

RED SHIRT HORSE AND MULE MOLASSES FEED

The greatest thing in modern feeding is MOLASSES. It cuts down the feed bill and builds up the stock.

It's something the horses and mules like—gives them an appetite—starts the saliva running and aids digestion. Far superior to an all grain feed. Give your horses and mules a treat, and at the same time save money.

Our RED SHIRT (first grade) Horse and Mule Molasses Feed contains Corn, Oats, Ground Alfalfa, made appetizing with salt and pure cane molasses, and analyzes as follows:

Protein 10%; Fat 3%; Fibre 12%; Carbohydrates 57%

PIEDMONT HORSE & MULE MOLASSES FEED Second Grade—Analyzes: Protein 12%; Carbohydrates 55%

SWAMP FOX HORSE & MULE MOLASSES FEED (3rd Grade) This analyzes: Protein 9%; Fat 2%; Fibre 12%; Carbohydrates 55%

PERFECTION HORSE & MULE FEED (Dry Mixed) We manufacture also a dry mixed (no Molasses) Horse and Mule Feed, which analyzes: Protein 12%; Fat 3%; Fibre 12%; Carbohydrates 57%. This is composed of straight grain and ground Alfalfa Meal.

RED SHIRT DAIRY FEED

First Grade: A balanced ration containing Molasses. Cattle are very fond of it—keeps them in good condition. Increases the flow and enriches the quality of the milk at a reduced cost of feeding. Contains ground Corn, C. S. Meal, Wheat Middling, Ground Alfalfa, Pure Cane Molasses and Salt. Analyzes: Protein 15%; Fat 3%; Fibre 12%; Carbohydrates 60%.

PIEDMONT DAIRY FEED Second Grade—Analyzes: Protein 12%; Fat 2½%; Fibre 12%; Carbohydrates 55%.

RED SHIRT HOG FEED A combination of Digestive Tankage, Ground Corn, Rice screenings; very fattening. Keeps the hogs in good condition.

We manufacture also RED SHIRT Scratch Feed and RED SHIRT Baby Chick Feed. "SEVEN EGGS A WEEK" HEN MASH Composed of Ground Corn, Ground Oats, Ground Wheat, Barley, Maize, Rice, Cottonseed Meal, Cow Peas, Meat Meal and Linsed Meal. Analyzes: Protein 18%; Fat 4%; Fibre 12%; Carbohydrates 40%.

As shown on the bags in our ad, nearly all of our feed is made from Carolina products, even to the bags and twine. We are, therefore, in the market for Oats, Corn, Wheat, Alfalfa Hay and any other kind of Hay.

We also carry a full stock of GRAIN, HAY AND STRAW.

Our feeds as shown above are mixed on scientific principles to furnish the greatest nourishment at the lowest cost. Let us show you how to cut your feed bills down. Write us for prices, etc.

ACTIVITY ON RUSSIAN FRONT.

Petrograd and Berlin Reports Agree to That Extent.

Petrograd, Nov. 9.—The official communication issued by the war office to-day says:

"On the left bank of the River Aa, in Courland, our forces succeeded, assisted by artillery fire, in occupying the region of Frankendorf and Pavassern and made a slight advance to the south of Lake Blabte.

"In the region of Mitau our troops advancing toward the south occupied the Zalay-Olai line, while to the west of Ikskul they carried the village of Dabe.

"Near the western shore of Lake Sventen new engagements are going on. In some sectors our troops broke into the first line of the enemy trenches. In the sector of Mikulischki and Lanuolichki, west of Lake Demmen, there was a violent artillery fire. By a furious attack of our detachment we succeeded in occupying several lines of the enemy position near the village of Gutalishovikay, capturing 400 men and some machine guns, the number of which has not yet been ascertained.

"North of the Okonko river in the region of Kolki we broke through the enemy's front and occupied a line of fortified positions, capturing 100 men and five machine guns. Stubborn fighting continues.

"In the region of Komarow and Kurikovitshi, south of the Okokaa river, heavy fighting is going on. An attempt made by the enemy to take the offensive southeast of Usielchiko, northwest of Zale Szesky, was repulsed by our fire."

COMPULSORY SERVICE?

British Recruiting Head Intimates That Time Draws Near.

London, Nov. 11.—A strong intimation of compulsion at an early date is contained in a statement to-night by the Earl of Derby, director of recruiting. This statement is made, Lord Derby declares, with the authority of the prime minister. It says:

"If young men medically fit and not indispensable in any business of national importance or any business conducted for the general good of the community do not come forward voluntarily before November 30, the government will, after that date, take the necessary steps to redeem the pledge made on November 2."

