French Have Double Purpose. London, April 10.-The French

with the capture of Les Eparges, have obtained one of the main objects of their advance southeastward from Verdun. The position at Les Eparges dominates the plains of the Woevre, and its occupation by the French is announced officially. Progress from Verdun means heavier pressure on the northern flank the Germans holding St. Mihiel, while the southern flank is threatened by the French advance between Pont-a-Mousson and the Meuse.

In the southern part of this field of operations the Germans are delivering almost continuous counter attacks. They have made fifteen assaults on one point

It is evident that the French are not only attempting to capture St. Mihiel, which always has been a danger point since its wedge was driven into the line of the allies, but at the same time seeking to aid Russia by man troops for the relief of the hard out in Vienna to-day, reads: pressed Austrian and German forces in the Carpathians.

Russia is said to have made important captures of guns and war munitions in the Carpathians, What is represented as information from the Austrian general staff is that in the battle along the Dukla-Ejeries front the Austrians lost 26,000 men.

Poplar agitation in Italy concerning that country's attitude has increased to a point which has necessitated energetic action to prevent disorders. The factions for and against war have arranged mass meetings for to-morrow, which their leaders say will be held in spite of a police prohibition.

A French sailing vessel, from London for New York, has been sunk by a German submarine off the Isle of Wight. The Germans allowed the crew ten minutes to quit their vessel and all were saved. A wrecked British schooner has been sighted off the American coast and is believed to have been attacked by a German warship several weeks ago.
