

DR. A. A. ODOM, Greenville Optometrist,

The Well-Known

BY SPECIAL REQUEST

Will be in Walhalla, S. C., at Dr. Barton's Drug Store, MONDAY, January 29th.
 WESTMINSTER, S. C., Gilreath Hotel, Tuesday, January 30th.
 CENTRAL, S. C., Rike's Hotel, Wednesday, January 31st.
 LIBERTY, S. C., Hunter's Pharmacy, Thursday, February 1st.
 PICKENS, S. C., Keowee Pharmacy, Friday, February 2nd.

For One Day Only — He Will be There for the Purpose of Examining Eyes and Fitting Eye-Glasses, Spectacles and Artificial Eyes. — For One Day Only

AVIATORS FOUND AT LAST.

Two Sandwiches and Two Oranges Their Food for Ten Days.

Wellton, Ariz., Jan. 19.—Lieut. Col. Harry G. Bishop and Lieut. W. A. Robertson, Jr., missing army aviators, exhausted from walking four days in the wilds of Sonora, Mexico, without food or water, were found yesterday more than 32 miles south of the border by a civilian searching party from Wellton.

Lieut. Robertson was brought back here to-day by the searchers. Lieut. Col. Bishop, too weak to walk, was left in charge of four searchers in the Rosario mountains, where he was found last night at 10 o'clock.

Two sandwiches and two oranges each was all the food the men had tasted since they left the North Island aviation base at San Diego on January 10 on their flight. Robertson told the searchers. The only water they had was taken from the radiator of the airplane, Robertson said, and it was exhausted four days ago.

On Auto's Trail.

Robertson was found yesterday and was following the tracks of the automobile of the searching party. He was trailing the base of the Gila mountains, 200 miles south of the border. He directed the searching party to the Rosario mountains, 30 miles farther south, where he said he left Bishop the day before. Bishop had become exhausted and was unable to walk.

Leaving Robertson in charge of two of the searchers, other members of the party pressed southward and found Bishop lying on the ground in a mountain pass. He was unable to talk and barely able to recognize the searchers.

Robertson said the members of the searching party were the first humans he had seen since he landed. He was unable to give definite information as to the district wherein they landed, but thought it was 250 miles or more south of the Arizona border. The searchers said neither of the men was delirious when found.

Propeller Broke.

The propeller of their airplane was broken, Robertson said, when they made a landing about 12.30 p. m. Wednesday, January 10. Enough gasoline for 30 minutes' flight remained in the tank.

The aviators remained with the airplane until 4.30 that afternoon and then abandoned it, starting across the desert toward the mountains and heading north. They drained a gallon oil can and filled it with water from the radiator of their airplane. This they carried with them.

Lieut. Robertson gave his story in detail to-night, as follows:

"We left San Diego at 8.30 a. m. January 10, intending to go across the mountains east to Calexico. Insufficient maps made it necessary to rely largely on compass readings. For this reason to keep north of the Mexican border we sailed a course 25 degrees north of east. I counted on this course putting me into the Imperial Valley well north of the border and then having to sail south for about 50 miles.

Flew Very High.

"In order to cross the high mountains it was necessary to travel high, averaging more than 7,000 feet. From this altitude it was impossible to detect a very strong north wind which I encountered in the mountains.

"I then turned southeast. After about 30 minutes on this course I could see distinctly through a haze a large body of water we thought to be the Salton Sea. The only map of this section I had showed Salton Sea much too far south so this confirmed my belief that I was right.

"As my gas was running low my only course was to keep going farther south in order to strike Calexico. Col. Bishop thought this body of water to be the Salton Sea, so both of us were satisfied we were following the correct course.

Couldn't Figure on Drift.

"Neither Col. Bishop nor myself could possibly figure on the drift of the machine. As it was hazy, it was

impossible to pick up objects clearly. The strong north wind also made our rate of travel much faster than was figured on. When about 30 minutes of search was made for the Southern Pacific Railway, which I knew to be near Salton Sea, I decided to land and investigate. The landing was almost completed when the aircraft struck soft ground and the plane tipped up. This was at 12.30 p. m., and I still thought we were at Salton Sea, and we were only convinced of our error after close examination of the surrounding country. We then decided on walking back to the Imperial Valley.

"We put one gallon of water from the radiator in an extra oil can and, with a light lunch, started northwest. That was at 4.30 p. m. January 10th.

Night and Day.

"We kept a northward course, traveling night and day. Our water gave out Sunday, January 14. By that time Col. Bishop was so weak our progress was slow. We agreed it would be wise to separate when we could travel no farther and take the only available course—I to continue on and send back help if possible.

"This I did at daybreak Wednesday, the 17th. I kept to the northwest, and at daybreak on the 18th found a trail of one of the rescuing parties. Following this trail, I caught the party about 9 a. m. on Thursday. They immediately set out to find Col. Bishop, and, following my directions, they found him about 9 p. m. January 18. He was too weak to move, but still conscious. It was necessary to leave him quiet for a few hours until he could recover his strength. I was brought by automobile this afternoon, leaving Col. Bishop in care of the rescuing parties, who consolidated."

