CAR DEMOLISHED; TWO KILLED.

Train Smashes Into Tourist Auto Near, Macon, Ga.

Macon, June 27.—An extra freight train on the Macon and Athens division of the Central Railway struck a tourist car belonging to A. C. Freeman, of Arcadia, Fla., at Kelley's Crossing, 48 miles north of Macon, this afternoon, at 2 o'clock, killing Mrs. Freeman and her son, A. C. Freeman, Jr., aged 7, and badly injured A. C. Freeman, L. L. Camp and Dr. J. L. Roby.

All the occupants of the automobile were touring from Arcadia, except Dr. Roby, who is a resident of Monticello. He is an elderly man and sustained a broken arm and severe internal injuries.

A. C. Freeman sustained bad bruises about the head. Camp had a broken arm and internal injuries. Engineer Dunbar, of Macon, was in charge of the extra freight and was 40 feet away when he discovered the car on the crossing.

He had just rounded a sharp curve and the view of the car was obstructed by an embankment. The blast of the whistle and the emergency brakes did little good.

Mrs. Freeman was 32 years of age. The family is prominent and had gone out from their home in Florida for a tour of several days. They were with relatives in Monticello, and had just gone out this afternoon for a ride, taking Dr. Roby.

All three of the injured persons are critically hurt and more fatalities are expected. An immediate investigation into the cause of the accident was made from the office of Superintendent Pollard here.

Among the pleasant events scheduled for the entertainment of the visiting teachers was the reception by the town of Westminster at Wistaria Park last Friday evening from 8.30 to 10.30 p. m. The management had provided excellent lights, and when the teachers and their friends assembled the spectacle presented was truly a "thing of beauty."

The first thing on the program was an address by Rev. F. G. Lavender, who spoke in a very interesting manner of the power of education and with that the spirit of hospitality.

Mayor K. W. Maret then introduced Hon. Julius E. Boggs, who expressed his appreciation of the audience he was to address, and then said his subject would be "The Spirituality of Work." He discussed the subject in his usual interesting and characteristic manner.

After the speaking one could look around and almost imagine that he was really in the "garden of the gods," for everywhere were waiters serving delicious refreshments, which were all that was needed to complete the scene. After this was general conversation, in which all agreed that the reception had been a repetition of the zordial welcome extended when school opened on Monday.

ON FIRE WITH 1,500 ABOARD.

Prompt Action on the Part of the Captain Saves Lives.

La Cross, Wis., June 25.—With fifteen hundred excursionists on board the Acme Packet Company's big steamer, J. S., caught fire on the Mississippi river between Genoa and Victoria to-night, and although the steamer was burned to the water's edge, prompt action of Capt. Streakfus in beaching the boat when the first alarm was sounded saved every person on board.

Only one woman was injured in the mad rush from the boat to the island on which the boat was beached. The steamer brought 1,000 people from Lansing, Iowa, and 500 from Intermediate points to La Cross to-day, leaving here on the return trip at 6 o'clock to-night. The boat caught fire when two miles above Victoria, Wis., just opposite Bad Axe Bend, the blaze breaking out in the lower works close to the boiler room. Putting on full speed, Capt. Streakfus headed the boat direct for Bad Axe Island in mid-river. Before the general alarm was sounded the vessel had grounded on the sand and it was but a few minutes' work to get the people off the boat.

A few minutes after the steamer had been cleared of passengers and crew it was burned to the water's edge. The excursionists were stranded on an island 500 feet long and 300 feet wide. A few launches and row boats from Victoria and nearby hamlets made slow headway in getting the people to the mainland.

Passengers rescued from the burning boat declare they saw several women throw their children in the Mississippi river before the boat could be beached and jump in after them. Being in midstream at the time, it is believed the women and children were drowned. Their number is not known.

Three Injured at Columbia.

Columbia, June 25.—Three persons were injured in a collision between a Southern Railway switch engine and a light passenger engine near the "tin bridge," over Gervais street, at an early hour to-day, the escape from death being miraculous. The injured are: Engineer J. W. Glenn, Fireman C. D. Joye, and Fireman E. Prater, colored.

The engine was detached from a train at the union station and was running light, around the city to the southern shops. The switch engine, with several cars, left the Blanding street yards, going to the union station. The two met head on a hundred or two yards south of the "tin bridge."

Engineer Glenn was buried beneath a pile of coal and was painfully bruised, but no bones were broken. Fireman Joye received a small scalp wound and possibly a broken rib. Prater jumped and was considerably bruised, but was not otherwise injured.

