WALL STREET WOLF SENT UP.

Convicted of Conspiracy and Impersonating U. S. Officials.

New York, Dec. 3 .- David Lamar was to-day found guilty of impersonating Representative A. W. Palmer. of Pennsylvania, for the purpose of defrauding J. P. Morgan & Co., and the United States Steel Corporation. He was immediately sentenced to serve two years in the Federal penitentiary at Atlanta, Ga.

The crime of which Lamar-nickdom entered on the records of the Federal Court here.

The government charged that Lamar and his friend, Edward Lauterback, a lawyer, entered into a conspiracy to obtain money from the United States Steel Corporation and the Morgan firm by representing themselves as agents of Speaker Clark and other men high in Congress. To further this conspiracy, it was charged, Lamar telephoned Lewis Cass Ledyard and others, represented himself to be Representative Palmer, of Pennsylvania, said that he was acting with the knowledge and sanction of Speaker Clark and sought to have Mr. Ledyard obtain employment for Lauterback with the Morgan firm or the Steel Corporation.

The telephone conversations, it was testified, lasted for several days before Mr. Ledyard telephoned to the real Representative Palmer and found that he had been talking previously with an imposter. In the meantime Mr. Ledyard had seen Lauterback, and Lauterback, Mr. Ledyard said, had demanded money for his services.

Three indictments were found by the grand jury. Two of them charged Lamar with representing himself as an officer of the United States. The third charged Lamar and Lauterback with conspiracy. The one naming Lauterback, District Attorney Marshall said, would be pressed against Lauterback at an early date.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurbe a constitutional disease, and therefore requires constitutional treat-ment. Two Killed in Railroad Wreck.

Royersford, Pa., Dec. 9 .--- Two were killed and two fatally injured to-day when a train from Philadelphia, on the Reading Railway, crashed into a freight a short distance

MR. RUTHERFORD'S NEW HOME.

Former Oconeean Writes of Impressions in State of Adoption.

Pine Level, Alr., Dec. 2.-Editor Keowee Courier: I promised you a letter from Alabama, and in fulfilling my promise I will tell you how I find this State.

I live on the border of Pine Level. which is a considerable area of low, level pine forest, of coverai chousand named by brokers "The Wolf of Wall est is a densely timbered tract of veterinarian's statement. Street"-was convicted is one sel- tall, long-leaf pine-certainly a fine railroad, 12 miles distant from the

> mill. ton belt, where can be seen thousands of bales of cotton at farm hou.es and in warehouses.

> Cotton, sugar cane and corn are plentiful. Hogs are fattened on sweet potatoes and peanuts, and cattle run at large during the winter months without being fed. Ve are in a white community, with a church and fine school house in a hundred yards of our home. For eight miles below us, on the Troy road, are large farms, well supplied with ne gro tenants, who live in good houses. with fine churches, all painted white. These farms belong to large land owners, who furnish land, mules, guano and rations. These land owners are quite at a loss to know how to meet their contracts with 6cent cotton. At this time I see no wheat, oats or rye being sown. The problem with the big planters is, will they risk another big cotton crop and expenses or let the land rest? The negroes have nothing after settling for this year, and they cannot farm without aid from merchants or the landlord.

The land in Montgomery county is partly prairie, with some timber belts; sells at \$30 to \$100 per acre, and is mostly very level. In Pike county, near me, part of the land is similar to land south of Walhalla. and is selling at \$20 to \$50 per acre. When this was "Alabama Territory" the United States governyears ment had the land surveyed in 80, 160, 320 and 640-acre tracts. All land lines are perfectly straight. The public roads generally follow the Science has proven catarrh to land lines; consequently the roads are straight.

Roads.

And speaking of roads: The counledo, Ohio, is the only constitutional try beit level, it is absolutely necessary that they be graded with a road hed 3 to 20 feet high to keep water on the sides and off the road lars for any case it fails to cure. Send The roads are being macadamized and are very hard and solid. Teamsters do not ask "how much can the team pull," but "how much can the wagon bear up." All bridge planks are sawed 3 by 6 inches and are placed one inch apart, so that dirt will not accumulate on the plankhence no rotting. The Troy road crosses the Conecuk river on a very fine bridge, with an embankment

NO CAUSE FOR ALARM IN S. C.

