TO ENGLAND AND GERMANY

United States Speaks Candidly of Serious Situation.

Washington, Feb. 11.—The United States has warned Great Britain that general use of the American flag by British vessels would be viewed with grave concern here, and has notified Germany that destruction by her of any American vessel in the newly prescribed war zone would lead to serious complications.

It became known to-day that the text of the two notes sent last night to Great Britain and Germany expressed much more emphatically than generally was believed the displeasure of the United States at use of neutral flags by British merchantmen, and its solicitude over the implication that neutral vessels were liable to destruction by German submarines in the waters around Great Britain and Ireland.

Pointed Statement to Germany.

In the note sent Ambassador Gerard for presentation to the German foreign office, there is a friendly, but pointed, statement that American vessels should have free and unrestricted passage through the high seas and unblockaded waters, and that destruction of an American vessel might lead to a change in the hitherto friendly relations which have uniformly existed between the United States and Germany.

Representations in the note to Great Britain are not based on the Lusitania incident, but on the statement of the British foreign office justifying use of neutral flags by its vessels. The United States state unequivocally, it is understood, that a continuance of that practice would be highly dangerous to neutral vessels and would be viewed with the deepest anxiety here.

Among the diplomatists here the fact that the United States had taken a pronounced stand created a profound impression.

No joint representations with the United States on the same subjects have been made by any of the neutrals, although their ministers here have consulted the American government as to its attitude.

Last of Muncy Twins Dies.

Baylor, L. L., Feb. 11.—William Muncy, who on Christmas day was 96 years of age, and who was one of the Muncy twins, died at his home here yesterday afternoon. He was the last of the famous twins. His brother, Samuel Muncy, died here last summer.

The Muncy twins made their home on the farm where they were born. They followed the sea and farming for a livelihood. They so closely resembled each other all through life that many persons who had known them in their childhood had much difficulty in telling them apart, even in their old age.

Both married and had families. William left one son, two daughters, two grandchildren and one great-grandchild.

Colds Are Often Most Serious—Stop Possible Complications.

The disregard of a cold has often brought many a regret. The fact of sneezing, coughing, or a fever should be warning enough that your system needs immediate attention. Certainly loss of sleep is most serious. It is a warning given by nature. It is man's duty to himself to assist by doing his part.
