WALHALLA, S. C.:

WEDNESDAY, JULY 29, 1914.

DR. JAMES H. McINTOSH SHOT.

His Wounds Not Thought to Be of Very Serious Nature.

(The State, July 23.)

Dr. James H. McIntosh, well known Columbia physician, was shot and painfully wounded by an unknown man, who attacked him shortly before 2 o'clock this morning as the physician was returning home along Marion street after a visit to the Knowlton Hospital. According to statements by Dr. McIntosh, the assailant, after a struggle, fled over the wall of the Presbyterian churchyard, shouting as he scaled the wall: "Now, you won't bother Colie tomorrow," or "Now, Colie won't be bothered by you tomorrow."

Dr. McIntosh recently has been brought forward into the Senatorial campaign, Governor Blease having said that he expected to invite the doctor to be on the stage at to-day's meeting when he would answer the question asked at Greenville, as to his statement regarding the condition of R. A. Richey, who was paroled by the Governor.

There is no clew to the identity of Dr. McIntosh's assailant. The wounded man describes him as being small, about 120 pounds in weight, dressed in dark clothing and wearing a cloth cap. Bloodhounds, summoned from the penitentiary, arrived some time after the shooting. Bystanders had been kept away from the part of the wall which the assailant had scaled in his escape. The trail, therefore, was relatively easy.

The dogs followed the trail through the graveyard to Bull street and thence down that street to the corner of Bull and Pendleton streets. There the trail was lost, about half way across Pendleton street.

Statement of Father.

Dr. James McIntosh, father of Dr. James H. McIntosh, this morning made the following statement, as reported by his son when he reached Knowlton's Hospital after being shot:

"Dr. McIntosh left Knowlton's Hospital about 15 minutes to 2 o'clock this morning. As he was passing along Marion street by the First Presbyterian church a man stepped out from behind a large tree and called, 'Hands up!' presenting a pistol as he did so. Dr. McIntosh grabbed the pistol and grappled with the man. In the scuffle the pistol was placed against Dr. McIntosh's stomach and fired one time. Dr. McIntosh staggered and fell to the ground. Immediately the assailant left, crossed the sidewalk and jumped the fence, saying, 'Colie won't be bothered with you tomorrow.' Dr. McIntosh got his own pistol out and fired twice as his assailant got over the fence. An instant later he fired the remaining three chambers to attract attention. The attacking party disappeared through the Presbyterian graveyard.

"Dr. McIntosh has never been in the habit of carrying a pistol, but being suspicious for the last three nights that he was shadowed he had taken his pistol along with him.

"The bullet struck in the right side just over the liver. The seriousness cannot be determined until a thorough examination has been made, which is now in process."

At 4:30 this morning it was announced that Dr. McIntosh had come out from the ether, which had been administered for the examination. The wound was found to be only superficial and the doctor's condition was pronounced to be "splendid."

Among the first persons to reach the wounded man were Dr. R. A. Lancaster, B. F. Auman, J. R. Shepherd and a number of others, who hurried to the spot from their homes. The shots and Dr. McIntosh's cries for help alarmed the neighborhood, and in a few minutes many persons were at hand.

The physician was perfectly composed, according to those first at his side, and at once described the affair. To Dr. Lancaster Dr. McIntosh said that he thought he had been followed or shadowed recently and since he had been impressed with this con-

## BUILDING PROJECTS APPROVED.

Trustees of Clemson Authorize New Hospital, Laundry and Other Work.

Clemson College, July 28.—By reason of the increase in the fertilizer tag tax this year, the board of trustees of Clemson College, at the annual summer meeting held recently, felt itself able to authorize several improvements and developments which had been put off for several years. These include a new hospital, an addition to the engineering building, the new athletic field, improvements on the Coast Experiment Station, and a new steam laundry. The improvements authorized, with the amounts, are as follows:

Fifteen thousand dollars for a hospital, which is much needed. The present hospital building will be converted into a four-apartment house.

Fifteen thousand dollars toward the new \$75,000 Y. M. C. A. building, for which Rockefeller will give \$50,000 and for which \$10,000 in pledges have been secured at Clemson College.

Five thousand dollars for a 50-foot addition to the engineering building. Appropriations for instituting a live stock division at the Coast Experiment Station, near Summerville, and for deepening the drainage outlet at the station.

Appropriations for a new and larger steam laundry, to do the work for the cadets and the campus community.

