

SUNSHINE RAYS.

Many hearts are sad over the death of Carter Riser, of Whitmore, Newberry county, who went to the land of eternal sunshine October 10. Mr. Riser was an invalid for thirteen years, but was a perfect ray of sunshine, and if faith and works bring stars to crowns, his will be filled.

He lay on his bed and with his left hand wrote a letter which went all over the world cheering up the broken hearts. Mr. Gonzales several years ago wrote an editorial in the Sunday State on his work, telling how happy he was. He was a great reader and kept up with the movements of the day, and with his pen tried to bring many measures to pass. When the State leader of the Sunshine society heard of his death she said, as Gen. Lee said at the death of Jackson, "I have lost my right arm." Mr. Riser was our right arm, for he kept the stamp box filled, and to him many other things are credited on the big ledger, and his last work was filling a page in the big autograph album of the Blind Baby Home in New York. He gave much time to the collection of funds for the State leader's typewriter, and she hopes when her fingers fall from the keys and the last copy is sent in the Great Editor will write across the copy "accepted" and she will meet her Sunshiners in a land where all is sunshine.

Donations for State Work.

Dear Mrs. W. P. Reld never forgets the sunshine and is always ready to help. She sent in for the empty stockings from the Willing Workers' scrap book that will make the dear little tots' hearts jump with delight. I am going to tell you how she made them. She got some yellow paper and old post cards, pasted the writing side down and then tied the pages with a yellow ribbon. Follow her lead and send quick, either to Mrs. Shanklin or Miss Foster, or put them by and send them yourself.

Dr. and Mrs. Calhoun sent, and paid the freight on them, three boxes of magazines. These will help the farmers' wives and children to pass off the long winter nights.

Dr. E. S. Joyner sent a five-dollar bill, and it was spent in this way: A year's subscription to the Sunshine Bulletin for Flinn Hall, University of South Carolina, so the boys will see how to scatter Sunshine; some paid stamp bills, and a copy of "Bushy," written for the blind, was sent Superintendent J. B. Swearingen.

John W. Shelor donated a file of "Country Gentleman" and other agricultural papers, sent 26 bound copies of the year book of agriculture to the Department of Agriculture at Clemson, and Prof. Harper said these were highly appreciated. Mr. Shelor also sent a file of Southern Presbyterians to the University of South Carolina in honor of Dr. James Woodrow, a former president of the institution.

What do you do with your magazines?

We trust the teachers will soon get up the money for the teachers' library. Other counties are working hard, and if you have kept up with her in her tomato club work you know also will never fail.

Teachers, see that your pupils own a Bible. Read Senator Beveridge's book, "The Bible As Good Reading," and he will prove to you that there was not a lazy woman in the Bible characters. They were women who did something. What are you doing? Have you done anything to make the world better?

Have you read McClure's Magazine of June, 1909, "The Conservation of the Defective Child"? Dr. Hines is working on this plan for our schools, and as the noted Doctor lives in Seneca, we should help him. Save the eyes of our children. Teach the coming generation to be strong, not nervous as this one.

Our boys have corn clubs. Let our girls have "Recipe Clubs" and make scrap books, so they can go to them and learn how to cook the boys' corn.

Marye R. Shelor.

Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings, backache or headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c. at all druggists.

COURT INSTRUCTS VERDICT.

Judge McCall Ruled that Government Failed to Make Out Case.

Jackson, Tenn., Nov. 17.—In a ruling which required just twenty minutes to read, Judge John E. McCall, in the United States Circuit Court, this afternoon, wrote final to the efforts of the government to have assessed against the Standard Oil Company of Indiana penalties aggregating in excess of \$30,000,000. The rulings of the court, instructing that a verdict of not guilty be returned came with the conclusion of the case in chief of the prosecution, and in substance holds with the contentions of the defense, that after four years of the United States had failed to build its structure of evidence other than on sand.

The suit at issue was probably the most important litigation against the greater corporations ever fought out in the South.

The Elkins law, regarding interstate commerce, was violated, it was alleged, through "scheme and device," the specific offense charged being the receiving of freight rate concessions.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by L. C. Martin, Clemson College; The Seneca Pharmacy.

WINTHROP'S USEFULNESS

An Organization of Graduates Desired—Commendable End in View.

Rock Hill, Nov. 5.—Special: Winthrop College stands for service—for service to the young women and to the schools of South Carolina. She is constantly looking for new ways in which to serve them. If there is a man in South Carolina to-day who feels the pulse of educational system of the State and is deeply interested in improving it in every way possible, it is the President of Winthrop College.

