

## PICK COTTON QUICKLY

And Sell It Slowly—Advice Whereby You Can Save 40 Per Cent.

(Progressive Farmer.)

Here's the slogan and shibboleth we would suggest to cotton farmers now—Pick Cotton Quickly and Sell It Slowly. In the matter of picking the importance of promptness—the utmost promptness—was very effectively summed up by a former State demonstration agent who recently declared:

"From careful observation we are certain that under average conditions a field that will turn out ten bales of cotton if picked in September and October, will hardly make more than eight bales if left in the field until December or January. Then the reduced price due to poor grades will probably result in further loss to the value of two more bales. In other words, the man who, instead of picking his cotton as it opens, leaves it in the fields until late fall or early winter, suffers an average loss of around 40 per cent of its total value."

The utter wastefulness of many of our folks in this respect is almost sickening. Men, women and children will work through the hottest days of summer to keep the cotton cultivated and free from grass, and then throw away their profits by failure to pick promptly when the gentler warmth of autumn makes it a joy to be outdoors.

The farmer's profits are none too large when he gets the biggest prices the market offers. Let him not throw away by careless and delayed picking any hard-earned dollars so much needed by his wife and children. Let's pick the cotton quickly. And then let's sell it slowly.

1. Authorities point out the great depression every season from "distress" cotton and flooded markets; prices advancing later, as was the case last season. Millions of bales rushed on the early market were sold at 6 and 7 cents last fall, but it was 10 cents before planting ended. What then ought a 12,000,000-bale crop to be bringing by 1916 planting time?

2. Warehousing is the key to success here, and a State warehouse system is needed in every State. Notice Mr. McLaurin's report that farmers can borrow 80 per cent of the value of the cotton stored in the South Carolina warehouses. And notice Mr. Hardings' report that the government will stand behind the banks in financing the crop.

3. Warehouses are also needed to prevent the weather-damage to bales left out in the open after they are ginned—a loss which is estimated at \$25,000,000 a year to Texas farmers alone. This is shameful.

4. Notice also that the Arkansas Farmers' Union is helping farmers grade their cotton and sell both cotton and cotton seed in pools—work farmers in every county should organize and do for themselves. Why not in YOUR county?

It's easy enough to blame England and the government and everybody else a thousand miles away, but the first thing to do is to get right in our own cotton patch by having the cotton picked quickly; then take in the neighborhood by getting neighbors to hold, grade, warehouse and sell together; then reach the market town by having a committee interview the bankers there and get them right, and then take in the whole State by demanding a State warehouse system.

Pick quickly and sell slowly and the twelve-cent battle will be won!

EVER SALVATED BY CALOMEL? HORRIBLE.

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

Two More Bodies from F-4.

Honolulu, T. H., Sept. 1.—Two more bodies were found to-day in the hull of the submarine F-4. A note book with much of its contents illegible, was found, too, but there was nothing in it to clear the mystery of the vessel's sinking. The book contained records of the submarine's battery.

## BIG RUSS. LOSSES REPORTED.

Berlin Claims 1,100,000 Have Been Captured—300,000 Missing.

Berlin, Sept. 1.—An official review of the eastern campaign given out here to-day by the Overseas News Agency estimates that since May 2 the Russians have lost at least 300,000 men in killed or wounded, and 1,100,000 men captured by the Germans.

The announcement is as follows: "General army headquarters publishes a review of the results of offensive movements in Poland Russia since May 2, beginning with the battle at Gorlice, the headquarters estimates the strength of the Russian troops which were then directly engaged in that direction was about 1,400,000. In the fighting since May 2 1,100,000 have been captured and a minimum of 300,000 wounded or killed. This is a very conservative estimate. The actual figures are surely much higher, because the Russians saved artillery by recklessly sacrificing their infantry. Thus it is evident that armies which were first attacked at the beginning of the Austro-German offensive movement have been annihilated and their losses made up by withdrawing troops from other regions especially forces which were ready to invade Turkey.

Garrisons of half-drilled men were hurriedly transported to the front from interior fortresses. All efforts of the Russians were fruitless, however. They were driven out of Galicia, Poland, Courland and Lithuania. They were rolled backward in two separate groups. Two fortresses, among them four large and modern ones, which formed the Russian inner lines of defense, are in the hands of the Germans and Austrians. This is the result of a campaign of less than four months."

**Cattle Tick Cost U. S. \$90,000,000.**  
Washington, Sept. 4.—The cattle tick cost the United States approximately \$90,000,000 during the past year, according to estimates to-day by Dr. A. D. Melvin, chief of the Federal Bureau of Animal Industry. This includes destruction of the cattle, decreases in value of hides and in production of milk, etc.

Government agents report great headway in the organized effort to eradicate the tick, which has resulted in the Southern farmers devoting more attention to stock raising.

A circular has just been issued by Secretary Houston advising all stock interests that the eradication of the tick is essential to the development of a sound agricultural system in the South and that with it out of the way the South can produce cattle free from many of the handicaps of other sections.

### Coughs that Are Stopped!

Careful people see that they are stopped. Dr. King's New Discovery is a remedy of tried merit. It has held its own on the market for 46 years. Youth and old age testify to its soothing and healing qualities. Pneumonia and lung troubles are often caused by delay of treatment. Dr. King's New Discovery stops those hacking coughs and relieves a gripe tendency. Money back if it fails. 50c. and \$1.—Adv. 2.

### Key Taken from Lung.

(The State, Sept. 3.)  
A key used to open a can was taken from the lung of Ray Ranes, a Columbia child, at the Baptist Hospital last night by use of the bronchoscope. The child is doing nicely.

While playing with the can-opening key the lad accidentally swallowed it. He was rushed to the hospital and the use of the bronchoscope made an operation unnecessary.

Last Sunday night a gold medal was extracted from the throat of an infant by means of the same instrument.

### Greenwood Bonds Bought at Home.

Greenwood, Sept. 2.—The Commercial Bank of Greenwood was the purchaser to-day of \$100,000 of 30-year 5 per cent bonds of the city of Greenwood issued for street paving. The price paid was \$102,700. The purchase means a premium of \$2,700, the bank to receive the deposits and to pay 5 per cent on balances. The price is said by the representatives of bond buyers here to be the highest received by any city in this State within the past six months.

**Cures Old Sores, Other Remedies Won't Cure.**  
The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00

## GIVING OUT.

The Struggle Discourages Many a Citizen of Walhalla.

Around all day with an aching back.

Can't rest at night;

Enough to make any one "give out."

Doan's Kidney Pills are helping thousands.

They are for kidney backache;

And other kidney ills.

Here is Walhalla proof of their merit:

Mrs. J. F. Rochester, Factory Hill, Walhalla, says: "I can hardly describe the misery I endured from backache. When I was washing, the pains in the small of my back were so severe that I had to lie down a while until they let up a little. I was very nervous and there seemed to be a heavy burden resting on my shoulders. My kidneys acted too freely, and the kidney secretions bothered me a lot. Black specks often appeared before my eyes. I tried many medicines with no benefit. After taking Doan's Kidney Pills, procured from the Norman Drug Co., I felt relief, and two boxes fixed me up in fine shape."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rochester had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.