Tamassée News.

Tamassée, Jan. 22.—Special: Our efficient postmistress was quite sick for several days last week. We hope to hear soon that she is well again and back at the post.

Mrs. W. J. Beard spent a few days last week visiting in Greenville and Spartanburg.

Mrs. C. C. Kelley is at home again after a visit of two weeks in Westminster.

Luther McBee, of Greenville, and Wardlaw Smith, of Spartanburg, were recent week-end guests of H. G. Jones.

Miss Alice Barker, who is the much-liked teacher of our school, spent the last week-end at her home at Mountain Rest.

At a meeting of the Singum Club, held two weeks ago at the home of the vice president, Miss Mary Nicholson, two new members were gladly welcomed—Robert and William Lindsey. On last Saturday afternoon the club met with Mrs. Hayne G. Jones. Again it was with great pleasure that five more members were added to the club roll—Misses Alice Reese, of Cheochee; Ina and Pearl Nicholls, Floyd and Arthur Nicholls. Up to date the total enrollment is 41, but on account of measles and whooping cough the attendance is considerably lessened.

Our union Sunday school is planning to make February 11th—"Come-to-Sunday-School Day"—a red letter day! The Singum Club hopes to give a program that will interest all visitors. The mothers and the cradle roll babies will be most cordially welcomed. Won't you all come and help make this one Sunday a model for all the following Sundays?

CALOMEL DYNAMITES

A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel to-day you'll be sick and nauseated to-morrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.

NEWS FROM FLAT SHOALS.

Interesting Meeting of S.I.A.—Work Day to Be Observed Feb. 3.

Walhalla, R. F. D., Jan. 22.—Special: Because of the inclemency of the weather, the meeting of the S. I. A. was postponed until Saturday evening of last week. Those present numbered about 25. A very interesting program was rendered. It was decided upon that we observe Saturday, February 3, as "Work Day." Such work as will improve our school building and grounds will be done on that day. Dinner will be served "picnic fashion," on the school grounds. Everybody is cordially invited to be present and to bring such tools as will be needed in cleaning up the school house, planting trees, etc. After singing a song, "Here's to the Friends We Love," the school girls served hot chocolate and cakes. After spending a short while in conversation, during which about 30 books for the school library were selected, the members returned to their homes feeling that the evening had been well spent.

Dave Owens, of Newry, and Charlie Brewer, of Tamassée, have recently moved into our community. We gladly welcome both families.

Oscar Collins and family have moved to the Port George community. We regret their departure.

Eugene Cowan left Saturday to spend some time near Westminster with his relative, Boon Grogan, who has a serious attack of measles.

James George's family is suffering from measles at present. Sam and Joe Cowan's families have smallpox, though they are not seriously ill.

Several of the school children have just recovered from the chicken pox and are in school again.

SENECA-WAGENER TOWNSHIPS

District S. S. Convention—Dr. Wm. A. Brown to Be Present.

Oconee county Sunday school workers are exceedingly fortunate to secure a visit from Dr. William A. Brown, of Chicago, one of the international secretaries, who is spending a few days in this State with State Secretary R. D. Webb, visiting cities and holding conventions. He will be at Seneca, along with Mr. Webb and Miss Agnes Ravenel, for the Seneca-Wagener Townships District Convention on Saturday, afternoon and night, February 3d.

All the Sunday school workers of the county are invited to attend this meeting. The meeting will be held in the Presbyterian church. Many of the workers from the county heard Dr. Brown a few years ago at the State Convention at Newberry, and they say that he is very fine. C. F. Hetrick, president of the Oconee County Sunday School Association, says: "I consider him the finest Sunday school worker I ever heard of."

Following is the program:
 Afternoon Session,
 (Presbyterian Church, Seneca, Saturday, February 3d.)

9:00—Devotional services. By Rev. T. I. Smith, Walhalla.

9:15—Story-telling for Character Building. Miss Agnes Ravenel.

9:45—Foning up the Sunday School. R. D. Webb, Spartanburg.

10:00—Matters of business.

4:25—The Rights of the Child. By Dr. Wm. A. Brown, Chicago.

Adjournment.

Evening Session,
 7:30—Devotional services. Rev. W. B. Aull, Walhalla.

7:45—Our Program of Service in South Carolina. By R. D. Webb.

8:00—The New Day in Sunday

PROGRAM QUARTERLY MEETING

Fourth Division, With Beaverdam W. M. S. February 3, 1917.

10:30—Devotional exercises, Mrs. A. R. Maret.

Greetings—Mrs. W. T. McClure; response, Miss Neta Bruce.

"Should the W. M. S. have a definite plan of soul winning? If so, what?" Miss Gertrude Mahaffey.

Debate—"Resolved, That Home Missions are more important than Foreign Missions." Affirmative, Mrs. O. K. Breazeale, Mrs. Ottilie Burris; negative, Rev. C. D. Boyd, Mrs. L. M. Glymph.

Reports from societies and bands; appointment of committees.

Recess for lunch.

1:30 p. m.—Bible Teaching and Giving. Mrs. C. D. Boyd.