Care Should Be Taken, However, as to Foot and Mouth Disease.

Clemson College, Dec. 7 .- While urging farmers not to relax their vigilance, and to be prompt in communicating with Clemson College whenever their suspicions are aroused, Dr. R. O. Feeley, State Veterina rian, has issued a statement, repeating his recent reassurance that there was very slight danger of foot mouth disease reaching South Caroacres of fine pasture land, with cot- lina. Inquiries which have been reton farms here and there. The for- ceived at Clemson recently led to the

Two alarms have been received since the outbreak of the epidemic in opening for st w mills. Timber is the North and West. One came from cheap and lum er brings one dollar Jordan, in Clarendon county, and the at the mill or two dollars at the other from Bishopville, Lee county. Veterinarians were immediately dispatched from the college to investigate and in both cases the report was I am on the border of the big cot- that no symptoms of foot and mouth disease were present.

Dr. Feeley stated that so energetically was the Department of Agriculure handling the problem, and so s, rictly had the guarantine lires been drawn, that he felt safe in teiling the South Carolina farmers that they need have practically no unxiety on the subject The State ', eterinarian feels satisfied with the precautions that have been taken, and although he will continue to be vigilant he has no fears that the area of infection will spread to South Carolina.

Stop that Cough-Now.

When you catch cold, or begin to cough, the first thing to do is to take Dr. Bell's Pine-Tar-Honey. It pene-

trates the linings of the throat and lungs and fights the germs of the disease, giving quick relief and natural healing. "Our whole family depend on Pine-Tar-Honey for coughs and colds," writes E. Williams, Hamilton, Ohio. It always helps. 25c. at your druggist .--- Adv.

Canadian's Novel Spade.

(British Cor. Associated Press.) Canadian troops arriving at Salis bury Plain carry an entrenching tool

that is novel to the Englishman. It is capable of being used as a shield and is slung across the shoulder in a leather case. The tool is a spade, weighing about four pounds, and consequently can be carried at all times. The spade has an oval hole in the center of it through which a gun barrel can be thrust. The tool thus serves both as a rifle rest and a shield to the soldier in the trenches. All the spades have been subjected to heavy fire and the metal in them is practically bullet-proof. At a dist ance of 200 yards heavy ammunition only cracks the shields and does not penetrate them.

Fire at West Orange, N. J., Results in \$7,000,000 Damage.

West Orange, N. J., Dec. 9 .-- Fire destroyed virtually the entire main plant of the Edison Company here tonight, causing damage estimated at nearly \$7,000,000 with insurance that it is expected will reduce the loss to approximately \$5,000,000.

An entire square block of modern reinforced concrete buildings which were supposed to be fireproof was burned out by the flames. The only building saved in the block was the laboratory building, containing valuable scientific machinery under immediate superintendence of the inventor, Thos. A. Edison. Especial efforts made to save this structure were successful.

It is estimated that 3,000 men and women will be temporarily thrown out of work because of the fire. In

all about 7,000 persons were employed at the plant, but as the storage battery building across the street from the main plant was saved, with other buildings nearby, it will be possible to keep something more than half the force employed.

Four firemen were injured fighting the blaze and were taken to a hospital.

"Although I am more than 67 years of age, 1'll start all over again to-morrow," said Mr. Edison. am pretty well burned out to-night, but to-morrow there will be a mobilization here and the debris will be cleared away if it is cooled sufficiently, and will go right to work to reconstruct the plant."

The inventor expressed himself thus as he stood watching the flames lick up building after building of his mammoth plant, started, it is thought probable, by an explosion in the inspection building, one of the smaller frame structures. This building was quickly a mass of flames and the fire spread rapidly to 12 o'clock by Sheriff Mangum and other structures. Chemicals in some of the buildings made the firefighting extremely difficult. Explos-

ions occurred frequently. All employees at work in various building: escaped. In all eleven buildings in the main plant were destroyed. The buildings destroyed included those occupied by
