WHAT IS THE MATTER WITH THE UNITED STATES?

(H. N. Casson, in Associated Adver-
tising for December.)

"What is the matter with the United
States?"

Since I have been residing in London
since the beginning of the war, I
have been hearing this question
asked on all sides. I have never
heard any satisfactory answer. No
one seems to know.

Why are the American factories
not running night and day? Why
are the railroads not opening up new
territories and getting ready for the
millions of immigrants who have al-
ready made up their minds to leave
Europe as soon as the war is over?

Why are there not fifty American
drummers in London right now, try-
ing to sell \$200,000,000 worth of
American goods in place of the goods
that were bought last year from Ger-
many and Austria?

Why have advertisers become quit-
ters, just at the time when their ad-
vertisements were most needed and
most effective in cheering on the busi-
ness forces of the United States?

From the European point of view,
the United States is a haven of peace
and security and prosperity. It has
no troubles that it dare mention to
Belgium or Austria or Germany or
Serbia or Great Britain or Russia.

Every tenth Boston has enlisted.
Every tenth Frenchman is at the
front. Every tenth Belgian is dead.
What does the United States know of
trouble?

If I could afford it, I would charter
the Mauretania and Lusitania and
convey a party of 5,000 American ad-
vertisers to Europe for a trip of educa-
tion. I would give them a week in
London, a week in Paris, and a week
in Antwerp.

I would let them look at the United
States from the scene of war. I
would give them a look at REAR
TROUBLE. I would let them see
trains, ten at a time, five minutes
apart, packed with the maimed and
dying.

I would let them hear, from frag-
mentary survivors, the incredible
story of battlefields 150 miles wide,
and armies that are greater than the
entire population of Texas.

I would let them see graves 100
yards long and full, and Belgium, the
country that was, nothing now but
12,000 square miles of wreckage.

Then, when they began to under-
stand, to some extent, the magnitude
and awfulness of this war, I would
say to them:

"Now go back and appreciate the
United States. Realize your opportu-
nities. Don't start digging
trenches when nobody is firing at
you. Don't fall down when you have
not been hit. Don't be blind to the
most glorious chance you have ever
had in your life.

"Go back and advertise. Get ready
for the most tremendous business
boom that any nation ever had. Build
your factories bigger. Train more
salesmen. Borrow more money. Go
ahead, and thank God that you are
alive, and that your family is alive,
and that you are living in a land that
is at peace, at a time when nearly
the whole world is at war."

Bad Breath, Meas Liver and
Bowels Need Cleaning.

desired results with Cascarets.

Don't let your stomach, liver and
bowels make you miserable. Take
Cascarets to-night; put an end to

piness and a clear head for months.
No more days of gloom and distress
if you will take a Cascaret now and
then. All druggists sell Cascarets.
Don't forget the children—their lit-

SPRAYING AND PRUNING.

Clemson Expert Will Conduct Dem-
onstrations in Oconee County.

Editor Keowee Courier: I have
been down to Clemson, and W. W.
Long, director of Demonstration and
Extension, has consented to send an
expert on spraying and pruning to
carry on demonstrations on the fol-
lowing farms in Oconee:

March 11th—1.30 p. m., Gus C.
Arve's farm, Long Creek.

March 12th—1.30 p. m., I. W.
Henry's farm, Mountain Rest.

Be sure to meet this expert at one
place named and be ready to ask him
any question concerning fruit grow-
ing. I consider this an exceptional
opportunity for the people of Ocon-
ee. Our county is especially ad-
apted to growing fruit, and nothing
pays better than a well-kept orchard,
while a neglected one generally isn't
worth standing room.

"An apple a day keeps the doctor
away."

"Eat all the fruit you can, and can
all you can't eat."

Everybody cordially invited to at-
tend these meetings.

GIRLS! DRAW A MOIST CLOTH THROUGH HAIR.

Try This! Hair Gets Thick, Glossy,
Wavy and Beautiful at Once.
Stops Falling Out.

Immediate? Yes! Certain?—
that's the joy of it. Your hair be-
comes light, wavy, fluffy, abundant
and appears as soft, lustrous and
beautiful as a young girl's after a
Dandierine hair cleanse. Just try
this—moisten a cloth with a little
Dandierine and carefully draw it
through your hair, taking one small
strand at a time. This will cleanse
the hair of dust, dirt or excessive
oil, and in just a few moments you
have doubled the beauty of your hair.
A delightful surprise awaits those
whose hair has been neglected or is
scurry, faded, dry, brittle or thin.
Besides beautifying the hair, Dandierine
dissolves every particle of dandruff;
cleanses, purifies and invigorates
the scalp, forever stopping
itching, falling hair, but what will
please you most will be after a few
week's use, when you see new hair—
fine and downy at first—yes—but
really new hair growing all over the
scalp. If you care for pretty, soft
hair, and lots of it, surely get a 25-
cent bottle of Knowlton's Dandierine
from any drug store or toilet coun-
ter and just try it.—Adv.