Winthrop College, through the trained teachers that she has sent out, has been a tremendous force in improving the rural schools of this State. Heretofore, this has been the only way in which she has been able to reach the schools. This is no longer. W. K. Tate, Winthrop's professor of elementary education and State supervisor of elementary rural schools, is going into every section of the State for the purpose of improving the elementary schools. Miss Lella Russel, who has been connected with the college for a number of years as critic teacher in the training school, is giving her time to the rural schools of York county. Miss Russel is well fitted for this work. She is a graduate of Winthrop and has studied in the State Normal School of Terre Haute, Ind. In addition to this, she has been critic teacher in the training school at Winthrop for some time. The College retains her, but sends her into York County to do her work instead of at Winthrop College. She goes from school to school; suggests to teachers methods of presentation; helps them in problems of discipline and organization. This work is an experiment. If it is found practicable, it remains to be seen what Winthrop College may be able to do in this way for the rural schools.

While we have had in the past an excellent training school for teachers, her facilities in this line are to be greatly improved. A beautiful site has been secured for the new training school. This building will be erected at a cost of \$100,000; only a small portion of this amount was given by the State, the remainder being gifts secured by President Johnson from other sources for this purpose. The building is to be model in every respect. A number of new features are to be introduced into the course of study offered to the children who attend this school. Our student teachers will be trained to teach domestic science, the domestic arts, manual training—in fact, all of the industrial branches.

Winthrop's growth is almost phenomenal. The large plant, which seemed entirely adequate a few years ago, is already proving too small. There are a few needs that are imperative. The auditorium barely seats our student body. This is the only hall that the college has for public entertainments. Last session we were forced to send 250 students home before commencement in order to have seating room for a few guests. The infirmary is too small for the enlarged institution. The need of a science hall is deeply felt. A students' building which shall contain society halls, a gymnasium, Y. W. C. A. rooms for the accommodation of former students visiting the college, is absolutely necessary.

There is a movement on foot among the students' organizations and the Alumnae Association to secure such a building. For this purpose the Alumnae Association has taken up the work of organizing all former students into chapters of Winthrop Daughters. It is bending every effort toward organizing one chapter, at least, in each county. The girls in these counties are urged to take the matter up and organize themselves, reporting the matter to Miss Lora B. Able, Rock Hill, or to President D. B. Johnson. Suggestions for organization and a model constitution may be secured by writing to either of the above.

The students of the Greensboro Normal and Industrial College of North Carolina have already presented their alma mater with such a building. The alumnae of a number of other institutions have done the same thing.

At the State Teachers' Association in the spring the Alumnae Association is planning to have a rally of Winthrop girls. Each chapter organized at that time is going to be asked to have delegates at this to pledge some definite amount to this building fund. Plans will be discussed for raising money. The Alumnae Association ought to raise \$1,000 a year for several years in succession. The present students are sparing neither time nor energy to raise their part. The former students owe just as much to Winthrop as they do.

It has been suggested that a part of this money be used for fitting up bedrooms in the students' building for the accommodation of former students when they visit the college. Let every county be organized; and let each chapter send a delegate to this rally in the spring. Winthrop has done a great deal for her students and the time has now come when they can serve her. We hope that not one will fail to hear the appeal that she is making to them.

Otto Paul, Milwaukee, Wis., says Foley's Honey and Tar is still more than the best. He writes us: "All those that bought it think it is the best for coughs and colds they ever had and I think it is still more than the best. Our baby had a bad cold and it cured him in one day. Please accept thanks." Barton's Pharmacy, Walhalla; W. J. Lunney, Seneca.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Eclectic Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

Children Cry FOR FLETCHER'S CASTORIA

Richland News Notes.

Richland, Nov. 15.—Special: A number of our citizens went to Walhalla last week to attend court, among them being W. C. Foster and S. B. Wyly, who were jurors.

John Slight, of Spartanburg, is visiting at the home of J. D. McMahon.

Quite a crowd gathered around Richland Friday evening to see the boys on the relay race pass through. This race was between Westminster and Seneca, Westminster being in the lead.

Mrs. Park McDonald and Mrs. Dickerson, of Westminster, spent Sunday in Richland.

Dr. D. W. Daniel, of Clemson, could not come to fill his appointment at the Rock Springs church Sunday afternoon on account of the serious illness of his little child, but the people greatly enjoyed one of Mr. Singleton's good sermons.

Mrs. Lucy Burris returned recently from an extended visit to friends in Anderson.

W. J. Wyly made a business trip to Walhalla Saturday.

Misses Nellie and Nancy Hines, Fannie Mayhew and Ben Lee Hamilton, of Seneca, spent Saturday afternoon at the home of Hon. E. E. Verrier.

J. P. Stribbling had a cow killed Sunday evening by train No. 40 on the Southern.

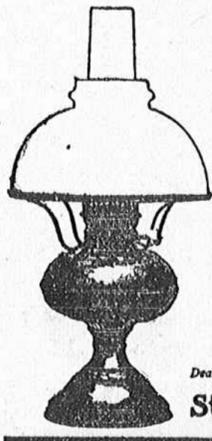

The boys have been practicing running the past week, and hope to have a team to run a race with some of the nearby towns in the near future.

