—There are many friends here of John F. Tatham, of Columbia, who will regret to learn that he has been quite ill at his home here for some ten days past. We are glad to learn, however, that his condition is somewhat improved at present, and hope that he may soon be completely restored to health. He is an engineer on the Southern Railway, with headquarters in Columbia. For the benefit of the health of his family, however, they reside in Walhalla. Mr. Tatham frequently visits them here.

Dr. Pettit, besides belonging to the medical profession, is also interested in other lines of activity, being connected with a large mining corporation with headquarters in Charlotte, N. C. He is an enthusiast on Oklahoma City, but finds the climate of the Piedmont section of the two Carolinas particularly attractive. It is possible that future business interests may attract him as a resident of this section.
—Many of Walhalla's citizens were disappointed last Sunday morning in not receiving any mail from the East on the early cross-country mail. This was due to a wreck on the Southern Railway above Greensboro, N. C., on the Danville division. A freight train had been wrecked, thus blocking the track completely for several hours. Train No. 36, going East, was turned back, running on No. 35's schedule, and No. 29 managed to get through, running some five hours late. So far as we have been able to learn, no one was either hurt or killed in the wreck.

Cochran, Esq., of Anderson, who sympathize deeply with him and his wife in the loss of their young son last week by the accidental discharge of an automatic pistol. The Presbyterians of Walhalla may well congratulate themselves upon the handsome modern building which they will soon occupy.
—Rev. J. M. Steadman, of Clemson College, came to Walhalla last Sunday afternoon with Rev. R. M. Marshall, of the Episcopal church, assisting in the services. He will be cordially welcomed here on any future visits. There will be services in the Episcopal church on the second Sunday in May at 4 o'clock in the afternoon. She was once a student at the College for Women in Columbia, and has attended many of the State social functions in the Capital City. Holleman left Monday for Anderson county to attend the spring session of Presbytery, which will be held at Varennes church, which will celebrate its centennial to-day. Jas. George, of the Oconee Creek section, is also attending the meeting, he being the representative of Bethel church. Mr. Holleman states that old Varennes is the first church that he ever attended, and he recalls many interesting incidents connected with this and other churches of different denominations throughout this section of the State. Mr. Holleman is the delegate from Walhalla

The Kind You Need When the Roads Are Bad.
(A Studebaker is Always Ready to Go.)
No Loose or Broken Hub Bands on Studebaker wheels
Studebaker hub bands are made of a specially refined iron perfectly adapted for this use. Hub bands are welded by electricity and then shrunk on by hydraulic pressure.
There is not the slightest possibility of Studebaker hubs weakening from usage or from weather conditions. No strain or climate severe enough to injure them.
Studebaker Wagons
Every part—Iron or wood—is made in the same careful way as the hub and banding. That's why Studebaker wagons run easier and last longer.
Come in and see the Studebaker.
