammond and McGee, a package at a time. Each package contained from \$20 to \$100 and it took several minutes to burn them all up. When the box containing the unissued certificates was reached, twelve certificates of each denomination were taken out to be distributed among the banks of the city. These certificates will be kept as a souvenir of the panic of 1907.

There are something over \$1,000 worth of certificates still in circulation, and it may be many months, if not years, before the entire issue is destroyed. Many people are keeping them for souvenirs, and it is possible that the entire issue will never be entirely destroyed. As fast as the paper is collected, however, it will be destroyed.

70,000 Liens in 29 Counties.

(Columbia State.)
Senator Graydon reports 70,000 liens in 29 counties! He estimates 100,000 liens in South Carolina. In other words, after three years of prosperity, more people than ever are mortgaging their labor for a year in advance to scratch the ground. Does Senator Graydon, or any other Senator, believe that any man worthy of credit cannot get it? The very merchants now worrying about the condition of the poor white man after the repeal, will give all deserving ones credit.

"Health Coffee" is really the closest coffee imitation ever yet produced. It's the finest coffee substitute ever made, has recently been produced by Dr. Shoop, of Racine, Wis. Not a grain of real coffee in it either. Health Coffee is made from pure roasted cereals, with malt, nuts, etc. Really it would fool an expert—who might drink it for coffee. No twenty or thirty minutes' boiling. "Made in a minute," says the doctor.

John F. Bemann died at the residence of his daughter, Mrs. Catharine Cherson, Walhalla, on February 8th, 1907, at the age of eighty years and twenty days.

We miss thee from our home, dear father and grandfather
We miss thee from thy place;
A shadow o'er our life is cast—
We miss the sunshine of thy face;
We miss thy kind and willing hand,
Thy fond and earnest care;
Our home is dark without thee—
We miss thee everywhere.

The vacant place, the empty chair—
We see them; day by day;
And oh, it fills our hearts with care
Since our loved one went away.

WANTS TO BE COUNTY SEAT.

Williamston to Try Again for the Formation of New County.

(Greenville News, 13th.)

It is stated on good authority that within the next few weeks a movement will be inaugurated to form a new county out of portions of Anderson and Greenville counties, the court house to be located at Williamston. This movement will, of course, be launched at Williamston, for if the movement should prove successful that place would prove to be the gainer.

Williamston has long had an ambition to be a county seat, and as far back as 1845 years ago made an effort toward that end. Then, however, it did not prove successful, for when the election was held the new county proposition was voted down by an overwhelming majority. Since that time no effort has been made to have an election ordered, but the citizens of the live little town have

been working quietly trying to resurrect the sentiment in favor of the new county.

They evidently think that they have succeeded in arousing that sentiment, for it is understood that in a short time petitions asking for an election will be put in circulation. After the required number of signers have been secured the petition will be forwarded to the Governor, who will then order the election. It is a long, hard road to travel, but the citizens of Williamston are going to try to get over it.

A weak stomach means weak stomach nerves, always. And this is also true of the heart and kidneys. It's a pity that sick ones continue to drug the stomach or stimulate the heart and kidneys. The weak nerves—not the organs themselves—need this help. This explains why Dr. Shoop's Restorative has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see.