Children Cry FOR FLETCHER'S CASTORIA

A Household Medicine, to be really valuable, must show equally good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds. Barton's Pharmacy, Walhalla; W. J. Lunney, Seneca.

For More than Three Decades. Hives, eczema, itch or sale rheum set you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

The Famous Rayo

Does Not Strain the Eyes

Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain.

The Rayo is designed to give the best light, and it does.

It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price.

Once a Rayo User, Always One.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

Standard Oil Company
(Incorporated)

NATURE TELLS YOU As Many a Walhalla Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills. Doan's Kidney Pills cure all kidney ills. People in this vicinity testify to this.

Mrs. Mattie A. Dodd, 229 W. Market street, Anderson, S. C., says: "I would not be without Doan's Kidney Pills in the house, as I found them to be very beneficial. My kidneys were weak, and I was bothered a great deal by too frequent passages of the kidney secretions. Doan's Kidney Pills did me more good than any other remedy I had previously used, and, therefore, I highly recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

CLIMBING SKY, FALLS TO DEATH

Holder of World's Altitude Record for Aeroplanes Killed at Denver.

Denver, Colo., Nov. 17.—Ralph Johnstone, holder of the world's altitude record for aeroplanes, to-day fell 500 feet while attempting a spectacular dip, and was instantly killed. Apparently every bone in his body was broken, though his body was not badly mangled.

When the fatal dip started the crowd began cheering, not realizing that Johnstone had dipped too far until the air craft had turned completely over three times and plunged toward the earth.

Some say Johnstone merely dipped too far, while others claim that the frame broke under the terrific strain.

Johnstone struck the ground with his machine between two trees, about 150 yards from the aviation field. Johnstone Thought He was Immune.

Kansas City, Nov. 17.—When Ralph Johnstone, who was killed in an aeroplane accident in Denver today, started to leave the home of W. M. Federmann, his uncle, here last Sunday on his way to Denver to take part in the aviation meet there, Federmann said:

"I suppose I'll receive a telegram one of these days to come after your remains."

"Not mine," said Johnstone, shaking his relative's hand and smiling. "When I make a flight I have my plans well laid. Before I leave the ground I know exactly what I am going to do. Don't worry about me being injured."

The dead aviator was born here thirty years ago. His parents are dead. An invalid sister, Miss May Johnstone, lives in Moberly, Mo. Johnstone's wife and two children are in New York.

Croup is more prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Seneca Pharmacy, L. C. Martin, Clemson College.

Twenty Carolina Boys.

(Knoxville Sentinel.)

In Dillon county, South Carolina, twenty boys under eighteen years of age each planted an acre in corn this year. Their crops are estimated at 1,700 bushels. This is an average of 85 bushels to the acre. In no case is the yield under 70 bushels. One of the boys, Hovey Edwards, has a crop of 132 3/4 bushels, and another, Frank McDonald, one of 113 bushels. These boys belonged to corn clubs and worked under the direction of Dr. S. A. Knapp's experts. They gave their acres careful tillage and probably used a good deal of fertilizer. But the results repaid their outlay in time and money. There are good lands in Dillon county. Some of them sell for \$100 an acre, but there is other land in South Carolina and other Southern States not very different from the corn club plots that can be bought for \$10 to \$30 an acre. What these boys and hundreds of others in the South have accomplished does not lie beyond the power of other boys and men. There is not much excuse for the low average corn yield in the South. It is five times too small.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulax. They operate easily, tone the stomach, cure constipation.

GOWANS King of Externals

Is the Original in the field of external remedies for all forms of inflammation such as pneumonia, croup and colds. Nothing can approach Gowans. It stands supreme.

We have been selling Gowans Preparation for Pneumonia and Colds ever since it was put on the market, and have found it one of our most satisfactory sellers.

TAX NOTICE.

COUNTY TREASURER'S OFFICE, Walhalla, S. C., Oct. 5, 1910.

The books for the collection of State, County, School and Special Taxes for the fiscal year 1910 will be open from OCTOBER 15, 1910, to DECEMBER 31, 1910, without penalty, after which day one per cent penalty will be added on all payments made in month of January, 1911, and two per cent penalty on all payments made in the month of February, and seven per cent penalty on all payments made from the first day of March until the fifteenth day of March, 1911. After that day all taxes not paid will go into execution and be placed in the hands of the Sheriff for collection. Taxpayers owning property or paying taxes for others will please ask for a tax receipt in each Township or Special School District in which he or they may own property. This is very important, as there are so many Special School Districts. The tax levy is made up as follows:

State tax	5 1/2 mills
Ordinary County	3 mills
Special County, "Roads and Bridges"	2 mills
Roads	1 mill
Interest and Sinking Fund for Bonds	3/4 mill
School tax	3 mills
Total tax	15 1/2 mills

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Bileousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature *Dr. J. C. Pierce*

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.
