President Harris Advocates Decrease in the Cotton Acreage.

B. Harris, president of the State Farmers' Union, has issued the following address to the cotton growers of South Carolina:

We now hear of some farmers the buyers entered the field offering ing 12 cents for it. Why does the and the just. farmer do this? It is because he does not think and use good business that this is a game of the speculators to defeat the objects of the Farmers' Union. The farmers should realize that cotton will be worth more in October and November than he is paying for it now.

"With the bright outlook for cotton the coming season to go very much higher, why should any farmer act with such little judgment? day last on boll weevil report? One of Price's tricks to catch the suckers. wanted to catch them with. Any to greater heights. one with common sense ought to know that when the weather gets hot and dry enough to kill the boll weevil that it will kill cotton also. Telegraph reports on the 17th of July state that the drought-stricken ing a family of seven children. section of 5,000,000 acres in Texas has had practically no relief, and conditions are serious. Rain must Judge Hudson's autobiography. come in the next few days or it will does not realize that this crop is getting such a backward start. Its powers of recuperation from this time on are very limited and we are practically up to the period where the dry, hot weather of July and August will set in and find the tiny, sappy, dwarfish plant is in no condition to stand the trials of the heat.

A Two-Edge ! Factor.

"Brother farmers, just remember if it rains in the drought-stricken districts in Texas to revive the cotton plant the boll weevil will revive in proportion to the cotton, and if the all the duties of the office she perheated term still stays to 194 and up formed industriously and well. But to 108 degrees of heat, cotton and boll weevil will suffer alike.

Brother farmers, no need to be alarmed. You have the best position in this fight. The man who has sold his cotton for October and November delivery will ever regret his and relief in Foley's Honey and Tar,

"Now let's see why he is able to sell for October and November delivery.

the organization of the Farmers' Educational and Co-operative Union of America. This of itself should Stonecypher Pharmacy, Westminstimulate every farmer to join this great and grand organization. What is the reason the Farmers' Union has not achieved to its fullest extent its the great ignorance of the farmers den of speculation. I am proud to say that the farmers are beginning to learn some valuable lessons through the teachings of the Farmers' Educational and Co-operative Union of America. Its power is being felt not only in this country alone, but all over the world.

"I would to God the farmer could world sees it for him. I am proud rolled away through this great organization, and sunshine and brightness is beginning to peep through. The farmer is beginning to see that help must come through his own per- them until the price gets right. If sonal efforts, and that there is help for him through organization, co-operation and diversification of crops. your meal before letting them go. This is the greatest lesson for him to learn, and when this is learned success is his.

A Good Move.

ers did cut acreage this year 1,500,-000 acres, and planted an increase of food crops. I want to tell you, brother farmers, this cutting of acreage is helping to make the price of cot- your cotton land about the 15th of ton to-day more than it is getting credit for.

"Why will cotton producers raise 13,000,000 bales of cotton when one and a half bushels of oats with they know they can get as much 35 pounds of hairy vetch per acre, money for 10,000,000 bales as they can for 13,000,000? It seems to me ply of nice hay which will be ready that no sane person would do such to cut about June 1. If you have business as this. If a manufacturer, never tried the above begin by tryby stopping one-third of his looms, ing a few acres this year, and you could make as much money as by running the whole he would stop many acres in the future. Just rethat one-third at once.

"Brother farmers, I do not want note of the situation. you to forget that you have a valuable crop in your cotton seed, and

JUDGE HUDSON PASSED AWAY.

Died at the Home of His Daughter m Greenville.

Greenville, July 22.- Joshua Hilary Hudson, 77 years of age-statesman, soldier, jurist and citizen, of whom all South Carolina was proud -died this afternoon at the home selling their cotton for future deliv- of his daughter, Mrs. W. A. Williams, ery in October or November. At first after an illness lasting for several weeks. None was prepared for the 10 cents. They bought what they sudden ending of the life of the discould at that price, then they offered tinguished jurist, whose name has for 10 1/2, and bought what they could two decades or more been a synoup to the present, and are now offer. nym for all that stood for the right

Besides Mrs. Willams, the daughter at whose home he died, he leaves judgment. He should realize at once three other daughters, Mrs. A. A. Bristow, of this city; Mrs. J. L. Jordan and Mrs. W. R. Crosland, of Bennettsville. The body will be at once that the speculator knows taken to Bennettsville to-morrow afternoon at 12.30 o'clock and the interment will be made there.

Joshua Hilary Hudson, soldier and jurist, was born in Chester January 29, 1832. He was one of seven children-Sarah, John, Eliza, Maria, Joshua, Rush and Cornelia---the fam-Why did cotton take a tumble on Fri- lily of a poor man. Almost from his infancy his life was one of struggle against an unfavorable environment. CLEMSON TREASURER'S REPORT.

271 During Year Ending June 30.

Clemson College special: The

finance committee of the board of

trustees has finished its inspection

of the books of the treasurer for the

year ending June 30. Below are a

few interesting facts and figures from

the treasurer's report for the year:

The income from the fertilizer in-

spection tag tax was \$177,271. Of

this amount the trustees expended by

order of the General Assembly \$64,-

inspection, \$1,415.72; for veterinary

inspection, \$2,177.11; for Texas

fever tick eradication, \$6,583.98; for

coast experiment station, \$15,953.69;

for farmers' institutes, \$516.26; for

165 beneficiary scholarships, \$15,-

These expenditures leave a bal-

ance credited to the college of \$112,-

881.95, to which must be added the

income from the productive funds.

such as the Clemson bequest, tuition,

rents, farm herd and dairy, etc.,

amounting to \$9,702.81, and the in-

come from the Federal government,

\$23,254. These amounts, with a

The Fall of a Man.

