

# The Greatest Grass Grown in America.

## GROW SUDAN GRASS.

The most wonderful grass of the age, introduced and endorsed by the United States Agricultural Department, tested severely by the farmers in all parts of Texas, and strongly recommended by the Farmers' Congress. Will grow anywhere that sorghum does from the Atlantic to the Pacific; makes more and better hay than any other plant known. Under ordinary conditions produces 300 to 600 lbs. of grain and 3 to 6 tons of choice hay per acre the same season. Adapted to all sorts of soil and resists drought and stands rain well. Takes 2 to 4 lbs. of seed to sow an acre in drills and 16 to 24 lbs. broadcast. Quality of hay equals timothy, and all kinds of live stock prefer it to alfalfa, while poultry fight for the seed. Last spring the seed sold for \$2 to \$4 per lb., and all who grew it then expect to plant more another year. It is now selling for \$1 per lb. and will go higher before spring, as the supply is limited and the demand steadily on the increase.

We will send, prepaid, pure Sudan Seed for \$1 per lb. in lots of 50 lbs. and under—not less than one lb. considered; larger lots by freight cheaper.

Better order now and be sure of getting your seed, and save money besides, than make more money next season. Every one who can should grow Sudan grass

Address **Ellagene Farm**, Box 15, ALDINE, (Harris Co.) TEXAS.

Makes Money When Other Crops Fail.

Good For Hay, Grain, Forage, Silage.

## Laughs at Drought==Smiles at Rain.

### AS TO 1915 FERTILIZERS.

It is Thought that Nitrates and Phosphates will be Cheaper.

(Abbeville Press and Banner.)

There are a few facts relative to the use of fertilizers that should be in possession of every farmer.

The general and more or less erroneous idea prevails that specially prepared guanos tend to build up the soil while the use of nitrate of soda as ammonia tends to rob the soil.

The fact is that neither of these contributes materially to the soil, except in returning humus, and neither robs the soil. If anything, the nitrate of soda possesses one advantage over other ingredients, in that it tends to release natural potash in the soil to a greater degree than any of the ammoniates, which of itself is of value, owing to the scarcity of potash. A large stalk, full of foliage, raised from nitrate of soda, returns as much humus to the soil as a stalk from guanos with any other base of ammonia.

Nitrate of soda sold this last year for \$56 per ton. Germany in the past has used more of this fertilizer than any other country, and now her ports are closed to it owing to the war. Practically the entire supply of nitrate of soda comes from Chili and other South American countries of Pacific coast. These are brought thousands of miles nearer to our market by reason of the Panama Canal. It is fair to assume, therefore, that, with the greatly decreased demand for soda by foreign countries, and with water rates on a very much shortened route for shipping, soda will sell in this country next spring for about \$35 per ton, or little more than half its price last spring.

Acid phosphate, an essential of all plant life, will likewise be cheaper, as it is produced almost entirely in this country and will find no market in Europe.

Potash is one of the three necessary ingredients of plant life for which this country will go begging, and there is a fact about it that is more important than any mentioned. Red lands do not need potash. The ordinary red lands plowed to a depth of eight inches, contain and will yield natural potash sufficient for crops on ten times the area. This is not true of sandy or buck-shot lands, which, if a scarcity of potash is to continue for long, will have to be treated by turning under leguminous crops grown. This not only furnishes large quantities of potash and some ammonia, but prepares the soil for better results from the other two ingredients of fertilizer applied.

A reasonable conclusion from these conditions, then, would seem to be to use phosphoric acid liberally in sowing grain and next spring in preparing for summer crops. Then later buy nitrate of soda as the base of ammonia.

Soda runs about 17 per cent ammonia, and a ton is equivalent to more than four tons of high grade guano as to this ingredient. On red lands only the soda and phosphoric acid, comparatively a cheap ingredient, are necessary to make a complete guano, and will give as good results as the most expensive guanos.

We should not leave our readers to conclude that these remarks are based on individual experience or experimentation, for in that case they would perhaps carry little weight. The fact is, our information was obtained in a conversation with the director of agriculture of Clemson College, and every statement made here as to the results of certain fertilizers on certain soils is the result of careful experimentation by the department.

### F. W. R. HINMAN KILLED AT SEA.

Jacksonville Newspaper Man Killed by Drug-Crazed Architect.

Charleston, Nov. 12.—F. W. R. Hinman, business manager of the Jacksonville Times Union and president of the Southern Newspaper Publishers' Association, was fatally wounded, and Capt. Adolph C. Ingram, master of the vessel, and B. H. Wright, of Utica, N. Y., a passenger, seriously wounded last night by a passenger said to be George Batchelder Perkins, an architect of Boston, Mass., on the Clyde line steamship Mohawk, when that vessel was off the North Carolina coast, bound from New York to Charleston.

Mr. Hinman died this morning at 8.37 o'clock, twelve hours after sustaining the two fatal wounds in the abdomen from a 32-calibre revolver. Accompanied by his widow and a son-in-law, Mr. Hinman's body was carried late to-night to Jacksonville, Fla. A preliminary inquest was held to-night by United States Commissioner Arthur Huger. Perkins, who heard the warrant read without being affected, and who showed an attitude of not knowing what he had done, did not attend, nor did Capt. Ingram or Mr. Wright, both of whom are in a local hospital.

**Story of the Tragedy.**  
United States Assistant District Attorney A. R. Young questioned witnesses. It was decided to hold Perkins for trial on the charge of having killed Mr. Hinman.