British Losses 21 Days.

London, Feb. 26.—From January
25 to February 16—21 days—the
British forces in France and Belgium
lost 84 officers killed and 151 wound-
ed, while 25 were reported missing.
This information is conveyed in the
official officers' casualty list issued
to-day. The Cold Stream Guards
lost five officers killed and five
wounded in these three weeks. Great
Britain, since the beginning of the
war, has lost 1,394 officers killed and
2,629 wounded, while 690 have been
reported missing.

Deafness Cannot Be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous
lining of the Eustachian tube. When
this tube is inflamed you have a rum-
bling sound or imperfect hearing,
and when it is entirely closed, deaf-
ness is the result, and unless the in-
flammation can be taken out and this
tube restored to its normal condition
hearing will be destroyed forever;
nine cases out of ten are caused by
catarrh, which is nothing but an in-
flamed condition of the mucous sur-
faces.

We will give one hundred dollars
for any case of deafness (caused by
catarrh) that cannot be cured by
Hall's Catarrh Cure. Send for cir-
culars, free. F. J. Cheney & Co.,

Engineer Takes His Life.

Lincolnton, Va., March 5.—H. R.
Syfan, aged about 45, of Abbeville,
S. C., yesterday committed suicide in
a hotel here by shooting himself in
the right temple. He came here
seeking work on Southern Railroad
construction, and falling grew des-
pondent. He had not been out of
his room since last Friday. No other
cause can be ascertained for the sui-
cide. The coroner investigated, but
held no inquest. Syfan was until re-
cently a locomotive engineer, run-
ning out of Charleston, S. C.

Interest Centering in Dardanelles.

London, March 4.—A British offi-
cer of the allied fleet bombarding the
Dardanelles is quoted in an Athens
dispatch as saying only two forts now
remain intact. The bombardment
was resumed this morning by ten
large warships. Reports of extensive
damage are not borne out by dis-
patches from Constantinople, one of
which says the inner forts have not
yet been reached.

While British battleships are bat-
tering forts 8 and 9, located ten
miles within the entrance to the
Dardanelles, French warships from
the Gulf of Saros are bombarding the
Turkish positions at Bulair. Aerial
reconnaissance seems to have con-
firmed a report that big Krupp guns
recently sent to the Dardanelles still
are unmounted.

The battleships of the allies, which
now show all the colors of the triple
entente by additions of the Russian
cruiser Askold, undoubtedly have
turned the Dardanelles into an in-
ferno which, according to British
and French claims, has spelled de-
struction to the Turkish defenses. On
the other hand, Constantinople,
while admitting destruction of the
outer forts, declares the inner works
impregnable. The Turks rely on
mines, but the allies' mine-sweepers
have been busy.

Turks Protest Unconcern.

Berlin, March 4.—Attaches of the
Turkish embassy here profess to be
unconcerned regarding the bombard-
ment of the Dardanelles forts by the
allied fleet. They declare that the
fortifications are impregnable; that
the landing of troops at the entrance
to the straits is impossible, and that
any attempt to land a force at some
point along the shore of the Gulf of
Saros would require more men than
the allies can concentrate, leaving
out of consideration the strong Turk-
ish forces stationed at all threatened
points.

"The outer fortifications are the
oldest in Turkey and their speedy
subjection always had been counted
on. The real defense line lies fur-
ther in, where the difficult waterway
deprives ships of the power to man-
oeuvre freely and obliges them to
move in a narrow defile, which is
commanded by artillery and mines.
The real defenses of the Dardanelles
have not been affected in any way
so far."

Unable to Aid Turks.

Geneva, March 4.—A Munich dis-
patch says Field Marshal von Der
Goltz sent to Constantinople from
Germany to act as military adviser
of the Turkish government, has tele-
graphed German military head-
quarters asking for 50 German artil-
lery officers, urgently needed for the
defense of the Dardanelles. The field
marshal received a laconic reply, the
dispatch says, stating that Germans
needed their artillery officers, and
adding: "Do your best."

Belligerents Make Varied Claims.

London, March 4.—Interest here
in the Russian campaign again has
shifted to the extreme south. Pe-
trograd reports that Gen. Brusiloff
has won a noteworthy victory near
Baligrad, inflicting heavy losses on
Austrians advancing to relieve Przem-
ysl. An unofficial Bucharest dis-
patch credits the Russians with re-
capture of Stanislaw, Galicia, about
60 miles from Tarnopol.

Vienna reports the repulse of des-
perate Russian counter-attacks in the
Carpathians, but says there is com-
parative inactivity along the remain-
der of the line.

German military authorities admit
the recapture of Przrasnys, Poland, by
the Russians, but assert the Russians
suffered so heavily during the at-
tack that they were unable to dis-
turb the orderly retreat of the Ger-
mans. Russian reports say the Ger-
man retreat was disorderly and pre-
cipitate.