The trustees also authorized the president and faculty to issue certificates of merit, not more than two per year, to farmers who render distinguished service in agricultural advancement.

The meeting was a large one, all trustees being present excepting R. I. Manning and E. T. Hughes.

## Eases Torment of Asthma and Hay Fever.

For the discomfort and misery of asthma and hay fever use Foley's Honey and Tar Compound. It puts a healing, soothing coating over the swollen, tickling membranes, and eases the thick and choking sensation. Helps you to breathe easily and naturally. In the yellow package. Bell's Drug Store.—Adv.

## Plea for Mercy for Dynamiter.

Washington, July 23.—Appeals to the President for the release of Herbert S. Hockin, now serving sentence at Leavenworth penitentiary for his part in the celebrated dynamite case, and who was denounced by the government's attorneys as the lingo of the conspiracy, are being presented at the White House and to the Attorney General to-day. Detectives who worked up the case made representations to-day in Hockin's favor. The case will be formally laid before the President within a few weeks.

## Causes of Stomach Troubles.

Sedentary habits, lack of out-door exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, partaking of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by all dealers.—Adv.

viction had been accustomed to carry a revolver when away from his home after nightfall.

The little group of men assembled at the tree and the churchyard last night remained until tidings had been received from the hospital and then for the arrival of the dogs and beginning of the chase.

In view of the fact that Dr. McIntosh's assailant had mentioned "Colie," The State offered the Governor, through his private secretary, John K. Aull, the opportunity to make a statement.

Mr. Aull, speaking for the Governor, said:

"Governor Blease regrets the occurrence very much, as I do. I have a very high personal regard for Dr. McIntosh and know that the Governor has also. The Governor's office will lend all possible aid for the apprehension of the party or parties guilty of the assault."

## TAKING CALOMEL IS DANGEROUS.

Calomel is a powerful chemical, made from mercury—people should be careful about its use. The only sure way to avoid the danger of calomel is to take no calomel.

Dodson's Liver Tonic, a vegetable liquid of pleasant taste, more than takes its place. Where calomel shakes you up and shocks your liver and often makes you really sick, Dodson's Liver Tonic, mild but effective, builds up and strengthens. It "liven's up the liver." You feel fine after taking it.

Dodson's may be taken without any restriction of diet or habits. You can give it to your children with fine results.

Get a large bottle for 50 cents at H. M. Barton's or Norman Company's and if it doesn't do all that you think it ought—If it doesn't make bilious spells mere trifles—if it doesn't "liven up your liver," your money will be waiting for you and be returned with a smile.—Adv.

## THE MEETING AT COLUMBIA.

Rather Turbulent Crowd Grooms All the Senatorial Candidates.

Columbia, July 23.—With marked tenseness prevailing throughout the crowd of probably 2,000 persons present, Mayor L. D. Jennings, of Sumter, opened the campaign meeting here to-day for candidates for United States Senate.

Considerable annoyance was caused Jennings by a small crowd of persons continually addressing remarks to him.

After a warning that he would devote his speech principally to discussing records of his opponents, he launched into a bitter criticism of Governor Blease's record, which provoked a continual uproar from the hecklers.

"You had better let the other side speak if you want to hear him (Governor Blease)," Jennings warned. "I am going to tell you of the record which has eliminated practically all the prisoners from the penitentiary. I am going to tell you of a man in Anderson who went into a man's home and slew that man," Jennings declared with emphasis. "We don't want to hear," the hecklers exclaimed, while Jennings with difficulty told of the parole of J. Allan Emmerson, of Anderson.

Jennings charged that the "blind tigers" are supporting Blease.

"How would you like to have these two letters written about them—your wife, daughter or mother?" Queried Jennings as he denounced the "trial" of Dr. Eleanora B. Saunders.

Mr. Jennings severely arraigned the hecklers, saying that he would rather have the "record of Hoerta in Mexico than that of Governor Blease." He claimed that the element of the State citizenship with regard for the law are going to take the reins of government in their hands and stamp out Bleaseism.

Mr. Jennings said that the regard for the law in South Carolina is negligible, but the conditions should be such that a "citizen should be able to walk the streets both at night and in the day-time without being shot in the back. Under some of the grand old Governors who have ruled the State such things could not be possible."

This precipitated a howl from the audience. "Oh, you Bleasites can howl now!" exclaimed Mr. Jennings, "but two years hence you will be ashamed to acknowledge that you ever knew Blease."