It was brought out at the hearing that Perkins had been taking what he called headache powders to excess, and his roommate, N. K. Wentworth, of Connecticut, said he was suspicious of Perkins because of this. Soon after 8 o'clock last night Perkins, clad in pajamas and a raincoat, approached Capt. Ingram and Mr. and Mrs. Hinman, who were in conversation. He addressed a remark to Capt. Ingram, who replied that Perkins must wear more suitable apparel if he wished to mingle with the other passengers. Perkins whipped out his revolver and fired at Capt. Ingram's abdomen, the bullet taking effect. He then shot Mr. Hinman and turned the weapon to Mr. Wright, who was reclining on a settee. He shot Mr. Hinman again and tried to shoot Capt. Ingram, the bullet going wild. He turned the pistol on himself, but its five cartridges had been discharged.

The steward and assistant steward of the Mohawk and several passengers, hearing the shots, rushed to the scene and overpowered Perkins, who told his captors that they could do as they pleased with him, but witnesses allege that he wanted to get others who were on the steamship. Perkins was placed in irons and held under close surveillance, and when the Mohawk docked this afternoon he was given into the custody of the authorities, by whom he was placed in the insane ward of a local hospital. Capt. Ingram and Mr. Wright are expected to recover. Capt. Ingram was wounded in the abdomen and Mr. Wright in the thigh.

**Try this for Your Coughs.**  
Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of throat and bronchial tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery, it penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a 50c. bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. R. Watts, Floyd, Texas. Money back if not satisfied, but it nearly always helps.—Ad.

**Peace Treaty with Britain in Effect.**  
Washington, Nov. 11.—The Peace Commission treaty between the United States and Great Britain became operative to-day upon exchange of ratifications between Ambassador Spring-Rice and Secretary Bryan.

### DISPENSARY LITIGATION.

Old Case to Be Heard by the Federal Supreme Court.

Washington, Nov. 12.—Constitutionality of four State laws and the question of whether a person may be compelled to pay a debt to "a trust" will be considered this week by the United States Supreme Court.

Arguments are to be heard on the validity of the South Carolina dispensary legislation, the Maryland automobile license law, the Mississippi 10-hour labor law, and the Iowa liquor injunction law.

In the South Carolina case, the Carolina Glass Company, which was held by a dispensary commission to have conspired with members of the State Dispensary Board to overcharge the State for bottles, is attacking the law which authorized the State to take possession of money owed the company by county dispensaries.

**"CASCARETS RELIEVE SICK, SOUR STOMACH.**

Move Acids, Gases and Clogged-Up Waste from Stomach, Liver, Bowels—Cure Indigestion.

Get a 10-cent box now. That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

**OATS CAN BE RAISED CHEAP.**

Anderson Man Raises Them at a Cost of Only 9 Cents Per Bushel. (Anderson Mail.)

To say that oats can be raised for 9 cents a bushel sounds like an extravagant statement, yet B. J. Smith submits figures to prove that he has done it. Mr. Smith is a live farmer, living a few miles above the city, and is prepared to back up his claims with figures. Following is what he did on twelve acres of land the past season:

Rent, 12 acres at \$10..... \$120.00  
25 bushels seed oats..... 25.00  
Drilling in cotton middles (one man two days)..... 3.00  
2,600 pounds meal and acid..... 36.00  
1,200 pounds nitrate of soda..... 30.00  
Harvesting..... 25.00  
Toll for threshing..... 75.00  
12 bushels of peas..... 25.00  
3 bushels cane seed..... 6.00  
Sowing and harvesting hay..... 30.00

Total expenses.....\$375.00

Receipts—  
1,054 bushels oats at 90c..... \$ 948.00  
7 tons baled oat straw, \$10..... 70.00  
15 tons peavine hay at \$20..... 300.00

Total receipts.....\$1318.00  
Less expense..... 375.00

Net profit.....\$943.00  
Cost of oats per bushel 8.95 cents per bushel. Profit per acre, \$78.63.

**A Freak of the Molars.**  
Detroit, Mich., Nov. 14.—Marjorie Davis, 17-months-old daughter of Mr. and Mrs. C. C. Davis, has a freak tooth. A few days ago her mother noticed a dark spot on one of the baby's teeth and took her to a dentist. The dark spot was found to be a perfect silver filling. As the baby had never visited a dentist before, the filling is looked upon as a great curiosity.

### WAR DECLARATION IN MEXICO.

Villa and Carranza Formally State the Case—Armies Will Clash Soon.

El Paso, Texas, Nov. 11.—War has been declared between the Carranza and Villa elements of the Constitutional army, according to advices received at Juarez to-night from officials of the convale of chieftains at Aguas Calientes.

A preliminary battle has occurred at Leon, between Aguas Calientes and Queretaro, it was reported.

Gen. Pablo Gonzales, the Carranza commander, has moved his forces from Queretaro north to Silao to meet the Villa advance.

Gen. Manuel Chao, a Villa chieftain, departed to-day from Aguas Calientes with a strong force.

A message from official sources in Mexico City, given out to-day by Rafael Muzquiz, the Carranza consul general to the United States, says:

"The first chief is at Cordoba. Most of the principal chiefs have declared in favor of Carranza. Villa has called upon the people to take arms. All the south and east is loyal to the first chief."

### Only One "BROMO QUININE"

To get the genuine, call for full name, LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. Stops cough and headache, and works off cold.

### Dispute About War—Both Dead.

Marietta, Ga., Nov. 13.—Wm. A. Linsay, conductor, and John Reynolds, motorman, both of Marietta, are dead as the result of a revolver battle in which they engaged in the local car barns early Tuesday. Five shots were fired. The cause of the shooting was not definitely established, though the police were informed that it was provoked by a war argument. The men had been car-mates nine years.

The armies no longer rout and retreat; they only push and give.

### Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under its personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Iaragoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Charles H. Fletcher*
