

BREST-LITOVSK HAS FALLEN.

Most Important Achievement by Teutons Since Capture of Warsaw.

London, Aug. 26.—The Austro-Germans to-day marched into Brest-Litovsk, center of the Bug River line of defenses and main concentration center. The Russians put up a desperate resistance to the German advances, but made no attempt to defend the fortress itself, evacuating it as they did Ossowetz.

Petrograd dispatches had indicated the Russians were planning to take up defensive positions farther east.

The Germans now hold the entire railway line from Chelm to Bialystok. As the Russians have already evacuated Bialystok, the lesser fortresses of Grodno and Ohta are the only strongly defended positions remaining in the hands of the Russians. The Germans are nearing both of these lines, and they probably will be given up when they have fulfilled their purpose of facilitating the Russian retreat.

The Russians have not yet entered the vast Bieloviezh forest, which extends 30 miles north and south, and has a width of from 17 to 30 miles. South of it are the Pripiet marshes, which protect the Russian left.

Expect Nicholas to Escape.

With plenty of roads and three or four railroad lines, it is expected here that Grand Duke Nicholas will make good his retirement if Grodno and Vilna can hold out long enough. Even if they should fall military observers say the Grand Duke would be well on his way to his new positions before the Germans could reach his flank. There is again talk of Russian preparations for a stand, but no indication as to where this attempt is to be made.

Aircraft Get Busy.

Aircraft have again broken the monotony of the western warfare. Sixty-two French aeroplanes flew over the Dellingen Iron Works, near Saarbrücken, Rhenish Prussia, dropping 150 bombs, while a British aviator is reported to have dropped a bomb and destroyed a German submarine off Ostend. The German report says that four of the French machines in the attack near Saarbrücken were brought down, one, however, falling behind the French lines.

Brest-Litovsk Strong Fortress.

The Russian fortress of Brest-Litovsk had been considered one of the strongest fortresses in Europe and was the southern base of the second Russian line of defenses, to which the armies of Grand Duke Duke Nicholas retreated after the fall of Warsaw. The citadel is situated on the Bug River and at the junction of several railways, 131 miles south of Grodno, and 120 miles due east of the Polish capital.

The storming of Brest-Litovsk is probably the most important military achievement since the fall of Warsaw three weeks ago to-day. The town, which had a population of about 50,000, was one of the most important depots for, and the distributing point of, military supplies near the western frontiers of Russia proper. The fortress was rated by military critics as a much more important strategic point than was Warsaw.

Brest-Litovsk is situated at the junction of the Bug and Mukhovets rivers and the fortress was built at the point of confluence. It lies upon the right bank of the Bug, where the river turns from the north to the northeast. Intersecting here are railroads from Odessa, Kiev, Moscow, Vilna and East Prussia.

Brest-Litovsk, according to information compiled by the National Geographic Society, contained one of the oldest important fortresses in Northern Europe. The older fortifications were erected about one mile east of Brest-Litovsk and had a circumference of four miles. The field works were kept up to date and everything possible had been done to make them unconquerable. Brest-Litovsk was generally regarded in Russia as the most powerful individual stronghold in the Empire.

The capitulation means, in the opinion of military observers, that the Russians will be forced to abandon their second line, which extended northward to the Baltic base of Riga. The fall of the fortress appeared inevitable several days ago, when the Austro-German forces succeeded in throwing troops from the left to the right bank of the River Bug, just northwest of Brest-Litovsk, after which five separate armies began a terrific onslaught on the Russian defenses. On Tuesday the army on the southwestern front succeeded in breaking through the advance positions of the fortress.

The third Russian line of defense upon which the defenders of Brest-Litovsk, Warsaw, Ivangorod, Novogeorgievsk and Grodno are compelled to retire, runs through the middle of the country known as White Russia. The line begins on the north at Riga, and follows the Dvina river to Duen-

CHANGING SUBMARINE POLICY.

German Government Seeking to Conform to U. S. Demands.

Washington, Aug. 27.—Count von Bernstorff, the German ambassador, acting on instructions from Berlin, notified Secretary Lansing today that "full satisfaction" would be given to the United States for sinking the White Star liner Arabic. The ambassador explained that Germany would make more than a mere disavowal if it is found the Arabic was sunk without warning.