Continuing his speech along the lines of the necessity of law enforcement, Mr. Jennings said: "In South Carolina a man's life is no more than his individual power to protect it."

Mr. Jennings, predicting the defeat of Governor Blease, concluded his speech amid the howls of the hecklers and the cheers of the other element of the large audience.

## Pollock Second Speaker.

Reiteration of his intention to demand obedience to law was made by W. P. Pollock, of Cheraw, the second speaker, after explaining his reasons for entering the Senatorial race.

Paying a glowing tribute to the newspaper reporters and a free press, Mr. Pollock declared: "You people whose prejudices are stirred would be better citizens if you read more and howled less."

Governor Blease was criticised for the appointment on his staff of Edwin Hirsch, of Kingstree, son of the partner of the publishing concern for which James L. Simms worked, of James Sottile, of Charleston, and of J. Preston Gibson, of Bennettsville, whose name, Pollock said, appears on a Republican ticket of 1880 with the names of negroes.

The first reference at the meeting to the shooting early to-day of Dr. Jas. H. McIntosh, whom Governor Blease had asserted he would call up on the stand to explain certain statements, was made by Mr. Pollock, who said, "after an unsuccessful attempt was made to assassinate a good woman's character, a midnight assassin attempted to get rid of Dr. McIntosh." The woman referred to was probably Dr. Saunders.

Toward the latter part of his speech Mr. Pollock was forced to battle against hisses, jeers and interruptions. The record of Senator Smith was attacked as he closed.

## Senator Smith.

When Senator Smith began his speech he was greeted with a long-continued ovation. He told in eloquent language of his part in the fight for recognition for the farmers and of the incorporation in the new banking and currency law of a clause which provided for a six-months' credit to the farmer.

Senator Smith told that he had fulfilled every campaign promise he had made, and had forced the passage of every bill he had said he would.

"I am not defending my record," he said, "but am giving it to you in

## THINK PEACE IS IN SIGHT.

Mexico Moving Toward Tranquility. Some Doubt as to Villa.

Washington, July 23.—Dispatches to-day from the headquarters of the rival Mexican factions indicated that fighting there is almost over. Many obstructions to block the way of peace still exist, but it is believed they will be cleared away promptly.

The most menacing feature, it is reported, is Villa's attitude towards Carranza. United States Consular Agent Carothers has declared, however, that the Northern leaders are working in more or less harmony. Carothers accompanied Villa to Western Chihuahua, where he is expected to try to convince the rebel general of the necessity for co-operation with Carranza. John R. Silliman, President Wilson's personal agent, is with Carranza trying the same thing.

Dispatches to United States officials from Mexico City this morning said that Gen. Iturbide, who is the Federal District Governor, announced that an armistice has been signed between the Federals and Constitutionals, and that peace negotiations would be advanced upon the basis of giving full guarantees to everybody.

It was reported here that Carranza had been in telegraphic communication with the capital. It is believed here that Carranza is opposed to granting amnesty to political offenders.

United States treasury officials to-day received orders to take extra precautions to prevent shipping arms and war materials across the border into Mexico. The administration is determined to prevent a possible counter-revolution.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. its simplicity."

Relative to his action in not pressing the passage of the immigration bill through the Senate, Senator Smith declared he had a letter from the United Order of American Mechanics telling of their satisfaction with his course.

## Blease Speaks Last.

A statement purporting to be signed by Drs. James McIntosh, who was wounded here early to-day, and by A. B. Knowlton, telling Governor Blease that R. C. Richey, whom the Governor liberated from prison, was suffering with "a marked neurosis, that the same closely simulates a true paralysis, and we do not believe this condition will be improved so long as Richey remains a prisoner in the penitentiary," was read by the Governor during his speech at the meeting here to-day.

This statement is regarded as contradicting partially the statement recently issued by Dr. McIntosh, which flatly denied assertions made by Mr. Blease.

The Chief Executive was greeted with an ovation from his followers and jeers from his opponents when he began speaking, and only after fifteen minutes of uproar was he able to make himself heard.

His respects to his opponents and anti-Blease in general was paid by the Governor in his characteristic manner.

When he had concluded he received possibly ten bunches of flowers, a gold-headed umbrella, a silver loving cup and other articles.

Charging that men from the Metropolitan, Ridgewood and Columbia clubs were heckling him, the Governor ordered a dispensary constable to close these social organizations and "keep them closed until you hear from me."