The collision was caused, it is stated, by the failure of the engineer of the switch engine to secure the necessary written permission to enter the block, which includes the track from the Blanding street yards to the union station.

Damaging Floods Sweep Kentucky.

Whitesburg, Ky., June 28.—Reports of how rivers and creeks in Eastern Kentucky, near here, rose suddenly Monday night and drove scores of persons from their homes without even time to dress reached here to-day.

The middle fork of Beaver creek appears to have been the scene of the worst rise, due to a rain of almost cloudburst proportions. Telephone lines to that section are down, and couriers on horseback are bringing in the news.

No loss of life has been reported thus far, but several farmers, with their families, are reported to have fled for miles, often in their night clothing, while in the darkness the creeks about them could be plainly heard turning into roaring torrents.

Fences, storehouses containing goods of all sorts, were swept along by the rises in some places, and their contents scattered about like driftwood. Corn, wheat and rye fields are reported to have been swept bare. Considerable live stock was caught and drowned.

The floods affected a considerable portion of Eastern Kentucky and part of West Virginia. The Big Sandy river is said to have risen at the rate of several feet an hour for a time Monday night.

Savings Banks in Three Months.

Washington, June 27.—Postal savings banks will be in actual operation in this country within three months if plans made by Postmaster General Hitchcock do not miscarry. In accordance with the law enacted by Congress, the board of trustees of the savings system consisting of Postmaster General Hitchcock, Secretary of the Treasury MacVeagh and Attorney General Wickersham, will meet at the post office department tomorrow to consider the provisions of the law, and the best method of putting it in effect. The postmaster general said to-day it was his intention to press the establishment of the postal savings system earnestly, and to get it into operation at the earliest practicable date.

Misses Pauline and Christine Anderson have returned to the home of their aunt, Mrs. S. N. Hughs, after a successful year in the Central School of Greenville.

Miss Lynn Verner entertained a few of her friends Saturday night. Although there were but a few present they had a delightful time. The hit of the evening was a solo by Master John Verner, "What She Wrote on My Slate." The guest of honor was Miss Annie McMahan. Those present were: Misses Annie McMahan, Maria Dundy, Freda Hughs, Lynn and Pearl Verner and Messrs. Monroe and Marcus McDonald, Henry Hughs, Bird Wyly, Stiles and Bruce Strubling, Dean Davis and Charlie and Edward Verner.

Henry Hughs, Marcus McDonald and Dean Davis went to Seneca and played ball with them against Walhalla last week. The game was lost before they reached the diamond, as Walhalla had three scores marked up in the first inning. Marcus McDonald's batting was the feature of the game. He got four hits out of five times at bat, one of them being a home-run, with two men on bases.

Rev. A. E. Driggers, of Walhalla, spent Saturday with J. J. Ballenger.

Miss Pearl Ballenger is spending a few days in Greenville.

Representatives of Davidson and Clinton colleges canvassed our community during the early part of the past week.

Fred. Coe, who has been working in the office of the superintendent of the railroad, is visiting his mother, Mrs. S. H. Coe.

Born, unto Mr. and Mrs. Jap Driver, Friday morning, a daughter.

We noticed that Westminster had three weddings at one time some time ago and recently Anderson had three at once, but we think Richland leads, for over fifteen ladies of Richland had proposals the same day.

Senator McEnery Dies Suddenly.

New Orleans, June 28.—United States Senator Samuel Douglas McEnery died at his home here this morning shortly before 10 o'clock.

Senator McEnery arrived from Washington yesterday morning suffering from an attack of indigestion. He was placed in a carriage at the railroad station and taken to his home on St. Mary street, where physicians were hastily summoned. The Senator rallied somewhat after being treated, and showed marked improvement yesterday afternoon. Late last night his condition took a turn for the worse, and early this morning he lapsed into unconsciousness, dying shortly thereafter.

Senator McEnery was in the seventy-fourth year of his age, and his health had not been good for several years.

Judge Gruber Refuses New Trial.

Union, June 25.—W. T. Jones has been refused a new trial. Special Judge W. B. Gruber, presiding in the Circuit Court for Union county, this afternoon handed down his decision in the case, wherein the defendant, convicted of the murder of his wife, Marion Jones, is denied the right to again present his defense to a jury of his peers.

The motion for new trial was based on the ground of misconduct of some of the jurors who tried the case, and on the additional ground of after-discovered evidence. The judge overruled the motion on both grounds. The defendant's attorneys at once gave verbal notice of an appeal to the Supreme Court.