Count von Bernstorff conferred with Secretary Lansing at the State Department nearly half an hour. It had been suggested that perhaps Germany was ready also to make reparation for the Americans lost on the Lusitania also, but that subject did not come up at to-day's conference. The disposition of the German embassy is to take one step at a time.

No Report to Germany.

The ambassador did not make public the extent of the instructions from Berlin on which he acted, but it was understood they coincided entirely with the statement of the German chancellor in Associated Press dispatches from Berlin yesterday, expressing the willingness of the German government to make fullest reparation if it is shown finally that the Arabic was torpedoed without warning. So the German admiralty has received no report from its submarines operating in the Arabic's vicinity. Further communications are expected from Berlin to the German ambassador and to the State Department from Ambassador Gerard, which will advance the negotiations to a point where attacks on passenger-carrying ships will be definitely discontinued, at least while the subject is under discussion. The crisis between the two countries is regarded as having come into the realm of diplomacy.

More than Disavowal.

The German ambassador frankly stated after his interview with Mr. Lansing that his instructions embodied the declaration by the Berlin government that it would give full satisfaction to the American government. That he declared, meant much more than a disavowal. The giving of satisfaction would depend upon the circumstances of the attack on the Arabic, he said. The German government did not know yet, he said, whether the Arabic was sunk by a German submarine and without warning, but if investigation proves that to have been the case, Germany would make full reparation.

The ambassador said he believed the negotiations over the Arabic would be followed by negotiations over the Lusitania, in view of the official statement in Berlin that a submarine policy satisfactory to the United States would be announced. Ambassador Gerard's dispatch to the State Department agrees with Count von Bernstorff's advice that submarine commanders have been instructed to attack no more peaceful merchant ships without warning.

The American government, nevertheless, will press for a clearing up of the entire submarine controversy before it will consider the Arabic and Lusitania incidents closed. Unofficial word has been conveyed to administration officials that Count von Bernstorff believes the position of the German government will be determined by the imperial chancellor and the foreign minister.

Cures Old Sores, Other Remedies Won't Cure.
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Carter's Antiseptic Healing Oil. It relieves and heals at the same time. 75c, 50c, 25c.

English Money Reached Lowest Ebb.

New York, Aug. 26.—The English pound sterling was worth less, in American money, to-day than at any other time since the British mint began to coin it in 1817. In a thoroughly demoralized foreign exchange its value dropped to \$4.63 3/4, nearly 2 3/4 cents below normal. When the day's business ended there was every indication it would go lower still tomorrow. The previous low record had been \$4.64, reached last week.

German money alone stemmed the torrent of downward rates, reichsmarks rising to 81 3/4, the highest point touched since exchange values started down more than two weeks ago. Francs lost 10 1/2 cents and lire 5 1/2 cents.

To Drive Out Malaria
And Build Up The System
Take the Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

aburg, then turns south and follows the railroad through Vilna, Lida, Baranovichi. The line then runs through tractless swamps of Pinsk and the Pripiet river to Rovno, which lies 120 miles northeast of the Galician capital, Lemberg.

WILL SPEAK AT WALHALLA.

Hon. J. Frank Hanly to Speak Here To-morrow Afternoon at 2.30.

The citizens of this community are to be favored with two big men in the persons of Hon. J. Frank Hanly, former Governor of Indiana, and Hon. Oliver W. Stewart, of Chicago, Ill., as these gentlemen will be in the county and will speak in behalf of State-wide prohibition at Walhalla at 2.30 p. m. Thursday, (to-morrow) September 2d, in the high school auditorium. Miss Mullin, of Winchester, Ind., will sing and Miss Iris Robinson, also of Winchester, will be the pianist.

Governor Hanly will speak at 11 o'clock at Salem, and the musicians will be with him.

The coming of the speakers is looked forward to with great pleasure, and a large crowd is expected to be present to hear these great orators and men of national reputation.

Those who are responsible for their coming have arranged for the lectures to be free, and no collection will be taken.

This is an opportunity that seldom comes to us, and we should avail ourselves of this rare treat and do all we can to get a good attendance.

They will speak at Seneca at 8 p. m., in the First Baptist church, upon the same terms as here.

EVER SALIVATED BY CALOMEL? HORRIBLE.

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

Want Green Barbed Wire.