On the date referred to Premier Asquith announced in the House of Commons if young men did not come forward voluntarily and enlist "other and compulsory means would be taken before married men were called upon to fill their engagement in service. Whether a man is indispensable or not to his business will be decided, not by the man or his employer, but by competent authorities and tribunals which are being set up to consider such cases."

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR.

Save Your Hair! Make it Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

Strong Offensive Begun.

Berlin, Nov. 9.—A determined offensive movement by the Russians near Riga and down along the line of the Dvina river to Dvinsk, is reported in to-day's official German statement.

"South and southeast of Riga and also west of Jacobstadt and before Dvinsk the Russians, after extensive artillery preparation, attacked with strong forces. The attacks were repulsed and in places the enemy suffered severe losses.

"Russian attacks northwest of Czartorysk were unsuccessful. Three officers and 371 men fell into our hands."

Thanksgiving Day and the Orphan.

President Wilson has appointed November 25th as the National Thanksgiving Day. It has been our annual custom on that day, or the Sabbath following, to remember the orphans. We hope that every reader of these lines will gladly do so. You have a wonderful amount to be grateful for. Put your gratitude to the proof. Send to the orphanage of your church your thank-offering. Presbyterian people in Florida, Georgia and South Carolina will remember that they are united in supporting the Thornwell Orphanage, Clinton, S. C., which is the property of those three synods. The children are all orphans, some 300 in number. There are 17 cottage homes, each occupied by some 15 to 25 children, with a good motherly woman in charge. The children are regularly in school for 40 weeks each year, and are taught some trade or occupation by which they can earn an honest living. Usually they leave the home at the age of 16 to 18, unless an earlier discharge is found advisable. Their support depends upon gifts of good men and women. Especially at Thanksgiving times, they ought to be remembered. There are 180 children from South Carolina, 70 from Georgia and 28 from Florida. The rest came from seven other States.

Contributions should be sent simply to Thornwell Orphanage, Clinton, S. C. Checks and post office orders should be sent to the same address.

The Quinine That Does Not Affect The Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, 25c.

We have extra fine roads and I suppose this is one reason why there are so many automobiles.

I think the farmers are going to plant a big cotton crop next year. We have the farms and plenty of mules and negroes to work them. The merchants have collected so well this year that credit will be good next year.

Indigestion May Be Due to Constipation

NEGLECT OF IMPORTANT FUNCTION MAY SERIOUSLY IMPAIR THE HEALTH.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition.

Bloat, with its attendant mental depression, sick headache, the belching of sour stomach gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however; these shock the system unnecessarily and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. Benj. Bassin, 360 Madison street, Gary, Ind., thinks Dr. Caldwell's Syrup Pepsin a wonderful medicine; for four years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

BENJ. BASSIN.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

OCONEE IN ALABAMA.

Mr. Rutherford Writes of His New Home and Country.

Pine Level, Ala., Nov. 13.—Editor Keowee Courier: I promised to write you and tell you my opinion of this part of Alabama. I have been here one year, living in the eastern part of Montgomery county, in the Pine Level Valley, which is a very level section of several thousand acres of sandy, well timbered land, adapted to cotton, sugar cane, sweet potatoes, peanuts and all garden vegetables. However, cotton is the leading crop, with plenty of negroes to cultivate it. Land is rented for standing rent of a certain number of bales of cotton. The landlord furnishes mules and supplies, and the negroes pay for supplies out of the crop, and generally come off heavily in debt. The negroes get the cotton seed to buy rations while gathering the crop. Last year cotton seed sold from \$16 to \$21 per ton. This year seed opened at \$25 and went up to \$50 for a few days. They are now worth \$35. The boll weevil made its appearance here about September 1st, but did no harm. But look out next year.

The farmers in this valley sow no wheat, oats or rye. We have a State stock law, but farmers, after crops are gathered, turn all stock out to graze over the fields. I presume this is one reason for not sowing grain. Plenty of cattle and hogs, but no sheep.

We have a strict game law, but not much game. Rabbits and squirrels are plentiful, but very few partridges and doves.

Last week was "fair week" in Troy. There were big crowds, especially negroes—fully five negroes to one white person. I never saw as many automobiles. About 100 were taking people one mile out to the fair grounds at 10 cents each. The street leading out to the fair grounds had sign posts saying "keep to the right," and a policeman there to see that the notice was obeyed. Otherwise the street would have been blocked. I noticed one automobile with No. 67,560. Saturday was the last day to pay licence, and 707 automobiles were at the court house to pay. The

A Wonderful Antiseptic.

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1 size contains six times as much as the 25c.—Ad., 1.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. Cheney & Co., Toledo, Ohio.
