Last week Clemson College passed a crisis and its future is assured. This is the opinion of the faculty and the trustees, and quite naturally they are discussing the fatal April fool joke which brought the question of authority squarely to a head. The details of this trouble are familiar to the public and are hardly worth repeating. As President Mell expressed it, the position was that the students, many of them absolutely unfamiliar with discipline, must be made to obey orders. The committee in charge settled that, although this question of discipline Last week Clemson College passed though this question of discipline had the president in similar trouble in 1901, now that the affair is settled the discipline committee is receiving applications from many of the dismissed students, nearly all, in fact, requesting reinstatement. In about 100 cases, after very careful investigation, reinstatement next year has been ordered. This is no backward step on the part of the governing board. There are among those dismissed a large number that have been given to undrstand that they cannot return. Others have shown themselves sincere, penitent, and af-ter individual investigation have been readmitted.

The lesson has been a wholesome one, according to the authorities. President Mell has received letters, one from a college in Kentucky, one from North Carolina, and two from Georgia, stating that the dismissal of these students effectually stopped trouble in other institutions. It definitely fixed the authority of the fac-ulty and no further outbreak need be expected for years.

Another Important Matter.

There is another important step taken by President Mell, the careful investigation of applicants who ente the preparatory department. Dr. Mell shows that in any case where there is a good high school the applicant should be told to enter; that the preparatory department does no laboratory work and the lessons are similar to those in a high school. Therefore, unless there is no high school in his district the applicant is Cure." Sold by all druggists. not accepted until he is ready to enter the freshman class. This may reduce attendance somewhat, but very

There are already considerably over 100 written applications for examination in July, and many more expected because of the rule as applied to the preparatory department. The enrollment may be reduced, but the standard of the college will be raised.

## Let "Dixie" Alone.

Women of the Confederate Choir of America have fitted new words to "Dixie," beginning:

# BICYCLE COMING BACK.

A Greater Sale of them this Season in the Small Towns.

(News and Courier.)

According to those who sell them, bicycles are coming in again. The sales of this season thus far have been far greater than those of last year at this time, and those in turn greater than in 1966. The figures do not come anywhere near the enormous totals of the late '90s, when the bicycle was king and if you didn't

ride it you weren't any one. Now, however, the reaction is be nig felt. For a few seasons after the blcycle boom flattened out like a punctured tire there wasn't any more interest in the bicycle than there is in a cent in a busted savings bank. The stalwart few stuck to the game.

In the cities the new boom isn't felt so much as in the towns. argument made there which sells bicycles is the appeal to the saving instincts. The bicycle knocks out car fares and still furnishes a lot of fun for those who can't afford a motor-cycle, much less an automobile.

Bad Health for Several Months. Good Man with Many Friends.

(Anderson Intelligencer, 12th.) P. B. Langston, until recently circulation manager of The Intelligencer, died Wednesday morning at the State Hospital for the Insane in Columbia. He had been in bad health for several months, and a few weeks ago it was decided to take him to the Columbia hospital for treatment. Mr. Langston was about 50 years of age He graduated from Wofford College in the same class with Judge Geo. E. Prince. After his graduation he taught school for a while and later located at Pelzer. About twelve years ago he moved to Spartanburg and the moved to Anderson and then moved to Anderson.

Mr. Langston was twice married.

His first wife was a Miss McElroy, of Oconee county. Of this marriage there are four children, Mrs. J. E. Carter of Greenville, Larry Langston of San Antonio, Texas, Miss Lallah Langston of Spartanburg, and Master Bonner Langston of this city. His second wife was Miss Palmyra Ramsey, of Williamston, and she, with one child, survives him. He is survived by a half-brother, Yancey C. Langston, of Seneca.

THOUSAND MILES OF BOYS.

Message from New York to Chicago Will Be Carried Afoot.

(The Outlook.).