Pittsburg, Pa., Aug. 27.—Barbed wire painted a foliage green is now being manufactured here for use of the armies in Europe. Steel men say reports from abroad show that a short distance away it is impossible to see the green wire.

YOUR BODY

PROTESTS AGAINST CALOMEL.

You have noticed the disagreeable effects of calomel, that sickening nausea that is characteristic. There is no reason for tearing up your system in such a drastic manner.

LIV-VER-LAX, that wonderful vegetable compound, is just as useful as calomel for toning up your liver and ridding your system of stagnating poisons, and it does not make you feel badly like calomel. It is pleasant to take with no unpleasant after effects. Keep it in your home for health's sake.

If **LIV-VER-LAX** is not entirely satisfactory, your money will be returned without question. The original bears the likeness of L. K. Grigsby. For sale at 50c. and \$1 by Norman Drug Co., Walhalla.—Adv.

The Colored Association.

The Seneca River Baptist Association met last Friday in its 27th annual session with Ebenezer Baptist church, Seneca. This body supports Seneca Institute, of which Rev. G. B. Hancock is president.

The introductory sermon was preached by Rev. W. S. Southerland. The American Baptist Publication Society was ably represented by Dr. E. Rainey Roberts, of Florence, who taught Scripture lessons on a blackboard, illustrating passages in the Bible in a most simple manner.

Among the visitors were Rev. J. D. Brooks, of Royal Baptist church, Anderson, who was once traveling agent for the foreign mission board. Rev. J. W. Easley, missionary for State missions, preached the doctrinal sermon, which was very instructive and impressive.

Morris College (Sumter) was represented by Rev. Dr. Starks, the president. This school has recently suffered the loss of a very valuable building, and \$20 was donated to that institution.

The Woman's Auxilliary rendered an excellent program Saturday evening at 8.30. The president, Mrs. E. C. Thomas, called the house to order, after which two hours were spent in an entertaining way. This department of the work donated to Seneca Institute \$47. Many distinguished visitors were here from Greenwood, Anderson, Columbia and Georgia.

It Always Helps
says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

CARDUI
The Woman's Tonic
a trial. I still use Cardui when I feel a little bad, and it always does me good."
Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

Get a Bottle Today!

The missionary sermon was ably presented by Rev. A. B. Morton, of Simpsonville. More than 2,000 people attended this big gathering and the best of order prevailed. The officers are: Rev. J. S. Stewart, moderator; W. J. Thomas, Clerk; W. F. Ferguson, treasurer. The meeting collected from all sources about \$235. There were a hundred delegates, representing 35 churches. W. J. Thomas, Seneca, Aug. 24, 1915.

SEED FOR THE COVER CROP.

This Matter Will Soon Demand Attention—Vetch Seed Scarce.

(Clemson News Notes.)
It is time now to plan for next fall's sowings of winter cover crops, and farmers should advise themselves at once of the seed situation, as European war conditions have brought about certain peculiarities in this situation.

There will be little hairy vetch to be had in this country this year and hairy vetch is the only kind that Clemson College advises South Carolina farmers to sow. Oregon or common vetch does not do very well in this State. Most of the hairy vetch seed sown in this country comes from Russia and the war has cut off importations.

It will be possible, however, for South Carolina farmers to get plenty of burr clover seed, and they are advised to sow this and crimson clover for their winter legumes.

Fortunately, a large quantity of burr clover seed was made in this State this year and the extension division of Clemson College has the names of a number of farmers who have burr clover seed for sale. All who desire to purchase seed can get in touch with these farmers by writing to the extension division of Clemson College.

They should not delay about buying burr clover seed, however. The demand from outside is strong and the college has received many inquiries from Alabama, Mississippi and Georgia. One South Carolina farmer is now planning to ship a carload of burr clover seed to Alabama.

Farmers are not advised to delay purchasing in the hope that prices will be lower later in the season. The demand is so strong that it is not probable that prices will be lower than at present.

The strongest limiting factor in South Carolina agriculture is lack of humus and the most economical way to get humus in the soil is by growing winter legumes and turning under in spring. The growing and plowing winter legumes and turning under only put humus into the soil, but it will also add nitrogen and will thus mean a saving to farmers in the most expensive plant food element that they have to buy.

Piles Cured in 6 to 14 Days