Russian attacks near the Prussian
border are said by the Germans to
have failed. The German efforts to
capture Ossowetz have resulted in a
violent battle, as yet undecided.

In France and Belgium the French
now appear to be content to hold the
positions they have won in Cham-
pagne.

The official German statement of
to-day says French attacks in the
Champagne region were repulsed
easily. The French statement asserts
that violent assaults by the Germans
were defeated. North of Arras, near
the Belgian border, the Germans cap-
tured positions of the allies, which
they say were nearly a mile in extent.

Submarines Sent to Bottom.

London, March 5.—Steamship
Thordis has been examined in dry
docks, and injuries to her keel and
propeller confirm the evidence of
Capt. Bell and the crew that on the
28th of February she rammed and in
all probability sank a German sub-
marine, which had fired a torpedo at
her.

Yesterday afternoon the German
submarine U-8 was sunk in the chan-

nel off Dover by destroyers. Officers
and men were taken prisoners.

The U-8, 300 tons, had a speed of
13 knots above water and 8 knots
submerged, and a radius of operation
of 1,200 miles. It carried three tor-
pedo tubes and had a complement of
twelve men. It was a sister ship to
the famous U-9, which early in the
war sank the British cruisers Hogue,
Aboukir, Cressy and Hawk.

Trenches Recaptured, Claim French.

Paris, March 5.—This afternoon's
war office statement says:

"To the north of Arras, near Notre
Dame de Lorette, we have recaptured
most of the advance trenches we lost
the day before yesterday. We took
150 prisoners.

"The enemy again bombarded the
Rhineland cathedral.

"In Champagne, north of Souain,
Mesnil and Beausejour, there has
been nothing fresh to report since
yesterday evening's communication.

"In the Argonne, at Vauquois, we
have repulsed two counter-attacks
and made new progress, inflicting ap-
preciable losses upon the enemy and
taking many prisoners. We are
masters of the greater part of the
villages."

Berlin Says French Checked.

Berlin, March 5.—The war office
to-day gave out the following state-
ment:

"Western theater of war: 'South
of Ypres we inflicted considerable
losses on the British with artillery
fire. In the positions in the Lorette
Hills, which we took away from the
French, a counter-attack was re-
pulsed and our enemy took charge.

"In the Champagne district yester-
day and last night the French con-
tinued attacks north of Le Mesnil.
All their attacks were repulsed and
our positions were maintained.

"Attacks on our positions at Vau-
quois, east of the Argonne, and in
the forest of Consenvoye, east of the
Meuse, failed. All attempts to dis-
pute our possession of ground cap-
tured in the last few days in the dis-
trict of Badonviller failed. An at-
tack undertaken last night with con-
siderable forces on the heights north-
east of Celles broke down with heavy
losses to the French. Several night
attacks also were unsuccessful, and
over 1,000 dead Frenchmen are ly-
ing before our entanglements.

"Eastern theater of war: The situ-
ation around Grodno (northern Po-
land) is unchanged. Russian at-
tacks to the northeast and north of
Lomza failed with heavy losses to the
enemy. Many prisoners of the First
and Second Russian divisions of
guards are in our hands.

"Further on, as far as the Vistula,
the situation is unchanged. A few
advances by Russians east of Plock
were unsuccessful, and strong night
attacks executed by the enemy east
of Skieniewice, failed completely."

Generally Favorable, Says England.

London, March 5.—Even should no
decisive battle develop from the pres-
ent Russian offensive the allies claim
the Austro-German spring campaign
plans in the East have been measur-
ably interfered with.

A few weeks ago Field Marshal
von Hindenburg was sweeping victori-
ously through Northern Poland,
while in the South the Austrians
were pressing forward both in Gal-
icia and Bukovina. To-day Russian
troops are attacking from the Niemen
to the Vistula, and although the Ger-
mans are clinging tenaciously to
their positions before Ossowetz and
at other points north of the Vistula,
their thrust toward Warsaw has been
brought to a standstill, and they are
being forced slowly back to their
own frontier.

News dispatches say that in the
South the Austrians continue to fling
themselves with great bravery
against the Russian lines. These on-
slaughts are costing the attackers
enormous losses, but the Russian gen-
eral staff declares they have brought
no gains. The German contingent
in the Carpathians has been reduced
to three army corps, according to re-
port, leaving the Austrian forces to
bear the brunt of the fighting.

Meantime the allied fleets are bat-
tering their way slowly up the Dar-
danelles without, so far as is known,
a single serious loss among the ships.

It can be said that from the British
viewpoint, the situation to-day,
wherever fighting is going on, is
taken as favorable. The South Afri-
can rebellion has been crushed; the
Turkish invasion of Egypt seemingly
has been abandoned; reports from
the East are encouraging; no ad-
verse news regarding the operations
against the Dardanelles yet has been
received, and the blockade on food-
stuffs into Germany is about to be
enforced.