Next July a message is to be carried afoot from the mayor of New York to the Mayor of Chicago. The carriers will be 700 boys between fifteen and seventeen years old. For a week, or so, during the night, as well as the day, some lad will be speeding cross the country at the rate of a mile run. The arst will star from the city hall in New York and run northward. At the end of a mile a second will be awaiting him, and on his arrival will seize the message and carry it to the next mile post. There is probably but one organization that could select these carriers solely from its own membership along the route, and, by representatives already on the line of the race, arrange for all details and guard the race as it oc-curs. That organization is the Young Men's Christian Association. Each city association along the line will have charge of a certain section. The New York association, for example, will have charge of the route which extends through the city until it touches the territory assigned to Yonkers. The stretch over which Buffalo has jurisdiction is the longest in charge of any one association Inasmich as the Young Men's Christian Association has about 100,000 boys under the care of physical direc-tors the material for such a relay run is ample. The boys selected for this event will be under special training. No boy will have any other com-petitor than time, or receive any prize other than honor of wearing his association's colors. A generation ago no religious organization could have attempted anything of the sort. What the Young Men's Christian Association has accomplished in uniting the Hebrew and Greek ideal in religion, interpreting Christianity as a force for the welfare of the whole man, body as well as mind and spirit is dramatically embodied in this fac-turesque undertaking.

Of Interest to Democrats .

The National Democratic Congressional Campaign Committee has be-gun active operations at its headquarters at Washington. In addition to its regular work it is now preparing a sampaign hand book which it hopes to have ready for distribution by July 1st—two or the emonths earlier than heretofore.

The committee is charged with the duty of assisting, in every way possible, the election of a Democratic Congress. We wish the active co-operation of every voter in the United States who believes, with us, that the election of a Democratic Congress. election of a Democratic Congress would greatly benefit the country. We must rely upon the people to sustain our work by giving information as to local conditions and suggestions for our guidance.

Each individual can at least aid us by making a contribution. Will he not do so, and inferest others in helping us, too?

We wish our campaign hand book distributed as generally as possible, and we will furnish a copy, as soon as published, to every one who contributes to our committee. Send remittances to me at Washington, D. C. James T. Lloyd, Chairman.

Doctors are Puzzled over Corpse

Atlanta, June 4.—The curious and unnatural conditions which now exist in the body of Noah H. Car-penter, who died at Biltmore, N. C., over two weeks ago, are exciting much interest and comment among the most prominent physicians of Atlanta, Ga. On account of her own and Mr. Carpenter,s strong faith in Christian Science, the widow of the deceased has never allowed the man to be buried, contending that her husband is not dead. Mr. Carpenter's body was brought to Atlanta for burial about a week after his death, but upon reaching their home, Mrs. Carpenter refused to allow him to be buried, and had him placed in a vault where, it is said, she visits him daily.

Recently the faithful wife discovered that color was returning to her husband's cheeks and she immediatehusband's cheeks and she immediately sammoned a doctor. Upon beholding the color and the fullness that had come to the dead man's face, the doctor called other members of his profession to the vault, and all pronounced it the most unnatural case that it y have ever witnessed; especially since the man has been embalmed. The discovery of the returning color to his counteof the returning color to his counte nance was made several days ago. The doctors are marveling at the mystery, and are watching and studying the case with great interest.

Columbia, June 10 .- After being out all night the jury in the Sellers case reported to the Court this mornand a mistrial was ordered. It is reported, though not on any official authority, that the jury stood four for manslaughter and eight for ac-

It was generally recognized that while Sellers has the reputation of being a violator of the law the State had a weak case, on account of the fact that the constable who was killed had no right to search the house where Sellers lived under the warrant which he held. The fact that Constable Farmer had previously had trouble with Sellers and that he advanced into the house with a pistol in position to fire were also bad for the prosecution. Outside of the Court House the opinion seems to be that the responsibility for the death of Farmer rests largely upon the authorities who permitted or ordered him to break into the house and search it, after it being known that there was bad blood between Farmer and Sellers.

After the verdict was announced

Sellers's attorneys applied for ball and this was granted by Judge Gary in the sum of \$5,000.