Glass Strike Situation.

Columbia, June 25.—The only developments in the glass company strike are two cards published this afternoon. In one the Flint Glass Union gives its side, claiming that these glass workers are all right and will do all they can to help out the manufacturers. The other is from the glass workers' apprentices, who state that they could not work with "non-union" men.

STREET MURDER AND ROBBERY.

Bandits Carry Off \$5,000 and Throw City into Chaos.

Lynn, Mass., June 25.—Three bandits armed with automatic magazine revolvers to-day shot and instantly killed Thos. A. Landregan, a shoe manufacturer, fatally wounded Police Officer J. H. Carroll and ran away with a bag containing \$5,000, which the manufacturer and policeman were taking from a bank to the shoe factory of Welch & Landregan for the weekly payroll. Police Officer Carroll died shortly afterward.

The robbery was committed on a busy thoroughfare in the heart of the shoe manufacturing district. Hardly had the noise of the revolver shots and the powder smoke cleared away before the bandits were fleeing from an unorganized posse of ten thousand persons. An hour later one of the bandits was dead from a self-inflicted wound, a second was in the hospital with five bullet wounds, while the third was under arrest. Abraham Lyon, who was wandering through the woods, was shot in the thigh by one of the robbers who mistook him for a pursuer.

All but \$7 of the money that was stolen by the robbers was recovered.

The bandits were Russian Poles, their ages ranging from 20 to 25 years.

It is suspected that at least one of them was identified with the Jamaica Plain outlaws, who committed two murders and terrorized that suburb of Boston in July, 1908.

DEFINITION OF NEAR-BEER.

A North Carolina Judge Who Knows What It Really Is.

(Gastonia Gazette.)

In introducing Attorney General Thomas W. Bickett to the commencement audience at Dallas last week A. L. Bulwinkle made reference to Mr. Bickett's now famous description of that article so much talked of in prohibition territory, near-beer. Gazette readers who have not read it will be interested in it, so we reprint it below:

"What is near-beer?" he asked. "The testimony in the case shows that it is a beverage that finds ready sale as a substitute for real beer. Our blubious constituents cry for it as children cry for castoria. It is made by the people that make beer, and drunk by the people that drink beer. It looks like beer, smells like beer, tastes like beer. It is served by the same white aproned, many chimed friend who was wont to comfort us in other days. It is shoved across the old oaken counter and the mirrored back bar, while the picture of Aphrodite springing from the foam makes the illusion complete. And sometimes in the gloaming the alchemy of a shadow projected from a policeman's expansive back and falling athwart the bar, works a transformation and suddenly, even as the thirsty one lifts the cup to his lips, near-beer becomes the real thing.

"And yet this curley is asked to relegate this juicy beverage, this selen of centuries of vats to the insipid level of soda water. Perish the thought! It proclaims itself in North Carolina as sole heir and successor to the gaudy fluid. It boasts of its bubbles and sparkle and snap. It says to the disconsolate legions in an arid land, 'I may not be entirely wicked—but try me.' It capitalizes its kinship with Budweiser and Schlitz. It scorns soda water as Roosevelt scorns a molly-coddle, and lords it over grape juice like a nimitz julep over a milk shake."

Annexation to Anderson.

Columbia, June 25.—A favorable report for the annexation of certain territory around Clemson College to Anderson county has been made to Governor Ansel. As soon as certain information, not included in the report, is made to Governor Ansel, it is probable that he will order an election on the question. The territory in question has an area of about nine and three-tenths square miles.

First Bale Brought 50c. Pound.

New York, June 27.—The first bale of the cotton crop of 1910-1911 was sold at auction here to-day and brought 50 cents per pound, the proceeds being for the usual charity. This bale was picked at Hidalgo county, Texas, weighed about 416 pounds and was classed as good middling cotton. It was first sold at Houston, Texas, on June 23 for \$375, and was shipped from there to this city. The cotton purchased today will be shipped to Liverpool, where it will again be auctioned off.

Yesterday was "Carolina Day."

Yesterday was Carolina Day, the one hundred and thirty-fourth anniversary of the victory of the Continentals over the British fleet under Sir Peter Parker, which attempted to force its way into Charleston harbor past Fort Moultrie. Time was when the day was the occasion for an enthusiastic celebration in Charleston and in many other towns of South Carolina.

Last year 22 persons were killed by motor cars in the streets of London.
