# The European War Day by Day.

#### "Notable Progress."

London, Oct. 15 .- Two great battles in the European war, one in Northern France and Belgium, the The Russians at present are making other in Russian Poland, both with a no effort to advance further than the front of 300 miles, have reached boundary of East Prussia. Here the their height, but the public is allow- fighting has ceased, while along the ed only an occasional glance of their progress through official communica- are few troops of either army until tions. These frequently are widely at variance.

From the French report it appears that the western battle is going slowly, but surely, in favor of the allies. Under the pressure of the troops of the allies, the Germans, who started to advance on Calais and other French coast ports, have been forced to evacuate the left bank of the Lys river, which is a considerable distance east of the points their advance guards reached last week. Further east, in the Lens district and southward between Arras and Albert, where the Germans made their first attempt to work this afternoon as follows: around the allies' left, the English and French have made "notable progress.

#### German Cavalry Enters Przemysl.

The following German official statement was received in London to-night by wireless:

"It is reported officially from Vienna that our cavalry has entered from the west. The enemy, perplexed by the rapidity of our operations in Russian Poland and Galicia, tried in vain to prevent our relief of the fortress by detaching troops to the west. They were unable, however, to resist the advance of our army,

"The 5th and 6th Russian divisions of infantry attacked by us have fled in the direction of the River San.

"A Cossack cavalry division and an infantry brigade in a strong position west of Dynow, Galicia, were defeated after brief resistance."

# Epidemics Threatening Troops.

Amsterdam, Oct. 15.-The Het Leven to-day publishes an interview its correspondent at Metz had with Prof. Bosserer, who, he says, had been charged with the task of combating a threatened epidemic among the German troops.

The correspondent declares Prof. of Arras." Bosserer gave him an unfavorable science of the local? of the German large number of cases of dysenters, forthwest of London, a building quaffatoration of the brand and seve-

the correspondent, that nothing else ises. could be expected when troops had to stay five days in trenches half full of water.

#### German Attack Repulsed.

Paris, Oct. 16 .- A dispatch from Petrograd says that word is received there from Warsaw that the population of the city is returning and the banks are resuming business. A batthe is being lought about 30 miles from Warsaw.

The Germans endeavored to take the town, but were repulsed.

Polangen and Jurburg, a short distance from the Russian frontier, in the northern part of East Prussia. southern limits of East Prussia there the Vistula river is reached. Here he Germans are endeavoring to advance along the left bank of this

stream to avoid the strong fortress of Georgievsk on the right bank.

Russian experts believe the Germans plan to attempt to carry the war into East Galicia and the Lomberg district. This is indicated by the German abandonment of the attempt to advance eastward into Russia in favor of the project of striking southward.

#### Victories Confirmed.

Paris, Oct. 16.-The French war office made an official announcement

"The progress indicated in the communication of yesterday has been confirmed.

"On our left wing the field of action of the allies' forces extends at the present time from the region of Ypres to the sea.

"In Russia, on the left bank of the Vistula river, the Russian troops, the fortress of Przemysl, Galicia, during the day of October 13th, repulsed the German attacks on Warsaw and lyangorod.

> "A battle is going on south of Przemysl.'

## Official to Washington.

Washington, Oct. 16 .- Capture of Hennescamps, southwest of Arras, by the allies and an advance by the Germans from Audenarde to Courtrai, were announced in an official dispatch, made public here to-day by the French embassy. The dispatch follows:

"The Germans have advanced from Audenarde toward Courtrai. The enemy occupy a line of defense Meroin-Armentiers-Civenchy. To the west of La Bassee he is in contact with our troops between that locality and Arras. A violent combat took place northwest of Lens to Vermelles, which resulted in our favor. We have taken Hannescamps, southeast

#### Allies Gain Some Ground.

ficial communication was issued here this evening:

"On our left wing the action continues vigorously. Everywhere we have held our own. At certain points we have gained ground and have occupied Laventie at the east of Etaires in the direction of Lille.

"There is no important incident to mention in other parts of the front, except an unsuccessful attack by the Germans in the region of Malancourt, northwest of Verdun."

#### Germans Occupy Ostend.

Berlin, Oct. 16 .- An official statement issued here to-day says:

"The Germans occupied Bruges October 14 and Ostend October 15. "An attempt by the Russians to occupy Lyck (East Prussia) failed, with the loss of their artillery and 800 prisoners."

#### Fighting Near Warsaw.

Petrograd, Russia, Oct. 15,---Fighting between German and Russian troops is going on within eight miles of Warsaw, Russian Poland.

The official decision to defend the city of Warsaw is regarded here as important in two ways. First, it indicates that the Germans have been thwarted in their attempts to straighten their front along a north and south line so that it would extend from Ostrolenka, 60 miles northeast of Warsaw, through Sandomir into Galacia; and, second, the Germans have been obstructed in their plan to use Warsaw as winter quarters.

#### Approach Russian Frontier.

With the exception of an engagement south of Przemysl, where the Russian left wing is reported as having repulsed the advancing Austri- drug store. ans and Germans, activity at other points on the line appears to have been suspended.

#### NERVOUS DYSPEPSIA, GAS OR INDIGESTION.

Each "Pape's Diapepsin" Digests 3,-000 Grains Food, Ending All Stomach Misery in Five Minutes.

'Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump royalty puts the black sheep of its of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fiftyent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausca, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

# Pape's Diapepsin is a certain cure

for out-of-order stomachs, because it akes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many German troops are now around months. It belongs in your home, ad. We Are Bun Traders.

# (Gaffney Ledger.)

As producers and builders the American people excell all previous civilization and we are a present-day marvel in business efficiency, but in dealing with foreign countries we are a sorry lot of traders. Ever since William Penn traded with the Indians a handful of trinkets for what is now the State of Pennsylvania the American people have been selling their birthright to foreigners for a mess of pottage, so to speak.

We export over \$500,000,000 of cattle and their products per annum, which feeds the nations of Europe: and our American heiresses spend a similar sum in buying and maintaining counts, dukes and titled peerages. These foreign noblemen are, as a rule, absolutely worthlessin fact become a perpetual liabilityfor it costs more money to operate and keep them in repair than it does to run our cotton mills. European families on the block and our rich American girls buy them, and we virtually exchange railroads, wheat fields and millions of dollars worth of products of farm, mine and factory for titled paupers who could not be resold for any sum. It does not require foreign treaties, a fleet of war vessels or tariff revision to stop this enormous loss. It needs only common sense in the homes of the rich.

We export \$18,000,000 of lumber and timber, and American tourists spend a similar amount in motoring over Europe and sightseeing in foreign lands, although the most enchanting scenes of the world are on the American continent.