(Greenville News.)

man of Anderson is nothing short of

distressing. Poor fellow, he didn't

intend to misappropriate the funds,

but he commenced gambling on the

cotton market, with the result that

is an old stery. He was most high-

tation for integrity and honest deal-

ing that was spotless. His fall is

a tragedy. He has brought ruin to

himself, disgrace to his family and

distress to his friends. His act has

jarred business circles and mocked

integrity. We are sorry; but being

sorry doesn't help. He has sinned

against God and man and has

brought sorrow and suffering to his

family and friends. Although it

pains us to say it, he should be made

to suffer for his misdoing.

Fertilizer Tag Tax Brought in \$177,-In Georgia it is Saving them Thousands of Dollars.

UNION DOING FARMERS GOOD.

That the Georgia division of the Farmers' Union is doing business is attested by the following article taken from the Atlanta Georgian:

Since July 1 a carload a day of first class all-wheat flour has rolled smile, or a word of encouragement to into Georgia, to be sold direct to farmers over the State at a price of \$1.50 per barrel below prices now quoted in the open market.

This movement was inaugurated 389.79 as follows: For inspection of and put under way by the Georgia fertilizers and mailing fertilizer bul- division of the Farmers' Union, and letins, \$13,638.59; for analysis of so effectively that only a suspicion of fertilizers, minerals, ores, waters, it has leaked into trade marts over etc., \$8,997.65; for entomological the State. Yet for sixteen days, including Friday, a car a day of fine flour has come into Georgia, to be distributed to members of the Farmers' Union anywhere within the cheaper than the open market quotation, which is \$7.25 per barrel.

Under this same contract Alabama is getting half a car a day, and it is said that this movement of flour will continue until grain in the farmers' hands brings prices and profits which are now passing into the hands of speculators like Patten.

The inside history of this move of the Farmers' Union will probably balance of \$19,775.16, make a total never be known to the outside world, of \$165,613.92 for the use of the col- but it is known that representatives of the organization in this State went into the Western grain fields and made contracts direct with grain growers, then with the milling peo-

Through this method, various mid dlemen were cut out. The grain goes direct from the growers to the millers, is milled into flour, then shipped direct to Georgia.

The unstable condition of the flour market at this time has done much to insure the complete success of this movement. It is said that dealers here and elsewhere in the State are running with comparatively low stocks, because the market is uncerheat, light and water, construction | tain.

Mills are chary of quoting prices, inasmuch as the great grain center and treasurer's offices, trustees' ex- Chicago-has a wild market now and ton Cox, president; Miss Ella Wilthe speculators rule with an iron hand.

It is said that the Farmers' Union has so arranged matters that this car a day movement can continue for weeks, which means that the farmers and consumers of the State will be saved many thousands of dollars. As a result of this direct entry of the union into the market, it is claimed that grain growers are getting 14 cents more per bushel for wheat now.

It is one of the most important moves ever put forward by the Farmers' Union, and indicates that the organization is thoroughly alive to the interests of its membership.

It is significant that this flour movement began close on the heels of a trip made to Indiana by J. B. Lee, State president of the union. When questioned about it, he only smiled.

But it was a significant smile!

Monkey Killed Self by Grief.

Chicago dispatch: Grief over the death of Dr. Monroe S. Leech, two weeks ago, caused the suicide of the physician's pet monkey, which refused to touch food after its master died. It succumbed last week.

When Dr. Leech was taken ill the monkey took up its post at the sick bed and refused to leave. On the day the physician died it is declared by members of the family that the animal whimpered like a child. At the funeral it was permitted to look for the last time on the face of its dead master. With shrill, almost human cries, it clung to the casket THE SUNSHINE WORK.

NOAH'S

LINIMENT

Rays of Sunshine are Being Scattered All Over Oconee,

How many of us fail to give because we have not the "Silver and Gold?" "God does not ask us to give what we do not have." Surely, we all can give a pleasant word, a the down-hearted, or to one who needs it loving sympathy. Sometimes we think we have so little to give that it's not worth "passing on." Any Sunshiner is well repaid when he sees the happy smile that transforms the face when a little gift is made in the name of Sunshine. The receiver knows it's not charity, but loving kindness.

Issaquena and Poplar sent a basket of sunshine to a widow and two little fatherless children. Surely it is more blessed to give than to rebounds of the State at a price \$1.50 ceive, for it did make us rejoice to think we had carried one ray of sunshine into that darkened home.

Bounty Land and Issaquena gave an old veteran and his paralyzed wife a basket of sunshine.

Issaquena and Oceola gave a blind man with a wife and two children a basket running over with sunshine. To each society I gave an invalid

to be looked after and kept in good reading matter. The societies in the county are as

Tennessee County Clerk Missing. Believed to Be \$20,000 Short.

Johnson City, Tenn., July 26 .-The police in every city in the South, in addition to a number of detectives, are searching for Foy W. Dulaney, the missing Circuit Court Clerk of Washington county, Tennessee, who suddenly disappeared from his home here nearly three weeks ago. Warrants have been issued for his arrest on a charge of embezzlement. It is believed that he is nearly \$20,000 short as clerk. He left other indebtedness of probably \$20,000.

It is a singular coincidence that Dulaney's stenographer, a pretty black-haired girl, left Johnson City the day before he was missing, and has not been heard from since. Dulanev left a note saving he was going away to try his fortune elsewhere, and if left alone would, if possible, pay back his shortage.

Dulaney has a wife and one child here. He is believed to have gone to South America.

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels so that they have been regular ever since." A. E. Davis, Grocer, Sulphur Springs,