"What are the necessary qualifications of a successful W. M. S. leader?" Mrs. Elias Earle.

"Mission work at home and abroad." Miss Ruby Hickson.

Solo—Miss Alice Cole.

"Is mission work worth while? If so, what are the best methods of carrying it on?" Mrs. Dohnia Graham.

General discussion as to how we shall make this the best year in our societies' history.

Reports of committees.

Mrs. J. H. Brown, Div. President. Miss Neta Bruce, Secretary.

A miniature electric lamp lighted by a single cell of dry battery and used for surveying is visible for 50 miles. It is used in the triangulation surveys of the United States Coast and Geodetic Survey.

School Work in South Carolina. Dr. Wm. A. Brown.

Music at both sessions led by C. F. Hetrick, of Walhalla.

Locals from Poplar.

Poplar Springs, Jan. 22.—Special: Our Sunday school has been progressing nicely under the superintendency of G. P. Rankin. Miss Elizabeth Moser was unanimously elected organist last Sunday. She is quite a musician and is capable of filling her place.

This community has lost two of her oldest and best citizens—R. N. Rankin and J. E. Addis. They were laid to rest in the Poplar cemetery on Tuesday, January 16th, Mr. Rankin at 11.30 and Mr. Addis at 2.30 o'clock. Funeral services were conducted by their pastor, Rev. L. M. Lyda.

L. F. Lee and G. A. Lynch have purchased Ford touring cars. They have put them in winter quarters, waiting for the rain to cease and the roads to get better.

Wilburn Abbott, of this community, has moved into Jas. C. Mulkey's house in West Union, and Mr. Mulkey has moved to Mr. Abbott's farm. "A fair exchange is no robbery."

William J. Hoops, who once resided in the Poplar Springs locality and went to Oklahoma, has returned on a visit. He has many friends here and elsewhere who welcome him back.

Bruce Lynch, of Clemson College, spent Thursday and Friday with his parents, Mr. and Mrs. W. R. Lynch. He was accompanied by two of his fellow-cadets.

W. H. Cole and family, of Oakway, came up last Monday to attend the funeral of Mrs. Cole's father, J. E. Addis.

Picket Post Farmers' Union.

All members of Picket Post Local Union, No. 70, are requested to be present Saturday night, January 27, at 7.30 o'clock. Business of importance to attend to.

H. G. Holland, President. C. C. Kelley, Secretary.

COTTON SEED MEAL

Fertilizer

It is about the only source of Potash. Your soils will not give you full returns for your labor without the presence of the three elements necessary to grow the plant. COTTON SEED MEAL contains all these elements—Phosphoric Acid, Ammonia and Potash.

The average, according to analysis of Clemson College, for the past 24 years

Phosphoric Acid	2.41 per ct.
Ammonia	7.49
Potash	1.60

For the last ten years:

Phosphoric Acid	2.40 per ct.
Ammonia	7.20
Potash	1.61

You can, therefore, count absolutely on an analysis of:

Phosphoric Acid	2.00 per ct.
Ammonia	7.00
Potash	1.50

And any mixed goods of this analysis, purchased from any reliable dealer, will cost you to-day at least \$44.75 per ton at interior points, full payment.

Now, after adding interests on cash price of Cotton Seed Meal, and cost of delivery, it is still the cheapest by about \$2.00 per ton. It doesn't leach easily, feeds plant evenly throughout the growing season and is a home product. All fertilizer materials advancing. Better contract now for your requirements.

You took the Potash out of the ground with your crop. It is now up to you to return it to the soil if you expect results.

Feed

Feeds are valuable in an almost exact proportion to their Fat and Protein contents. Every boy in the cattle and dairy section knows this, and the feeder's first question is, "What does it carry?" Compare the following with Cotton Seed Meal:

WHEAT BRAN—
 Combined Fat and Protein 19.4 per ct.
 Selling to-day, wholesale, at \$38.00 per ton.

WHEAT SHORTS—
 Combined Fat and Protein 19.6 per ct.
 Selling to-day, wholesale, at \$39.50 per ton.

ALFALFA HAY—
 Combined Fat and Protein 16.5 per ct.
 Selling to-day, wholesale, at \$30.00 per ton.

CORN MEAL—
 Combined Fat and Protein 13.0 per ct.
 Selling to-day, wholesale, at \$48.00 per ton.

MIXED FEED—
 Combined Fat and Protein 23.0 per ct.
 Selling to-day, wholesale, at \$40.00 per ton.

COTTON SEED MEAL—
 Based on above averages now being paid for Protein and Fat, Cotton Seed Meal should bring \$95.34 per ton.

Get prices on Cotton Seed Meal, and remember that it is Protein and Fat that counts in a feed. Why let the Northern feeder have your valuable Cotton Seed Meal in exchange for his products of much lower value? It's an unfair change. Don't you think so?

The Oil Mill is the Farmer's Friend. Cotton Seed was Once a Worthless By-Product; It is Now Second Only to Cotton in the South.

Westminster Oil & Fertilizer Company,

Westminster, S. C.
