

Sickly Children

are liable to be in any home. You never know when they are going to be taken sick, either, but very frequently it happens in the night time, when the drug stores are closed. Hence the advisability of supplying the home with some of the always handy remedies—those most in demand for common ills. We keep none but the purest drugs and medicines, and charge in reason.

Little Folks Entertained.

On Thursday afternoon last the Sunday school class of Mrs. Jos. W. Shelor, of the Baptist church, was delightfully entertained at the pretty home of Mrs. Shelor. She being such hospitable hostess, the afternoon wore on into the shades of evening. After serving her little comrades with a tempting course she invited them to attend her to prayer meeting at their church, and there being quite a number of the little folks, they enjoyed the walk to the church and the services held that evening very much. This date in our new year will not soon be forgotten by Mrs. Shelor's Sunday school pupils, who esteem her so highly as an instructor of the Word of the Almighty. Annie L. Wilson, Reporter.

No Loose or Broken Hub Bands on Studebaker Wheels

Studebaker hub bands are made of a specially refined iron perfectly adapted for this use. Hub bands are welded by electricity and then shrunk on by hydraulic pressure. There is not the slightest possibility of Studebaker hubs weakening from usage or from weather conditions. No strain or climate severe enough to injure them.

Every part—iron or wood—is made in the same careful way as the hub and banding. That's why Studebaker wagons run easy and last longer.
